My Navy Portal (MNP)

Consolidating Navy personnel, training and education systems into a single “self-service” portal supporting your career.

https://my.navy.mil/
Agenda

- The Sailor’s Voice
  - Why is My Navy Portal (MNP) important?
  - What’s unique about MNP?
  - Sailors are defining MNP content, look and feel

- MNP BETA
- MNP – Sailor Self-Service
- MNP Live Demonstration
- Looking Ahead
- What Can CCCs do to Support MNP?
- Command Career Counselors Regional Resources for MNP
- Open Discussion / Questions and Answers
Voices in the Fleet

- **AUG 13:** CNO launched the Reducing Administrative Distractions (RAD) website to identify admin issues and to solicit Fleet ideas to improve current processes.

- **TOP 3 issues target Manpower, Personnel, Training and Education (MPTE) systems:**
  - Too many databases for Sailors to manage and maintain
  - Too many Personnel systems!
  - Training documented in too many systems and not shared

Nearly 2400 Sailors used the RAD website to communicate the challenge of juggling too many logins and passwords for too many systems: BOL, OMPF, ESR, ETJ, JST, USMAP, Navy Awards, NKO, FLTMPS, NSIPS... and the list goes on...
Why is MNP important to Sailors?

- MNP will address the number one issue Sailors have been telling CNO, CNP and MCPON for years:
  
  “You need to drastically cut the number of websites and databases that Sailors have to use!”

What is MNP?

- **GOAL:** Provide Sailors an integrated Human Resources (HR) portal that will serve as the single entry point to self-service to manage their career. It will be:
  - An integrated portal that consolidates MPTE systems and applications
  - A portal providing a common look and feel when using various MPTE applications
  - A Single Point of Entry (SPoE) for Sailors to manage and view their personnel and career information
  - A task-based system that “guides” Sailors to a successful completion of processes tied to “Career and Life Events” (CLEs)

- **TODAY:** MNP exists as a “BETA” site with quarterly releases providing increased capability
  - Already contains some of the above capabilities
What’s unique about MNP?

Sailors are driving content, look and feel

- **Jan-Oct 14 – Sailor Sprint Team**
  - Every 4 weeks, Sailors (E5-O3, AC/RC) viewed MNP prototype functionality, provided feedback, and developers incorporated changes

- **Jan-Apr 14 – Navy Career & Life Events (CLE) Working Group**
  - Sailors (E6-O3) developed a list of major career milestones and tasks
  - Identified the personnel, training or education system(s) and application(s) Sailors used at each milestone
  - Proposed a website design template that “guides” Fleet users to successful performance of tasks associated with CLE’s

- **Ongoing – Task Working Groups**
  - Sailors pair with Manpower Personnel Training and Education (MPTE) stakeholders (OPNAV N1, NPC, NETC), Human Systems Integration (HSI) representatives, technical representatives, and developers to define task-based capability
Since 2015, Sailors participated in the following Working Groups to define content and design for MNP:

- Education
- New to the Navy
- Pay, Leave, Travel
- Personnel Records
- Physical Readiness
- Sailor & Family Support
- Selection Board Review
- MNP Public Landing page (including “External Links”)
MNP = Self-Service

- 11 Total CLEs and every CLE will contain:
  - Overview
  - Task-based tools (e.g., checklists, calculator, timeline/count-down, interactive maps, schedulers, and more)
  - Resources & Links
  - Glossary, Acronym Finder, and FAQs
  - Sources of Support
  - Page-specific Feedback option
MNP BETA Version

- **Release 1 (Feb 17)**
  - Introduced 11 Career & Life Events (CLEs)
  - Performance CLE: New PRIMS view and PFA Calculator
  - Retirement & Separation CLE: Timelines
  - Tested by Fleet Sailors in 9 afloat commands, 2 shore commands and 2 PSDs (CONUS and OCONUS)

- **Release 2 (May 17)**
  - Assignment, Leave, Travel CLE: SWAPS
  - Advancement and Promotions CLE: AC Officer Selection Board
  - Tested by Fleet Sailors in 4 shore commands and 1 PSD

- **Release 3 (Aug 17)**
  - MNP Low Bandwidth version
  - Tested by Fleet Sailors in 7 afloat commands underway
MNP Live Demonstration

- Public Page
- External Links
- Private Page (carousel)
- CLE’s
- Training, Education, Qualifications
- Overview
  - Featured Pages
  - Looking for?
- Education
  - Next Steps (checklist example)
  - Resources & Links
  - Switch to Low Bandwidth Mode
  - Page Feedback
- Global Feedback
- Bookmarks
Looking Ahead

- MNP BETA Release continues (6-12 months)
- Continued Sailor feedback collection and incorporation into MNP
- Release 4 (Nov 17)
  - Content updates
  - Bug fixes
- Proposed for Release 5 (Feb 18)
  - PARFQ
  - My Record
- Release 6 and Beyond
  - Still being clarified
What can CCCs do to support MNP?

- Provide feedback on MNP (and encourage others to do the same)
  - What CLE’s should be developed next?
  - What resources (information or tools) should be emphasized?

- Serve as an MNP advocate
  - Encourage your Sailors to utilize MNP resources and provide feedback via the portal

- Participate in MNP design activities
  - Join future MNP Working Groups as a Sailor representative
  - Be a MNP Fleet tester
OPNAV N16 Fleet Introduction Team (FIT), San Diego

- Dedicated team of Sailors and support staff conducting **hands-on MNP testing** in naval commands, ashore and afloat

- As the **Sailor Advocate**, FIT provides updates about MPTE systems and applications, including MNP, during each monthly Command Career Counselor (CCC) meeting. For example, shares updates about newly added CLE’s capability

- **Gathers and analyzes feedback** from CCCs and other Sailors to support the development of MNP

- Located in the Training Support Center, San Diego, 3975 Norman Scott Road

- Lead: FIT Director, (619) 556-6250
Open Discussion and Q/A

- What priorities should we be addressing?
- Our goal is Sailor Self-Service – what is an urgent need we can address to make your job easier?
- Questions/Comments?
