# INTRODUCTION

## THE OFFICER DATA CARD

1. Definition and Purpose. One of the reports produced from the active duty naval officer automated record at the Chief of Naval Personnel is the Officer Data Card (ODC), NAVPERS 1301/51 (11-86). The ODC provides up-to-date data to be considered for detailing, selection boards, etc. It is imperative that information shown on the ODC is accurate, current and complete. Therefore, it is essential that the individual be given the opportunity to verify the information shown on the ODC. Correction procedures and an explanation of the items entered on the ODC are presented herein. Appendices are included which contain detailed information on foreign language, ship and station codes, service schools, and education.

2. Schedule for ODC Review: Per NAVADMIN 238/01, ODCs are no longer mailed annually. The ODC (which is prepared for active duty officers only) is now available for review online at www.bol.navy.mil.

3. Verification and Correction Procedures. Upon receipt, the officer shall review the ODC for accuracy and take the following action as necessary:

a. The numbered items prefixed by the letter "D" in the EXPLANATION OF ODC ITEMS beginning on page 3 must be changed locally by entries on the Officer Personnel Diary of the activity. See PAYPERSMAN (NAVSO-3050), Part 9, Chapter 6, for detailed instructions. Corrections to Item 25 (DEPENDENTS) and Item 47 (Academic Profile Code) should be directed to the addressees shown in the explanations for those items. Corrections to Item 92 (SECURITY) should be submitted in accordance with BUPERSINST 1301.2 series as corrections to the command's Officer Distribution Control Report (ODCR).

b. The remaining items which are considered in error, or have been omitted, should be circled in red. Corrections should be limited to transactions that occurred prior to the date in Item 106. Corrections should be noted on the ODC Change Form (reverse side) by entering the item number and correct data. Any required substantiating documents should be submitted with the ODC Change Form. If the ODC Change Form is inadequate for the number of changes requested, the officer shall check the ADDITIONAL INFORMATION block and follow the same format on a separate sheet of paper headed by grade, name, SSN, and designator. Upon completion of the verification, sign, date, and return the ODC only if corrections are required, to NSIPS Help Desk at the following: nsipshelpdesk@navy.mil Toll free (877) 589-5992. Commercial (504) 697-5442/DSN 647. It is recommended that a copy be made of the verified ODC, along with corrections, and filed in service record for future reference. If no corrections are necessary, the ODC should remain in the Officer Service Record (NAVPERS 1070/66) with a signed notation by the officer that it has been verified as correct.

4. All items contained on the ODC are listed in the following pages with relevant comments and/or definitions. If items are expressed in codes rather than the direct-read form, the code definitions or appropriate references are furnished.

Direct inquiries to COMNAVPERSCOM (PERS-432O).

Item 28. MOF (Months of Operational Flying): This is the total number of months that an aviator has acquired operational flying during his/her aviation service that counts toward the 12 years and 18 year gate. Direct inquiries to COMNAVPERSCOM (PERS-432O).

Item 29. MTG (Months to Gate): This is the number of months remaining before the officer reaches the next gate. It is calculated using the date of the ODC and the ASED. For example, an officer at the 12 year gate has had 144 months to acquire 72 months of operational flying. If that officer's MTG (Month to Gate) indicated 60 and the MFR (Months of Operational Flying Required) indicated 48, the ODC would be reporting that the officer has 60 months remaining before the 12 year gate and that there are 48 months of operational flying required to maintain maximum ACIP (Aviation Career Incentive Pay) after reaching that gate. Direct inquiries to COMNAVPERSCOM (PERS-432O).

Item 30. MFR (Months of Operational Flying Required): This is the number of months of operational flying which the officer still requires in order to meet the next gate (12 or 18 years). Direct inquiries to COMNAVPERSCOM (PERS-432O).

Item 31. AG (Aviation Gate): This entry will be either 12 or 18, indicating the next gate toward which the officer is heading. It is based on the ASED (Aviation Service Entry Date). Direct inquiries to COMNAVPERSCOM (PERS-432O).

Item 32. ASI (Aviation Status Indicator): A one-character code which indicates an aviation officer's aviation career incentive pay (ACIP) entitlement status. Refer to OPNAVINST 7220.18 (series) for code translation. Direct inquires to COMNAVPERSCOM (PERS-432O)

Item 33. ABI (Aviation Billet Indicator): This is a one-character code which indicates an officer's present operational flying status. Direct inquires to COMNAVPERSCOM (PERS-432O).

| Code | Definition |
|---|---|
| A | Operational flying billet. This officer was ordered in DIFOPS status and the MOF counter is being incremented monthly for gate purposes. |
| C* | Proficiency flying. This officer was ordered to duty involving proficiency flying (DIFPRO). The MOF counter is not being incremented. (No longer used. Retained herein for historical purposes.) |
| 0 | This ABI is used for all aviation officers not ordered to DIFOPS or DIFPRO. The MOF counter is not being incremented. |
| (blank) | Current flying status under review or officer has acquired over 18 years aviation service. |

## THE OFFICER DATA CARD

1. Definition and Purpose. One of the reports produced from the active duty naval officer automated record at the Chief of Naval Personnel is the Officer Data Card (ODC), NAVPERS 1301/51 (11-86). The ODC provides up-to-date data to be considered for detailing, selection boards, etc. It is imperative that information shown on the ODC is accurate, current and complete. Therefore, it is essential that the individual be given the opportunity to verify the information shown on the ODC. Correction procedures and an explanation of the items entered on the ODC are presented herein. Appendices are included which contain detailed information on foreign language, ship and station codes, service schools, and education.

2. Schedule for ODC Review: Per NAVADMIN 238/01, ODCs are no longer mailed annually. The ODC (which is prepared for active duty officers only) is now available for review online at www.bol.navy.mil.

3. Verification and Correction Procedures. Upon receipt, the officer shall review the ODC for accuracy and take the following action as necessary:

a. The numbered items prefixed by the letter "D" in the EXPLANATION OF ODC ITEMS beginning on page 3 must be changed locally by entries on the Officer Personnel Diary of the activity. See PAYPERSMAN (NAVSO-3050), Part 9, Chapter 6, for detailed instructions. Corrections to Item 25 (DEPENDENTS) and Item 47 (Academic Profile Code) should be directed to the addressees shown in the explanations for those items. Corrections to Item 92 (SECURITY) should be submitted in accordance with BUPERSINST 1301.2 series as corrections to the command's Officer Distribution Control Report (ODCR).

b. The remaining items which are considered in error, or have been omitted, should be circled in red. Corrections should be limited to transactions that occurred prior to the date in Item 106. Corrections should be noted on the ODC Change Form (reverse side) by entering the item number and correct data. Any required substantiating documents should be submitted with the ODC Change Form. If the ODC Change Form is inadequate for the number of changes requested, the officer shall check the ADDITIONAL INFORMATION block and follow the same format on a separate sheet of paper headed by grade, name, SSN, and designator. Upon completion of the verification, sign, date, and return the ODC only if corrections are required, to NSIPS Help Desk at the following: nsipshelpdesk@navy.mil Toll free (877) 589-5992. Commercial (504) 697-5442/DSN 647. It is recommended that a copy be made of the verified ODC, along with corrections, and filed in service record for future reference. If no corrections are necessary, the ODC should remain in the Officer Service Record (NAVPERS 1070/66) with a signed notation by the officer that it has been verified as correct.

4. All items contained on the ODC are listed in the following pages with relevant comments and/or definitions. If items are expressed in codes rather than the direct-read form, the code definitions or appropriate references are furnished.

APPENDIX A

FOREIGN LANGUAGE AND RELATED CODES
(Officer and Enlisted)

1. General

a. Standard Data Elements. The foreign language and language proficiency data elements contained in this part are DoD standard data elements published in DoDI 1336.05 and DoDM 1336.05-M. They apply to all foreign language billet requirements and personnel qualifications throughout the Navy. This includes both officer and enlisted language requirements and qualifications. In cases where Navy personnel databases display the data in a different manner for service use, the information is converted prior to export to DoD databases.

b. Background. The Defense Language Institute's language courses are leveled and each level is aimed at having the individuals attain a specific proficiency level upon completion of the course. The three fundamental courses in any given language they offer are the following. Their respective proficiency levels and the approximate maximum time necessary to complete the course when the individual has NO prior experience with that language is also given.

| COURSE LEVEL | PROF LEVEL | TIME IN YEARS |
|---|---|---|
| Basic | 20 | up to 1 |
| Intermediate | 26 | 2 |
| Advanced | 30 | 3 |

It is important to realize that not all individuals who complete the course will actually have attained the goal level of proficiency. But the level they do acquire will be documented nevertheless.

2. Language Data Elements

a. Language Identification. The Navy officer personnel master files currently carry language proficiency data for five languages on an individual and an indicator to show they have proficiency in up to four additional languages. But the proficiency levels for the additional language will not appear on the ODC. Language identifications are three character alphabetic codes. The list of codes begin on page II-A-12.

b. Language Proficiency Areas. There are four functional skill areas identified for language proficiency. The functional areas are: Listening (L), Speaking (S), Reading (R), Writing (W).

c. Language Proficiency Level. The proficiency level codes are two position codes given in each of the four functional areas described above. The codes are further defined in paragraph 4.The corresponding U.S. government inter-agency language roundtable (ILR) skill levels are also provided.

| Code | Proficiency Level | ILR Skill Level |
|---|---|---|
| 00 | No Proficiency | N/A |
| 06 | Memorized Proficiency | 0+ |
| 10 | Elementary Proficiency | 1 |
| 16 | Elementary Proficiency, Plus | 1+ |
| 20 | Limited Working Proficiency | 2 |
| 26 | Limited Working Proficiency, Plus | 2+ |
| 30 | General Professional Proficiency | 3 |
| 36 | General Professional Proficiency, Plus | 3+ |
| 40 | Advanced Professional Proficiency | 4 |
| 46 | Advanced Professional Proficiency, Plus | 4+ |
| 50 | Functionally Native Proficiency | 5 |

d. Language Evaluation Method. This table indicates Navy codes used to identify the method of certifying foreign language proficiency and the corresponding DoD language proficiency source codes from DoDI 1336.05.

| Navy Code | Evaluation Method | DoD Language Proficiency Source (Code) |
|---|---|---|
| 0 | None | Self-reported (B) |
| 1 | DoD Standardized Test | Formally assessed (A) |
| 2 | Self-Appraisal | Self-reported (B) |
| 3 | Interview (formal Oral Proficiency Interview) | Formally assessed (A) |

e. Language Skill Source Code. These codes indicate how an individual acquired their language proficiency.

| Code | Language Proficiency Source |
|---|---|
| A | Civilian School Course |
| B | Defense Language Institute (DLI) |
| C | Foreign Residence |
| D | Home Environment |
| E | Military School Other Than DLI |
| F | Self-Study |
| G | Survival level language course |

This data is required for those who are self-evaluating their proficiency as well as those who have taken a DLI test. It will be stored on the personnel master files but will not appear on the Officer Data Card (ODC).

3. Proficiency Level Measurement

a. Testing/Interviewing. See OPNAVINST 5200.37 for policy governing foreign language testing.

(1) The Defense Language Proficiency Test (DLPT) is used to measure an individual's level of proficiency in the Listening and Reading modalities. Proficiency up to level 30 can be assessed by the DLPT Low Range (LR) exam. Proficiency at the 36 and 40 levels can be assessed by the DLPT Upper Range (UR) exam. DLPT Very Low Range (VLR) exams have been developed to more accurately measure proficiencies below level 20 (up to level 16). DLPT exams are administered at approved

locations throughout the Navy and may be a required upon completion of a DLI language course. Navy personnel may test at non-Navy DLPT testing sites such as those operated by the other military services.

(2) Speaking proficiency is measured via an oral proficiency interview (OPI). Testing upon completion of DLI courses of instruction normally includes an OPI. Additional guidance on OPIs may be found in OPNAVINST 5200.37.

(3) Writing proficiency is not normally measured by testing. However, for special requirements and circumstances, arrangements can be made for evaluation of writing by DLI.

(4) Award of level 40 (Advanced Professional Proficiency) is dependent on DLPT UR exam results, or may be awarded as a result of OPI exams.

(5) Award of level 50 (Functionally Native Proficiency) is normally awarded only to individuals who have been educated at the graduate or doctoral level where the subject language is the medium of instruction.

b. Self-Appraised Language Proficiency. Personnel who have language skills, but do not take the DLPT, can evaluate themselves or 'self-assess'. Proficiency in any of the skill areas should be reported. Proficiency in five languages will be accepted. Self-evaluation in English is neither required nor desired. If the individual has proficiency in more than five languages they should indicate what those languages are. This self-evaluated data is reported by the individual on ODC verifications, qualification questionnaires, by letter to Commander, Navy Personnel Command (PERS-333) or may be entered into the Navy Standard Integrated Personnel System (NSIPS) by command administrative staff.

(1) For NSIPS, go to the 'personnel maintenance' section and select 'languages.' Then select 'use' languages. Input the member's social security number to begin.

(2) When adding self-assessed language proficiency ) into NSIPS, include the language by name and by the DoD three digit code; the two digit proficiency level in the four functional skill areas; the one digit evaluation method; the one digit proficiency source (which does not appear on the ODC). Descriptions of the appropriate codes are available using the 'look up' function in NSIPS or by reading the following sections of this manual.

c. Reporting of Foreign Language Proficiency. Officer and enlisted personnel database managers receive official score reports from DLPT and OPI testing from the official testing authorities via the Navy Foreign Language Testing Office. Self-assessed language proficiency may be entered by command admin personnel via Navy Standard Integrated Personnel System (NSIPS) using the steps in paragraph 3b above. Errors in foreign language proficiency data which cannot be resolved at the command level should be addressed to OPNAV N13F1 at NXAG_N13F1@navy.mil.

4. Proficiency Levels.

a. Listening Comprehension (L)

| LEVEL | SKILL |
|---|---|
| 00 | No Proficiency |

No practical understanding of the spoken language. Understanding is limited to occasional isolated words with essentially no ability to comprehend communication.

| | |
|---|---|
| 06 | Memorized Proficiency |

Sufficient comprehension to understand a number of memorized utterances in areas of immediate needs. Slight increase in utterance length understood but requires long pauses between understood phrases and repeated requests on the listener's part for repetition. Understands with reasonable accuracy only when this involves short memorized utterances of formulae. Utterances understood are relatively short in length. Misunderstandings arise due to ignoring or inaccurately hearing sounds or word endings (both inflectional and non-inflectional) distorting the original meaning. Can understand only with difficulty even persons such as teachers who are used to speaking with non-native speakers. Can understand best those statements where context strongly supports the utterance's meaning. Gets some main ideas.

| | |
|---|---|
| 10 | Elementary Proficiency |

Sufficient comprehension to understand utterances about basic survival needs and minimum courtesy and travel requirements. In areas of immediate need or on very familiar topics, can understand simple questions and answers, simple statements and very simple face-to-face conversations in a standard dialect. These must often be delivered more clearly than normal at a rate slower than normal, with frequent repetitions or paraphrase (that is, by a native used to dealing with foreigners). Once learned, these sentences can be varied for similar level vocabulary and grammar and still be understood. In the majority of the utterances, misunderstandings arise due to overlooked or misunderstood syntax and other grammatical clues. Comprehension vocabulary inadequate to understand anything but the most elementary needs. Strong interference from the candidate's native language occurs. Little precision in the information understood owing to tentative state of passive grammar and lack of vocabulary. Comprehension areas include basic needs such as meals, lodging, transportation, time and simple directions (including both route instructions and orders from customs officials, policemen, etc.). Understands main ideas.

16 Elementary Proficiency, Plus

Sufficient comprehension to understand short conversations about all survival needs and limited social demands. Developing flexibility evident in understanding into a range of circumstances beyond immediate survival needs. Shows spontaneity in understanding by speed, although consistency of understanding uneven. Limited vocabulary range necessitates repetition for understanding. Understands commoner forms, some word order patterns, but miscommunication still occurs with more complex patterns. Cannot sustain understanding of coherent structures in longer utterances or in unfamiliar situations. Understanding of descriptions and the giving of precise information is limited. Aware of basic cohesive features, e.g., pronouns, verb inflections, but many are unreliably understood, especially if less immediate in reference. Understanding is largely limited to a series of short discrete utterances, still has to ask for utterances to be repeated. Some ability to understand facts.

20 Limited Working Proficiency

Sufficient comprehension to understand conversations on routine social demands and limited job requirements. Able to understand face-to-face speech in a standard dialect, delivered at a normal rate with some repetition and rewording, by a native speaker not used to dealing with foreigners, about everyday topics common personal and family news, well-known current events, and routine office matters through descriptions and narration about current, past and future events. Can follow essential points of discussion or speech at an elementary level on topics in his/her special professional field. Only understands occasional words and phrases of statements made in unfavorable conditions, for example through loudspeakers outdoors. Understands factual content. Native language causes less interference in listening comprehension. Able to understand facts, i.e., the lines but not between or beyond the lines.

26 Limited Working Proficiency, Plus

Sufficient comprehension to understand most routine social demands and most conversations on work requirements as well as some discussions on concrete topics related to particular interests and special fields of competence. Often shows remarkable ability and ease of understanding, but under tension or pressure may break down. Candidate may display weakness or deficiency due to inadequate vocabulary base or less than secure knowledge of grammar or syntax. Normally understands general vocabulary with some hesitant understanding of everyday vocabulary still evident. Can sometimes detect emotional overtones. Some ability to understand implications.

30 General Professional Proficiency

Able to understand the essentials of all speech in a standard dialect including technical discussions within a special field. Has effective understanding of face-to-face speech, delivered with normal clarity and speed in a standard dialect, on general topics and areas of special interest. Understands hypothesizing and supported opinions. Has broad enough vocabulary that rarely has to ask for paraphrasing or explanation. Can follow accurately the essentials of conversations between educated native speakers, reasonably clear telephone calls, radio broadcasts, news stories similar to wire service reports, some oral reports, some oral technical reports and public addresses on non-technical subjects. Can understand without difficulty all forms of standard speech concerning a special professional field. Does not understand native speakers if they speak very quickly or use some slang or dialect. Can often detect emotional overtones. Can understand implications.

36 General Professional Proficiency, Plus

Comprehends most of the content and intent of a variety of forms and styles of speech pertinent to professional needs, as well as general topics and social conversation. Ability to comprehend many sociolinguistic and cultural references. However, may miss some subtleties and nuances. Increased ability to comprehend unusually complex structures in lengthy utterances and to comprehend many distinctions in language tailored for different audiences. Increased ability to understand native speakers talking quickly, using nonstandard dialect or slang. However, comprehension not complete. Can discern some relationships among sophisticated listening materials in the context of broad experience. Can follow some unpredictable turns of thought readily in, for example, informal and formal speeches covering editorial, conjectural and literary material in subject matter areas directed to the general listener.

40 Advanced Professional Proficiency

Able to understand all forms of speech pertinent to professional needs. Able to understand fully all speech with extensive and precise vocabulary, subtleties and nuances in all standard dialects on any subject relevant to professional needs within the range of his/her experience, including social conversations, all intelligible broadcasts and telephone calls, and many kinds of technical discussions and discourse. Understands language specifically tailored (including persuasion, representation, counseling, and negotiating) to different audiences. Able to understand the essentials of speech in some nonstandard dialects. Has difficulty in understanding extreme dialect and slang, also in understanding speech in unfavorable conditions, for example, through bad loudspeakers outdoors. Can discern relationships among sophisticated listening materials in the context of broad experience. Can follow unpredictable turns of thought readily in, for example, informal and formal speeches covering editorial, conjectural, and literary material in any subject matter directed to the general listener.

46 Advanced Professional Proficiency, Plus

Increased ability to understand extremely difficult and abstract speech as well as ability to understand all forms and styles of speech pertinent to professional needs, including social conversations. Increased ability to comprehend native speakers using extreme nonstandard dialects and slang as well as to understand speech in unfavorable conditions. Strong sensitivity to sociolinguistic and cultural references. Accuracy is close to that of a well-educated native listener, but still not equivalent.

50 Functionally Native Proficiency

Comprehension equivalent to that of the well-educated native listener. Able to understand fully all forms and styles of speech intelligible to the well-educated native listener, including a number of regional dialects, highly colloquial speech and conversations and discourse distorted by marked interference from other noise. Able to understand how natives think as they create discourse. Able to understand extremely difficult and abstract speech.

b. Reading Comprehension (R)

00 No Proficiency

No practical ability to read the language. Consistently misunderstands or cannot comprehend at all.

06 Memorized Proficiency

Can recognize all the letters in the printed alphabetic system and high frequency elements of a syllabary or a character system. Able to read some or all of the following: numbers, isolated words and phrases, personal and place names, street signs, office and shop designations. The above are often interpreted inaccurately. Unable to read connected prose.

10 Elementary Proficiency

Sufficient comprehension to read very simple connected written material in a form equivalent to usual printing or typescript. Can read either representations of familiar formulaic verbal exchanges or simple language containing only the highest frequency structural patterns and vocabulary, including shared international vocabulary items and cognates (when appropriate). Able to read and understand known language elements that have been recombined in new ways to achieve different meanings at a similar level of simplicity. Texts may include narratives of routine behavior, highly predictable descriptions of persons, places or things, and explanations of geography and government such as those simplified for tourists. Some misunderstandings possible on simple texts. Can identify general subject matter in some authentic texts.

16 Elementary Proficiency, Plus

Sufficient comprehension to understand simple discourse in printed form for informative social purposes. Can read material such as announcements of public events, simple prose containing biographical information or narration of events, and straightforward newspaper headlines. Can guess at unfamiliar vocabulary if highly contextualized, but with difficulty in unfamiliar contexts. Can get some main ideas and locate routine information of professional significance in more complex texts. Can follow essential points of written discussion at an elementary level on topics in his/her special professional field. In commonly taught languages, the individual may not control the structure well. For example, basic grammatical relations are often misinterpreted, and temporal reference may rely primarily on lexical items as indicators.

Has some difficulty with the cohesive factors in discourse, such as matching pronouns with referents. May have to read materials several times for understanding.

20 Limited Working Proficiency

Sufficient comprehension to read simple, authentic written material in a form equivalent to usual printing or typescript on subjects within a familiar context. Able to read with some misunderstanding straightforward, familiar, factual material, but in general insufficiently experienced with the language to draw inferences directly from the linguistic aspects of the text. Can locate and understand the main ideas and details in material written for the general reader. However, persons who have professional knowledge of a subject may be able to summarize or perform sorting and locating tasks with written texts that are well beyond their general proficiency level. The individual can read uncomplicated, but authentic prose on familiar subjects that are normally presented in a predictable sequence which aids the reader in understanding. Texts may include descriptions and narrations in contexts such as news items describing frequently occurring events, simple biographical information, social notices, formulaic business letters, and simple technical material written for the general reader. Generally the prose that can be read by the individual are predominantly in straightforward/high-frequency sentence patterns. The individual does not have a broad active vocabulary (that is, which he/she recognizes immediately on sight), but is able to use contextual and real-world cues to understand the text. Characteristically, however, the individual is quite slow in performing such a process. He/she is typically able to answer factual questions about authentic texts of the types described above.

26 Limited Working Proficiency, Plus

Sufficient comprehension to understand most factual material in non-technical prose as well as some discussions on concrete topics related to special professional interests. Is markedly more proficient at reading materials on a familiar topic. Is able to separate the main ideas and details from lesser ones and uses that distinction to advance understanding. The individual is able to use linguistic context and real-world knowledge to make sensible guesses about unfamiliar material. Has a broad active reading vocabulary. The individual is able to get the gist of main and subsidiary ideas in texts which could only be read thoroughly by persons with much higher proficiencies. Weaknesses include slowness, uncertainty, inability to discern nuance and/or intentionally disguised meaning.

30 General Professional Proficiency

Able to read within a normal range of speed and with almost complete comprehension a variety of authentic prose material on unfamiliar subjects. Reading ability is not dependent on subject matter knowledge, although it is not expected that the individual can comprehend thoroughly subject matter which is highly dependent on cultural knowledge or which is outside his/her general experience and not accompanied by explanation. Text-types include news stories similar to wire service reports or international news items in major periodicals, routine correspondence, general reports, and technical material in his/her professional field. All of these may include hypothesis, argumentation, and supported opinions. Misreading rare. Almost always able to interpret material correctly, relate ideas, and "read between the lines" (that is, understand the writer's implicit intents in texts of the above types). Can get the gist of more sophisticated texts, but may be unable to detect or understand subtlety and nuance. Rarely has to pause over or reread general vocabulary. However, may experience some difficulty with unusually complex structure, and low frequency idioms.

36 General Professional Proficiency, Plus

Can comprehend a variety of styles and forms pertinent to professional needs. Rarely misinterprets such texts or rarely experiences difficulty in relating ideas or making inferences. Able to comprehend many sociolinguistic and cultural references. However, may miss some nuances and subtleties. Able to comprehend a considerable range of intentionally complex structures, low frequency idioms, and uncommon connotative intentions. However, accuracy is not complete. The individual is typically able to read with facility, understand, and appreciate contemporary expository, technical, or literary texts which do rely heavily on slang and unusual idioms.

40 Advanced Professional Proficiency

Able to read fluently and accurately all styles and forms of the language pertinent to professional needs. The individual's experience with the written language is extensive enough that he/she is able to relate inferences in the text to the real-world knowledge and understand almost all sociolinguistic and cultural references. Able to "read beyond the lines" (that is, to understand the full ramifications of texts as they are situated in the wider cultural, political, or social environment). Able to read and understand the intent of writer's employment of nuance and subtlety. The individual can discern relationships among sophisticated written materials in the context of broad experience. Can follow unpredictable

turns of thought readily in, for example, editorial, conjectural, and literary texts in any subject matter area directed to the general reader. Can read essentially all materials in his/her special field, including official and professional documents and correspondence. Recognizes all professionally relevant vocabulary known to the educated non-professional native.

46 Advanced Professional Proficiency, Plus

Nearly native ability to read and understand extremely difficult or abstract prose. A very wide variety of vocabulary, idioms, colloquialisms, and slang. Strong sensitivity to and understanding of sociolinguistic and cultural references. Little difficulty in reading less than fully legible handwriting. Broad ability to "read beyond the lines" (that is, to understand the full ramifications of texts as they are situated in the wider cultural, political, or social environment). Is nearly that of a well-educated native reader. Accuracy is close to that of the well-educated native reader, but not equivalent.

50 Functionally Native Proficiency

Reading proficiency is functionally equivalent to that of a well-educated native reader. Can read extremely difficult and abstract prose. For example, general legal and technical as well as highly colloquial writings. Able to read literary texts, typically including contemporary avant-garde prose, poetry, and theatrical writing. Can read classical/archaic forms of literature with the same degree of facility as the well-educated, but non-specialist native. Reads and understands a wide variety of vocabulary and idioms, colloquialisms, slang and pertinent cultural references. With varying degrees of difficulty, can read all kinds of handwritten documents. Accuracy of comprehension is equivalent to that of a well-educated native reader.

c. Speaking Proficiency (S)

00 No Proficiency

Unable to function in the spoken language. Oral production is limited to occasional isolated words. Has essentially no communicative ability.

06 Memorized Proficiency

Able to satisfy immediate needs using rehearsed utterances. Shows little real autonomy of expression, flexibility or spontaneity. Can ask questions or make statements with reasonable accuracy only with memorized utterances or formulae. Attempts at creating speech are usually unsuccessful. Example, the individual's vocabulary is usually limited to areas of immediate survival needs. Most utterances are telegraphic, that is, functors (linking words, markers and the like) are omitted, confused or distorted. An individual can usually differentiate most significant sounds when produced in isolation, but, when combined in words or groups of words, errors may be frequent. Even with repetition, communication is severely limited even with persons used to dealing with foreigners. Stress, intonation, tone, etc. are usually quite faulty.

10 Elementary Proficiency

Able to satisfy minimum courtesy requirements and maintain very simple face-to-face conversations on familiar topics. A native speaker must use slowed speech, repetition, paraphrase, or a combination of these to be understood by this individual. Similarly, the native speaker must strain and employ real-world knowledge to understand even the simple statements/questions from this individual. This speaker has a functional, but limited proficiency. Misunderstandings are frequent, but the individual is able to ask for help and to verify comprehension of native speech in face-to-face interaction. The individual is unable to produce continuous discourse except with rehearsed material. Examples: structural accuracy is likely to be random or severely limited. Time concepts are vague. Vocabulary is inaccurate, and its range is very narrow. The individual often speaks with great difficulty. By repeating, such speakers can make themselves understood to native speakers who are in regular contact with foreigners, but there is little precision in the information conveyed. Needs, experience, or training may vary greatly from individual to individual. For example, speakers at this level may have encountered quite different vocabulary areas. However, the individual can typically satisfy predictable simple, personal and accommodation needs. Can generally meet courtesy, introduction, and identification requirements, exchange greetings, elicit and provide, for example, predictable and skeletal biographical information. He/she might give information about business hours, explain routine procedures in a limited way and state in a simple manner what actions will be taken. He/she is able to formulate some questions even in languages with complicated question constructions. Almost every utterance may be characterized by structural errors and errors in basic grammatical relations.

Vocabulary is extremely limited and characteristically does not include modifiers. Pronunciation, stress, and intonation are generally poor, often heavily influenced by another language. Use of structure and vocabulary is highly imprecise.

16 Elementary Proficiency, Plus

Can initiate and maintain predictable face-to-face conversations and satisfy limited social demands. He/she may, however, have little understanding of the social conventions of conversation. The interlocutor is generally required to strain and employ real-world knowledge to understand even some simple speech. The speaker at this level may hesitate to change subjects due to lack of language resources. Range and control of the language are limited. Speech largely consists of a series of short discrete utterances. Examples: The individual is able to satisfy most travel and accommodation needs and a limited range of social demands beyond exchange of skeletal biographic information. Speaking ability may extend beyond immediate survival needs. Accuracy in basic grammatical relations is evident, although not consistent. May exhibit the more common forms of verb tenses, for example, but may make frequent errors in formation and selection. While some structures are established, errors occur in more complex patterns. The individual typically cannot sustain coherent structures in longer utterances or unfamiliar situations. Ability to describe and give precise information is limited. Person, space, and time references are often used incorrectly. Pronunciation is understandable to natives used to dealing with foreigners. Can combine most significant sounds with reasonable comprehensibility, but has difficulty in producing certain sounds in certain positions or in certain combinations. Speech will usually be labored. Frequently has to repeat utterances to be understood by the general public.

20 Limited Working Proficiency

Able to satisfy routine social demands and limited work requirements. Can handle routine work-related interactions that are limited in scope. In more complex and sophisticated work-related tasks, language usage generally disturbs the native speaker. Can handle with confidence, but not with facility, most normal, high-frequency social conversational situations including extensive, but casual conversations about current events, as well as work, family, and autobiographical information. The individual can get the gist of most everyday conversations, but has some difficulty understanding native speakers in situations that require specialized or sophisticated knowledge. The individual utterances are minimally cohesive. Linguistic structure is usually not very elaborate and not thoroughly controlled. Errors are frequent. Vocabulary use is appropriate for high-frequency utterances, but unusual or imprecise elsewhere. Examples: while these interactions will vary widely from individual to individual, the individual can typically ask and answer predictable questions in the workplace and give straightforward instructions to subordinates. Additionally, the individual can participate in personal and accommodation-type interactions with elaboration and facility, that is, can give and understand complicated, detailed, and extensive directions and make non-routine changes in travel and accommodation arrangements. Simple structures and basic grammatical relations are typically controlled. However, there are areas of weakness. In the commonly taught languages, these may be simple markings such as plurals, articles, linking words, and negatives or more complex structures such as tense/aspect usage, case morphology, passive constructions, word order, and embedding.

26 Limited Working Proficiency, Plus

Able to satisfy most work requirements with language usage that is often, but not always, acceptable and effective. The individual shows considerable ability to communicate effectively on topics relating to particular interests and special fields of competence. Often shows a high degree of fluency and ease of speech, yet when under tension or pressure, the ability to use the language effectively may deteriorate. Comprehension of normal native speech is typically nearly complete. The individual may miss cultural and local references and may require a native speaker to adjust his/her limitations in some ways. Speakers often perceive the individual's speech to contain awkward or inaccurate phrasing of ideas. Mistaken time, space, and person references, or to be in some way inappropriate, if not strictly incorrect. Examples: typically the individual can participate in most social, formal and informal interactions, but limitations either in range of contexts, types of tasks, or level of accuracy hinder effectiveness. The individual may be ill at ease with the use of the language either in social interaction or in speaking at length or in professional contexts. He/she is generally strong in either structural precision or vocabulary, but not in both. Weakness or unevenness in one of the foregoing, or pronunciation, occasionally results in miscommunication. Normally controls, but cannot always easily produce general vocabulary. Discourse is often incohesive.

30 General Professional Proficiency

Able to speak the language with sufficient structural accuracy and vocabulary to participate effectively in most formal and informal conversations on practical, social, and professional topics; nevertheless, the individual's limitations generally

restrict the professional contexts of language use to matters of shared knowledge and/or international convention. Discourse is cohesive. The individual uses the language acceptably, but with some noticeable imperfections, yet, errors virtually never interfere with understanding and rarely disturb the native speaker. The individual can effectively combine structure and vocabulary to convey his/her meaning accurately. The individual speaks readily and fills pauses suitably. In face-to-face conversation with natives speaking the standard dialect at normal rate of speech, comprehension is quite complete. Although cultural references, proverbs and the implications of nuances and idioms may not be fully understood, the individual can easily repair the conversation. Pronunciation may be obviously foreign. Individual sounds are accurate, but stress, intonation, and pitch control may be faulty. Examples: can typically discuss particular interests and special fields of competence with reasonable ease. Can use the language as part of normal professional duties such as answering objections, clarifying points, justifying decisions, understanding the essence of challenges, stating and defending policies, conducting meetings, delivering briefings, or other extended and elaborate informative monologues. Can reliably elicit information and informed opinion from native speakers. Structural inaccuracy is rarely the major cause of misunderstanding. Use of structural devices is flexible and elaborate. Without searching for words or phrases, the individual uses the language clearly and relatively naturally to elaborate concepts freely and make ideas easily understandable to native speakers. Errors occur in low-frequency and highly complex structures.

40 Advanced Professional Proficiency

Able to use the language fluently and accurately on all levels normally pertinent to professional needs. The individual's language usage and ability to function are fully successful. Organizes discourse well, using appropriate rhetorical speech devices, native cultural references, and understanding. Language ability only rarely hinders him/her in performing any task requiring language. Yet, the individual would seldom be perceived as a native. Speaks effortlessly and smoothly and is able to use the language with a high degree of effectiveness, reliability, and precision for all representational purposes within the range of personal and professional experience and scope of responsibilities. Can serve as an informal interpreter in a range of unpredictable circumstances. Can perform extensive, sophisticated language tasks, encompassing most matters of interest to well-educated native speakers, including tasks which do not bear directly on a professional specialty. Examples: can discuss in detail concepts which are fundamentally different from those of the target culture and make those concepts clear and accessible to the native speaker. Similarly, the individual can understand the details and ramifications of concepts that are culturally or conceptually different from his/her own. Can set the tone of inter-personal official, semi-official, and non-professional verbal exchanges with a representative range of native speakers (in a range of varied audiences, purposes, tasks and settings). Can play an effective role among native speakers in such contexts as conferences, lectures, and debates on matters of disagreement. Can advocate a position at length, both formally and in chance encounters, using sophisticated verbal strategies. Can understand and reliably produce shifts of both subject matter and tone. Can understand native speakers of the standard and other major dialects in essentially any face-to-face interaction.

46 Advanced Professional Proficiency, Plus

Speaking proficiency is regularly superior in all respects, usually equivalent to that of a well-educated, highly articulate native speaker. Language ability does not impede the performance of any language task. However, the individual would not necessarily be perceived as culturally native. Examples: the individual organizes disclosure well, employing functional rhetorical speech devices, native cultural references and understanding. Effectively applies a native speaker's social and circumstantial knowledge. However, cannot sustain that performance under all circumstances. While the individual has a wide range and control of structure, an occasional non-native slip may occur. The individual has a sophisticated control of vocabulary and phrasing that is rarely imprecise, yet there are occasional weaknesses in idioms, colloquialisms, pronunciation, cultural reference or there may be an occasional failure to interact in a totally native manner.

50 Functionally Native Proficiency

Speaking proficiency is functionally equivalent to that of a well-educated native speaker and reflects the cultural standards of the country where the language is natively spoken. The individual uses the language with complete flexibility and intuition, so that speech on all levels is fully accepted by well-educated native speakers in all of its features, including breadth of vocabulary and idiom, colloquialisms, and pertinent cultural references. Pronunciation is typically consistent with that of well-educated native speakers of a non-stigmatized dialect.

d. Writing Proficiency (W)

00 No Proficiency

No functional writing ability.

06 Memorized Proficiency

Writes using memorized material and set expressions. Can produce symbols in an alphabetic or syllabic writing system or 50 of the most common characters. Can write numbers and dates, own name, nationality, address, etc., such as on a hotel registration form. Otherwise, ability to write is limited to simple lists of common items such as a few short sentences. Spelling and even representation of symbols (letters, syllables, characters) may be incorrect.

10 Elementary Proficiency

Has sufficient control of the writing system to meet limited practical needs. Can create by writing statements and questions on topics very familiar to him/her within the scope of his/her very limited language experience. Writing vocabulary is inadequate to express anything but elementary needs. Writes in simple sentences making continual errors in spelling, grammar and punctuation but writing can be read and understood by native reader used to dealing with foreigners attempting to write his/her language. Writing tends to be a loose connection of sentences (or fragments) on a given topic and provides little evidence of conscious organization. While topics which are "very familiar" and elementary needs vary considerably from individual to individual, any person at this level should be able to write simple phone messages, excuses, notes to service people and simple notes to friends. (800-1000 characters controlled)

16 Elementary Proficiency, Plus

Sufficient control of writing system to meet most survival needs and limited social demands. Can create sentences and short paragraphs related to most survival needs (food, lodging, transportation, immediate surroundings and situations) and limited social demands. Can express fairly accurate present and future time. Can produce some past verb forms but not always accurately or with correct usage. Can relate personal history, discuss topics such as daily life, preferences and very familiar material. Shows good control of elementary vocabulary and some control of basic syntactic patterns but major errors still occur when expressing more complex thoughts. Dictionary usage may still yield incorrect vocabulary of forms, although the individual can use a dictionary to advantage to express simple ideas. Generally cannot use basic cohesive elements of discourse to advantage (such as relative contructions, object pronouns, connectors, etc.). Can take notes in some detail on familiar topics and respond to personal questions using elementary vocabulary and common structures. Can write some simple letters, summaries of biographical data and work experience with fair accuracy. Writing, though faulty, is comprehensible to native speakers used to dealing with foreigners.

20 Limited Working Proficiency

Able to write social correspondence and prepare documentary materials required for most limited work requirements. Has writing vocabulary sufficient to express himself/herself simply with some circumlocutions. Can write simply about a very limited number of current events or daily situations. Still makes common errors in spelling and punctuation but shows some control of the most common formats and punctuation conventions. Good control of morphology of language (in inflected languages) and some of the most frequently used syntactic structures. Elementary constructions are usually handled quite accurately and writing is understandable to a native reader not used to reading the writing of foreigners. Uses a limited number of cohesive devices.

26 Limited Working Proficiency, Plus

Shows ability to write with some precision and in some detail about most common topics. Can write on concrete topics relating to particular interests and special fields of competence. Often shows surprising fluency and ease of expression but under time constraints and pressure language may be inaccurate and/or incomprehensible. Generally strong in either grammar or vocabulary but not in both. Weakness or unevenness in one of the foregoing or in spelling result in occasional miscommunication. Areas of weakness range from simple constructions such as plurals, articles, prepositions and negatives to more complex structures such as tense usage, passive constructions, word order and relative clauses. Normally controls general vocabulary with some misuse of everyday vocabulary evident. Shows a limited ability to use circumlocutions. Uses dictionary to advantage to supply unknown words. Can take fairly accurate notes on material

presented orally and handle with fair accuracy most social correspondence. Writing is understandable to native speakers not used to dealing with foreigners' attempts to write in language, though style is still obviously foreign.

30 General Professional Proficiency

Able to use the language effectively in most formal and informal written exchanges on practical, social and professional topics. Can write reports, summaries, short library research papers on current events, on particular areas of interest or on special fields with reasonable ease. Control of structure, spelling and general vocabulary is adequate to convey his/her message accurately but style may be obviously foreign. Errors virtually never interfere with comprehension and rarely disturb the native reader. Punctuation generally controlled. Employs a full range of structures. Control of grammar good with only sporadic errors in basic structures, occasional errors in the most complex frequent structures and somewhat more frequent errors in low frequency complex structures. Consistent control of compound and complex sentences. Relationship of ideas is consistently clear.

36 General Proficiency, Plus

Able to write the language in a few prose styles pertinent to professional/educational needs. Not always able to tailor language to suit audience. Weakness may lie in poor control of low frequency complex structures, vocabulary or the ability to express subtleties and nuances. May be able to write on some topics pertinent to professional/educational needs. Organization may suffer due to lack of variety in organizational patterns or in variety of cohesive devices.

40 Advanced Professional Proficiency

Able to write the language precisely and accurately in a variety of prose styles pertinent to professional/educational needs. Errors of grammar are rare including those in low frequency complex structures. Consistently able to tailor language to suit audience and able to express subtleties and nuances. Expository prose is clearly, consistently and explicitly organized. The writer employs a variety of organizational patterns, uses a wide variety of cohesive devices such as ellipsis and parallelisms, and subordinates in a variety of ways. Able to write on all topics normally pertinent to professional/educational needs and on social issues of a general nature. Writing adequate to express all his/her experiences.

46 Advanced Professional Proficiency, Plus

Able to write the language precisely and accurately in a wide variety of prose style pertinent to professional/educational needs. May have some ability to edit but not in the full range of styles. Has some flexibility within a style and shows some evidence of a use of stylistic devices.

50 Functionally Native Proficiency

Has writing proficiency equal to that of a well-educated native. Without non-native errors of structure, spelling, style or vocabulary, can write and edit both formal and informal correspondence, official reports and documents, and professional/educational articles including writing for a special purpose which might include legal, technical, educational, literary and colloquial writing. In addition to being clear, explicit and informative, the writing and the ideas are also imaginative. The writer employs a very wide range of stylistic devices.

## SHIP AND STATION CODES

EXPLANATORY INFORMATION

a. Ship and Station codes are used in conjunction with NOBCs to identify the type of ship or activity where an officer's qualification or experience, identified by an NOBC, was acquired. They consist of a two-digit number with an alphabetical suffix. The two digits identify a broad category of ships or activities and the suffix (except "Z") indicates a specific type within the broad category; for example, "21" identifies Heavy Cruisers and "21C" identifies Guided Missile Cruiser (CG). The suffix "Z" identifies a ship or station within the broad category but not elsewhere classified (n.e.c.) in that category.

b. The Ship and Station code structure is published herein.

NOTE: Codes identifying ships and activities which have been deactivated are retained within this code structure so that occupational data previously entered in officer automated records may be interpreted.

c. Questions or information concerning the Ship and Station codes should be directed to Chief of Naval Personnel (PERS-3333).

## APPENDIX C

## SERVICE SCHOOLS

1. Maintenance of Service Schools Data in Officer ADP Records

a. Completion of a maximum of five service schools is recorded in the automated record of each officer. The duration of each course in weeks, and the month and year of completion are also recorded.

b. Courses are listed in this manual by title within subject groups. For each course, the three-digit code, training activity, location, course numbers, period for which graduates are recorded, duration, and titles of superseded or related courses are indicated. Cross references to courses listed in other subject groups are found at the end of each group.

c. Not all courses are listed on the Officer Data Card. Course completions in automated records are generally limited to those which are of substantial assistance in detailing and planning functions within the Bureau of Naval Personnel. Many significant courses are purposely omitted because they are basic to officer professional development, or because the utilization of the training is the responsibility of the graduate's subsequent commanding officer. Team, refresher, indoctrination, orientation, and most fleet training are omitted for the foregoing reasons. However, information concerning all courses completed is available in the Officer Service Record, NAVPERS 1070/66, and in BUPERS microfilmed officer records.

d. Courses not offered currently, but for which automated information pertaining to graduates is available, are indicated by an asterisk (*).

e. Except for certain staff courses, courses completed prior to 1946 are not recorded.

f. Diplomas or certificates of satisfactory completion for some courses may be issued to Navy officer faculty members who, by virtue of their work as instructors and by study, have attained knowledge equivalent to that required of a student for graduation. When recording course completions of this type, duration of the course is shown as "00."

g. Navy-sponsored graduate courses, administered by the Superintendent of the Naval Postgraduate School, Monterey, CA are identified separately from service schools.

2. Responsibility for Reporting Graduates of Service Schools

a. The value of service schools data in officer ADP records is dependent upon the accurate and timely submission of graduation reports required of training activities as outlined in the Naval Military Personnel Manual, Article 5020220. Training activities should utilize the Graduation Report - U.S. Navy Officers (NAVPERS 1520/1) (BUPERS Report 1520-7). Supplies of NAVPERS 1520/1 can be requisitioned from Naval Supply Centers, Norfolk, VA and Oakland, CA.

b. To speed the processing of service schools information, training activities should:

(1) Submit NAVPERS 1520/1 monthly or as classes graduate, whichever is advantageous to the reporting activity's operations (see NOTE on next page).

(2) Submit an original only.

(3) List USN and USNR officers only; not foreign officers or officers of other services.

(4) Use separate forms when reporting more than one course and when reporting reserve officers performing active duty for training (indicate ACDUTRA).

(5) List officers graduated during the period of the report only, as indicated by the dates in the upper right hand corner of the report (i.e., DATE OF THIS REPORT and DATE OF PREVIOUS REPORT).

(6) Indicate and provide revised course information if the title, location, or duration of a course, as listed in this manual, has changed.

(7) Provide an explanation if COURSE LENGTH indicated for a graduate differs significantly from the COURSE LENGTH published in this manual.

c. If NAVPERS 1520/1 is not readily available, letter reports of service school graduates may be made to the Chief of Naval Personnel (PERS-331) in accordance with the instructions set forth in paragraph 2.b. Graduates should be listed on 8 1/2 x 11 sheets of paper with the following data:

(1) Course Title and Number

(2) School and Location

(3) Social Security Number/Designator/Name/Grade

(4) Course Convening Date

(5) Course Completion Date

(6) Course Length

(7) Date of Previous Report

(8) Name/DSN Number/Extension of Reporting Officer

3. Questions. Questions concerning the system for reporting or recording service schools data published in APPENDIX C should be submitted to the Chief of Naval Personnel (PERS-331).

NOTE: CNETINST 1510.1 series outlines reporting procedures for the Navy Integrated Training Resources and Administration System (NITRAS).

## LANGUAGE COURSES

When an officer completes Navy-sponsored training in a foreign language, the language abbreviation and level of proficiency are recorded. Unlike other service schools, the title of the course, its duration, and the date of completion are not recorded; however, information concerning attendance is in the Officer Service Record, NAVPERS 1070/66, and in the record of the officer in the Bureau of Naval Personnel.

Language centers submitting language proficiency reports to the Chief of Naval Personnel include:

Defense Language Institute, East Coast Branch, Washington, DC
Defense Language Institute, West Coast Branch, Monterey, CA

APPENDIX A describes in detail the system for recording language qualifications in automated records.

## APPENDIX D

## EDUCATION

1. GENERAL

a. Information concerning educational achievement is maintained in the automated record of each officer to assist in officer distribution and career planning functions. The system for reporting and recording education, including Navy-sponsored and other Navy officer education programs, is described below to provide guidance to activities and individuals responsible for the submission of reports. Codes and definitions are also published in this part of the manual to provide the means to interpret educational data transmitted in ADP reports, including the Officer Data Card.

b. Appendix C should be consulted for information concerning the reporting and recording of training undertaken at SERVICE SCHOOLS.

2. REPORTING EDUCATIONAL ACHIEVEMENT

a. Responsibility. Formal education, from less than high school through doctor level, is classified initially from information submitted on the Officer Qualifications Questionnaire (NAVPERS 1210/5) (formerly NAVPERS 309) completed by the individual officer at the time of appointment to officer status. In addition, complete academic transcripts are provided to the Chief of Naval Personnel (PERS-450) by certain officer commissioning programs; viz., U. S. Naval Academy Graduates, NROTC Scholarship and College Program Graduates, Officer Candidate Graduates, and Aviation Officer Graduates. After this initial input to the officer's record, the reporting of changes in educational data becomes the responsibility of:

(1) The President of the Naval Postgraduate School (NPS) if education is completed as a result of orders to duty under instruction at Monterey or at civilian educational institutions under the auspices of the Navy's graduate education program. A student who has attended a civilian institution under Navy-sponsorship is responsible for notifying the President, NPS of the exact date a degree is conferred if this date is after the student has been detached from that institution. The President, NPS compiles data on all Navy-sponsored graduates and submits a report to the Chief of Naval Personnel (PERS-450) biannually or more frequently if necessary.

(2) The individual officer as courses and/or degree programs are completed through off-duty study, including tuition aid programs, or other on-duty degree completion and scholarship programs.

b. Procedures for Reporting

(1) The President, NPS submits educational achievement data by computer printout. In addition, NPS provides transcripts to CHNAVPERS for the Officers' Official Military Personnel File (OMPF).

(2) Active duty officers are required to submit notification to the Chief of Naval Personnel (PERS-450) when, through voluntary off-duty study or on-duty study other than in the Navy graduate education program, an additional degree is acquired or sufficient credits are earned to change the educational level. See criteria under LEVELS OF EDUCATIONAL ACHIEVEMENT. The notification should include the name and location of the school, the dates attended, the major field of study, the level attained, and the title of the degree if any, and, in the case of graduate study, a general subspecialty code will be assigned for each accredited Master’s degree (Refer to Volume I). An official, sealed academic transcript (or in the case of Organized Occupational Programs (non-degree), a Document certifying completion) must accompany any request for change of educational level. It should be noted that if credits are to be counted cumulatively, the transcript from the last school attended must show acceptance of credit earned previously at other schools. Educational institutions differ in their policies and they may not grant credit depending on the type of course completed, the student's objectives, and the educational background. Evaluation sheets indicating the amount of credits that would be granted upon enrollment in a specific school cannot be substituted for an official academic transcript nor be used to assign education level. Correspondence courses will not be recognized in determining educational level unless they are accepted for credit on a transcript of resident college courses. Official transcripts are essential because they provide refinements not available in automated reports, including titles of courses taken, credits accepted or earned, grades received, and titles of degrees awarded. The guidelines set forth here are not meant to preclude the submission of transcripts or grade reports of additional education when a change of level, as defined in the manual, is not involved. Reporting of any training that enhances career potential is encouraged.

(3) When a baccalaureate degree is earned, officers (less limited duty officers and chief warrant officers) will send a copy of the letter report and transcript required above to Admissions Office, Attn: Director of Admissions - Official Transcripts, Naval Postgraduate School, 1 University Circle, He-019, Monterey, CA 93943-

5100, for assignment of a graduate Academic Profile Code (APC). Limited duty officers and chief warrant officers are not assigned APC Codes; however, they are required to submit notification and transcript to PERS-450 as required in Paragraph 2.b.(2).

(4) Inactive duty officers should use the same procedures as active duty officers to report educational changes and submit transcripts to the Chief of Naval Personnel (PERS-450).

3. RECORDING EDUCATIONAL ACHIEVEMENT

a. Active Duty Officers. Education in five major fields and levels of study may be recorded. If an officer achieves more than five levels of education (as defined in the manual) (baccalaureate level and higher), an exception indicator "Y" is carried in the automated record. A "Y" is also carried to indicate validation of information reflected in automated records when levels shown appear to be of a conflicting nature.

b. Inactive Duty Officers. Education is reflected in the same manner for inactive duty officers as it is for active duty officers.

c. Integral Parts of the Educational Achievement Code. The educational achievement code has seven integral parts:

(1) Name of School. A maximum of ten letters is used to indicate the name of the school attended. School names are recorded when education is above high school level. "NONE" is shown for school name when recording less than high school and high school level of education. See INSTITUTIONS OF HIGHER EDUCATION, for school names, abbreviations, and information concerning accreditation.

(2) Year Completed. Two digits are used to indicate the year the degree or certificate was awarded, or the last year of attendance. No year date is recorded for less than high school or high school level of education.

(3) Number of Months. Two digits are used to indicate the duration of an educational program, in increments of months. Duration is shown for certain Navy-sponsored graduate programs only.

(4) Sponsor. A one-letter code is used to identify certain Navy-sponsored specialized programs:

| | |
|---|---|
| A | Immediate Graduate Education Program (IGEP) |
| B | Junior Line Officer Advanced Educational Program (BURKE PROGRAM) |
| C | College Degree Program (CDP) |
| E | Navy Enlisted Scientific Educational Program (NESEP) (Phased-out with 1982 graduates) |
| G | Graduate Education Voucher Program (AEP) |
| L | Law Education Program (LEP) |
| N | Navy-sponsored graduate or advanced courses |
| S | Scholarship Program (scholarships, fellowships, and grants) |
| V | Voluntary Graduate Education Program (VGEP) |
| Z | CNO Scholars Program (Phased-out with 1979 graduates) |
| (Blank) | All other Programs |

(5) Level.

(a) A one-character code is used to record the level of educational achievement. The levels range from less than high school through the doctoral degree. The levels of education have necessarily been reduced to a workable number with the result that there is some arbitrary grouping.

(b) The level of education cannot be determined unless the major field of study is known. For example, when code "6" (baccalaureate or a first professional degree) is followed by a major code of "88" (law), graduate education is implied since admission to an accredited law school is normally predicated upon prior award of an undergraduate bachelor's degree. Additionally, classifying the first professional degree in law at level "6" appropriately reserves levels "8" and "9" for the Master of Laws and Doctor of Science of Jurisprudence degrees respectively. The same principle is applied to certain other first professional degrees; e.g., the Doctor of Optometry.

(c) Terms such as "Master" and "Doctor" used in degree titles are not reliable indicators of level; e.g., JURIS DOCTOR is the first professional law degree (BACH/1PRO) and the Master of Law the second

(MASTER); Master of Divinity is a first professional degree (MDIV/1PRO), the Master of Sacred Theology the second (STM).

(d) Education is recorded at the level indicated by the number of credits accepted by and/or completed at each institution; therefore, in order that education completed at more than one institution be counted in a cumulative manner in establishing final level, the transcript from the last school must show acceptance of credits from prior schools. Certificate of completion of an Organized Occupational Program (non-degree) is recorded as level T only. Number of credits and years of attendance will not be considered as a factor in recording certificate programs since length of programs vary.

(e) Level of education is reflected on the Officer Data Card by abbreviation only. The codes, abbreviations, and definitions are listed beginning below.

(6) Major Field of Study

(a) A two-digit code is used to record the major field of study for certificate of completion of an Organized Occupational Program, or when an associate degree is awarded or the record indicates more than two years of college credit.

(b) Major field of study is reflected on the Officer Data Card by abbreviation, in most cases. Complete titles for major fields of study, with appropriate codes and abbreviations, are listed in this addendum.

(7) Specialization within Major Field

(a) A specialty within a major field of study is identified by a two-character code appended to the major field of study code. With few exceptions, the specialty codes are used to identify Navy-sponsored curricula.

(b) When a specialty is recorded for an officer, it is reflected on the Officer Data Card by abbreviation, in most cases. The specialties, codes, and abbreviations are listed in this addendum. It should be noted that specialties can only be used in the four-digit Major/Specialty combinations listed in MAJOR FIELDS OF STUDY (Numerically).

LEVELS OF EDUCATIONAL ACHIEVEMENT

| LEVEL CODE | ABBREVIATION | DEFINITION |
|---|---|---|
| 0 | LS THN HS | Less than high school diploma; no equivalency certificate. |
| 1 | HIGH SCHL | High School diploma or High School Level General Educational Development (GED) Certificate. |
| T | CERT-COMP | A document certifying completion of an Organized Occupational Program (non-degree).<br><br>NOTE: A course of study consisting of an integrated series of required and elective courses designed to prepare students for employment in a job or cluster of occupations. Completion requires at least one but less than four years of full-time attendance, or the equivalent in part-time attendance and culminates in formal recognition that the student has completed an organized program. (Examples: Health Services, Engineering Technologies, etc.) |
| 2 | LS2YR COL | A minimum of 15 but less than 60 semester hours* of college credit in a degree program, or College-Level General Educational Development (GED) Certificate; satisfactory completion of the Comprehensive College Test - General (CCT) beginning 1 Jul 1965. CCT may be referred to as the General Examinations of the Council on College Level Examinations. |
| 3 | 2 YRS COL | A minimum of 60, but less than 90 semester hours* of college credit; or USAFI Educational Qualification Test 2CX (not administered after 1 January 1954). |

| | | |
|---|---|---|
| 4 | 3YR OR NA | A minimum of 90 semester hours* of college credit, no baccalaureate degree awarded; or an undergraduate degree from a nonaccredited school.<br><br>NOTES: (1) A school must be accredited at the time an undergraduate degree is awarded if the degree is to be classified at level 6 - BACH/1PRO.<br><br>(2) Study in professional fields (law, medicine, etc.) is not recorded at any level if the institution offering the program is not accredited by the recognized accrediting agency for that field; however, this does not preclude the submission of reports and transcripts for inclusion in the officer's Official Military Personnel File.<br><br>(3) Many college students apply for commissions before completing their senior year of undergraduate work. Transcripts which accompany the applications, therefore, are incomplete and the Officer Data Card, shows 3YR OR NA. If a degree has been awarded by an accredited school, a transcript should be forwarded to Chief of Naval Personnel (PERS-450) to effect a change and to complete the officer's Official Military Personnel File/ODC.<br><br>(4) 3YR OR NA should not be construed to mean that the Navy discounts degrees from all nonaccredited schools. This is evidenced by the fact that a representative number of officers in this category have met the requirements for commissioning. |
| 5 | PG NO DGR | No baccalaureate degree but completion of certain Navy-sponsored graduate education programs; or no baccalaureate but a minimum of 18 semester hours* in a master's degree program.<br><br>NOTES: (1) PG NO DGR is used primarily for those officers who, lacking a baccalaureate degree, complete Navy-sponsored advanced studies in specialized fields. Example: A chaplain who completes a minimum of 18 hours* of graduate work in theology, yet does not possess a first professional degree in theology.<br><br>(2) PG NO DGR is not assigned simply because graduate level courses are completed while enrolled in a baccalaureate program. |
| 6 | BACH/1PRO | Baccalaureate (BACH) or selected first professional (1PRO) degree. Included here are 4 or 5 year baccalaureate programs and selected professional programs which require 2 years or more of previous college work for entrance; e.g., podiatry (D.S.C., D.P.), optometry (O.D.), law (LL.B, J.D.). The major distinguishes undergraduate from advanced professional programs.<br><br>NOTES: (1) BACH/1PRO is assigned when NPS, Monterey has awarded a Bachelor's degree for studies in a Master's degree program but not all course work was completed.<br><br>(2) POSTGRAD is assigned for Certificates of Completion awarded by NPS, Monterey when all course work is completed in a Master's degree program but does not qualify for a degree. |
| 7 | POSTGRAD | Baccalaureate or first professional degree and a minimum of 18 credits* in a master's degree program; or a baccalaureate degree plus completion of certain advanced Navy-sponsored courses. POSTGRAD is <u>not</u> assigned to reflect partial study toward a first professional degree (law, theology, etc.) but is used when 18 credits* are earned toward a second professional degree in the same field. Example: Based on a 3-year degree program of approximately 80 credits*, a minimum of 18 credits* to one full year of law is recorded LS2YR COL; 2 years of law 2 YRS COL; 3 years of law but no degree 3YR OR NA; Bachelor of Laws BACH/1PRO and POSTGRAD is used when 18 credits* have been earned toward a Master of Laws provided the first professional degree in law (LL.B, J.D.) has been earned. |
| 8 | MASTER | Master's degree or selected second professional degree; e.g., law (LL.M.). |

| | | |
|---|---|---|
| | | NOTE: Master's degree from nonaccredited institutions are entered as 3YR OR NA. |
| J | JD/1PRO | Juris Doctor First Professional. |
| R | P-MSTDGR | Post-master's degree. Degrees beyond the master's level but less than doctorate; e.g., Degree of Engineer, Degree of Education Specialist, M.A.L.D. (Tufts), etc. Includes those officers who submit statements from schools indicating they have completed all work toward a doctorate except the dissertation. |
| W | CCW/MASTER | Constructive Credit Waiver for Masters submitted by Deputy Chief of Naval Operations (Operations, Plans and Strategy (N3/N5)) and approved by Assistant Secretary of the Navy (Manpower and Reserve Affairs (M&RA)). Upon receipt of approved waiver via the Foreign Area Officer community manager (BUPERS 314), PERS-450 will make record entry. Institution of higher education field will be populated as "ASN Waiver". The major/specialty code will be awarded as 6794, National Security Affairs, Strategic Planning – General. |
| 9 | DOCTOR | Doctor's degree. PH.D or equivalent in selected fields; e.g., education (Ed.D.), law (J.S.D.), library science (D.L.S.) |

EXCEPTION: Because of the varied nature of theological degrees and academic requirements established by the various faith groups, an additional education level coding system is established for recording education achievement of Chaplain Corps Officers only. Degrees in Theology are recorded as follows:

| CODE | ABBREVIATION | TITLE |
|---|---|---|
| A | MA/1PRO | Master of Arts |
| B | BD/1PRO | Bachelor of Divinity |
| C | STL/1PRO | Theology/Sacred Letters |
| D | MDIV/1PRO | Master of Divinity |
| G | THM | Master of Theology |
| H | STM | Master of Sacred Theology |
| F | DMIN | Doctor of Ministry |
| K | THD | Doctor of Theology |
| L | STD | Doctor of Sacred Theology |

Level 7 (POSTGRAD) and level R (P-MSTRDGR) are used to record advanced studies in Theology when the next higher degree, as outlined above, has not been attained. Level 6 (BACH/1PRO), level 7 (POSTGRAD), level 8 (MASTER), level R (P-MSTRDGR) and level 9 (DOCTOR) will continue to be used for the recording of Non-Theological degrees.

NOTE: Levels BACH/1PRO, POSTGRAD, MASTER, P-MSTRDGR, and DOCTOR are assigned only if earned at institutions accredited by a nationally recognized regional accrediting association or a nationally recognized agency which accredits professional or technical schools.

*Units of credit may be earned and reported as semester hours or quarter hours; to change quarter hours to semester hours multiply by 2.

## MAJOR FIELDS OF STUDY
**(Numerically)**

Major fields of study are indicated by a two-digit code. Majors are recorded for certificate of completion of Organized Occupational Program, Associate degrees, and more than two years of college credit. To identify specific Navy-sponsored curricula, major codes are used in conjunction with specialty codes listed under Specializations withn Major Fields section. In the following list of majors, the specialty codes have been appended to the major codes when they are an integral part of the code for a given field of study. "(N)" indicates the field of study is or has been a Navy-sponsored graduate education program; "(N)**" indicates the education code may be used when the field of study is other than Navy-sponsored. (NOTE: n.e.c. denotes not elsewhere classified)

**NAVY-SPONSORED GRADUATE EDUCATION PROGRAMS FOR COMMISSIONED OFFICERS**

Navy-sponsored graduate education programs are offered to commissioned officers at the Naval Postgraduate School, Monterey, CA, and/or at various civilian institutions throughout the country. At civilian institutions, administration of officer students in matters concerning education is exercised by the President of the Naval Postgraduate School through the Commanding Officer of the NROTC Unit, or through the Senior Officer Student at those institutions where no NROTC Unit is established.

Information concerning advanced curricular programs is taken from applicable directives, the Catalogue of the Naval Postgraduate School, and from the catalogues of the civilian institutions concerned. Students may receive undergraduate and/or graduate degrees provided they meet the requirements established by the institutions conducting the instruction. Information concerning student progress and graduation reports are submitted to the Chief of Naval Personnel (PERS-450) by the President of the Naval Postgraduate School.

| (This program was for officers with acceptable advanced standing which could be applied toward completion of a one or two calendar year prescribed course of study resulting in a Bachelor of Science or Bachelor of Arts degree. Those who completed the requirements for a designated major, as indicated on a graduation report submitted by Monterey, were assigned the appropriate major and specialty codes rather than 3500. Beginning with March 1965 graduates, officers in designator category 1310 completed the Aviation Safety Course as a part of this undergraduate curriculum, and were assigned Service School Code 205 in addition to major and specialty codes.) | |

## INSTITUTIONS OF HIGHER EDUCATION

1.Institutions of higher education which have been attended by Navy officers are listed on the following pages. The list of institutions is presented in three parts: (1) an alphabetical listing by ADP abbreviation of the current names; (2) an alphabetical listing by former name or name prior to a merger with, or absorption by, another institution; and d(3) an alphabetical listing by name of nonaccredited law schools.

2. Institutions accredited by the U.S. Department of Education (USDE) or the Council for Higher Education Accreditation (CHEA), nationally recognized regional accrediting associations for four year baccalaureate degrees are indicated by an asterisk. The year of initial accreditation is given when available. Institutions not accredited by a nationally recognized regional accrediting association but accredited by one or more of the nationally recognized agencies which accredit professional or technical schools or departments (except those only offering a two-year program and most foreign institutions) are indicated by the following symbols:

| | |
|---|---|
| (Arch) | National Architectural Accrediting Board |
| (Art) | National Association of Schools of Art and Design |
| (Bible) | American Association of Bible Colleges |
| (S Bus) | American Assembly of Collegiate Schools of Business |
| (Dent) | American Dental Association |
| (Law) | American Bar Association |
| (Med) | Liaison Committee on Medical Education |
| (Music) | National Association of Schools of Music |
| (NATTS) | National Association of Trade and Technical Schools |
| (Opt) | American Optometric Association |
| (Osteo) | American Osteopathic Association |
| (Pharm) | American Council on Pharmaceutical Education |
| (Pod) | American Podiatric Medical Association |
| (Theol) | Association of Theological Schools in the United States and Canada |

3. The above symbols are not used when an institution is accredited also by a nationally recognized regional accrediting association. Degrees from schools currently accredited by a nationally recognized regional accrediting association (identified with an asterisk (*)) which were previously accredited by a nationally recognized agency for professional or technical schools, will be recorded as fully accredited degrees regardless of date of completion or graduation. When no accreditation is indicated for a school or college that is a part of an institution identified with an asterisk, this may mean that the school or college is included in the accreditation of the institution of which it is a part, that it provides only a two-year program, or that it is not accredited. For interpretation of other symbols (abbreviations) used in the following lists, see Legend in paragraph 8.

4. Certain baccalaureate degrees awarded by schools not accredited in accordance with the information above are recorded by education level code 4. Institutions must be fully accredited at the time of attendance in order for education to be recorded at a level higher than 4. See paragraph 7.

5. Generally, education pursued in nonaccredited professional schools (law, medicine, etc.) is not recorded in automated records. For example, law education is not recorded unless, at the time of completion, the school was on the approved list of American Bar Association. See paragraph 7.

6. Authoritative directories and criteria prepared by the National Center for Education Statistics, U.S. Department of Education; the Council on Postsecondary Accreditation, American Council on Education; and/or by nationally recognized accrediting agencies for professional programs are used by the Chief of Naval Personnel to determine the accreditation status of institutions of higher education.

7. In the system used for recording levels of education, it is emphasized that the levels have been established and defined to satisfy the Navy's need for automated personnel data. Regardless of accreditation, source documents, and transcripts reflecting educational achievement and initative should be submitted to the Chief of Naval Personnel for filing in the Official Military Personnel File (OMPF) and the Officer Data Card (ODC) so that the information will be available to members of screening boards and assignment officers.

## NON-ACCREDITED LAW SCHOOLS

Officers have reported completing courses at many law schools. Often these schools are not on the approved list of the American Bar Association. Reports indicating completion of courses at these schools are filed in the official officer military personnel file maintained at the Bureau of Naval Personnel, but the information is not recorded in automated records as an accredited law degree. Current accredited schools are listed at the following website:
