LIST OF NOBC TITLES BY FUNCTIONAL AREA

C - 2
PART C

NAVY OFFICER BILLET CLASSIFICATION (NOBC) CODES

1. General

   a. Navy Officer Billet Classifications (NOBCs) identify officer billet requirements and officer occupational experience acquired through billet experience or through a combination of education and experience.

   b. An NOBC provides a general description of a group of positions sufficiently alike in respect to their duties and responsibilities to justify a common name and similar treatment in selection, compensation, and other human resource processes. It is not meant to cover every duty required of the job nor is every duty listed necessarily a requirement of the billet. Similarly, an NOBC in an officer's record does not necessarily indicate that the officer has experience in every duty listed in the definition. The NOBC identifies a group of officer billets which are similar but not necessarily identical in scope and nature of duties.

   c. Each NOBC consists of a four-digit code, a long title, an ADP short title and a definition. The first digit identifies the field, the second digit identifies the group within the field and the third and fourth digits indicate the specific billet classification within the group. NOBC titles and definitions reflect billet titles and several representative duties.

   d. A need exists in certain personnel management operations for information concerning codes occupationally related to specific NOBCs. These codes, defined below, immediately follow the definition of each NOBC.

      (1) Related Codes. The NOBCs listed aid in the selection of naval officers to fill mobilization billets. In the absence of officers with exact qualifying experience, the list of related codes provides alternate NOBCs enabling identification of officers who qualify for specific billets by virtue of related experience and/or training.

      (2) The DOD Group identifies the group number and title in the Department of Defense Occupational Conversion Manual (DOD 1312.1 series) which corresponds to the NOBC. This manual, maintained by the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics), compiles the occupational classifications of the armed forces under a common occupational grouping and numerical coding system.

2. Application

   a. When applied to a billet, the NOBC is a general statement of duties performed in accomplishing some part of an activity's mission. When a single NOBC in combination with other information provided does not describe a billet adequately, use of a second NOBC provides further description. The allowed grade distinguishes billets which differ in degree of authority or responsibility but not in essential duties performed. Similarly, the same NOBC code identifies principal and assistant billets distinguishing between the two by adding the word "assistant" at the beginning of the billet title.

   b. An NOBC entered in an officer's record reflects experience acquired as a result of performance in a billet or, in some instances, a combination of experience and education related to the billet's requirement. A combination of experience and education gained through Reserve participation and certified by designated authority is a basis for updating the classifications in an officer's record.

3. Assignment

   a. Assignment of an NOBC on all officer billets is mandatory. OPNAVINST 1000.16 series provides procedures for submitting changes to Manpower Authorizations.

   b. For active duty officers the NOBC code appearing in the first NOBC column of an Officer Distribution Control Report (ODCR) transfers automatically to an officer's record upon assignment to a billet identified by that NOBC. But, the code is removed from the officer's record if the officer is in the billet for less than five months. An
officer's automated record holds a maximum of 30 NOBCs reflecting the officer's most recent billet experience. Volume II of this manual provides procedures for submitting corrections to an officer's data card.

c. **For Officers in the Reserve Component (RC).** Qualification records, including NOBC codes, are maintained by Navy Personnel Command (NAVPERSCOM). NOBC codes on officer billets, which are specified in the Reserve Headquarters System (RHS) and listed on the Reserve Unit Assignment Document (RUAD), transfer automatically to an officer's record after serving eighteen months in the assigned billet. RC members that do not meet the automation requirement criteria may submit an NOBC code request to NAVPERSCOM (PERS-9) using the format contained in BUPERSINST 1001.39F utilizing the following criteria:

   1. Assigned to RC billet but not on extended active duty orders. Member provided forty-eight days of billet support (which is equivalent to 72 Inactive Duty Training (IDT) periods and a twelve day Annual Training (AT) ) may request NOBC codes assigned to the RC billet.

   2. Not assigned to an AC billet, but on extended active duty (e.g. active duty for special work (ADSW) or active duty for training (ADT)). Member on active duty for at least five months may request up to two NOBC codes that accurately identify the job assignment.

   3. Assigned to an AC billet (e.g. mobilization or definite recall). Member in an AC Navy billet for at least five months may request the assigned NOBC codes. If billet does not contain an NOBC code, member may request up to two NOBC codes that most accurately identify the billet assigned.

   4. Applicable civilian experience. If an officer’s civilian job provides expertise in an area that would otherwise qualify for an NOBC if the position were military, then the officer may request the applicable NOBC through NAVPERSCOM (PERS-9). Civilian experience applies to officers in the Ready Reserve and Standby Reserve (Active).

      NOTE: Although an officer’s record contains an unlimited number of earned NOBC codes, the Officer Summary Record (OSR) only displays the ten most recently earned NOBC codes. Additional guidance on the RC policy and process is contained in BUPERSINST 1001.39F.

4. **Justification to Establish and/or Retain NOBCs.** To establish and/or retain a code within the NOBC structure, an NOBC should meet the following criteria:

   a. It describes the qualitative requirements of existing or proposed billets in Manpower Authorizations and Officer Distribution Control Reports.

   b. It applies in planning, personnel control, career management, education and training, or manpower information functions.

   c. It applies Navy-wide and does not reflect purely local conditions or organization unless it is necessary to meet the criteria stated in paragraph 4b.

   d. It does not duplicate an existing code.

   e. It identifies billets, both peacetime and mobilization, and officer experience, both active and inactive.

   f. It identifies a minimum of 15 billets.

   g. Definitions should be concise and preferably limited to fifty words. They should be broad enough to identify all billets with similar requirements, yet narrow enough to distinguish significant differences not identified through other codes (e.g., designator, grade and activity). Definitions should stress what is done rather than how or why it is done. They should not include duties required of all officers, such as training of subordinates or preparing routine reports, unless such duties are a distinct requirement of the billet.
5. **Recommendations to Establish, Disestablish, or Revise NOBCs**

a. To make sure NOBCs continue to reflect current technological and administrative developments, commands and officers are invited to review and evaluate these classifications and, if appropriate, submit recommendations for improvement. An activity recommending a new NOBC should first ensure that an established NOBC in its present form, or with some revision, will not suffice for identifying the occupational aspects of the billets involved. Commands recommending establishing, deleting or revising NOBCs should consider the criteria listed in paragraph 4 above. Additionally, all recommendations should include the appropriate information as follows:

(1) **Recommendations to establish NOBCs** must include:
   
   (a) **Recommended code number, long title and short title.** The maximum length for the short title is 14 spaces, including blank spaces.

   (b) **Recommended definition (preferably limited to fifty words);**

   (c) **Number and location of billets by activity type that the proposed NOBC will identify;**

   (d) **Designators and grades applicable to the proposed code;**

   (e) **List of special training required for the incumbent officer (include length and type of course(s) and/or on-the-job training);**

   (f) **Information on how the requirements/qualifications are currently identified;**

   (g) **Justification stating why the existing billet descriptors are insufficient without the proposed NOBC, and other historical or amplifying information necessary for prudent consideration at each level of review;** and

   (h) **Point of contact (include telephone (both commercial and DSN number, fax number, and e-mail address).**

(2) **Recommendations to disestablish NOBCs** must include:

   (a) **Code and title of existing NOBC;**

   (b) **Reason(s) for deleting the code (e.g., qualifications duplicated by another code, insufficient billets to meet the criterion in paragraph 4.f. above) and any other information needed for consideration at each level of review;**

   (c) **Information on which NOBC(s), if any, will absorb the duties of the code;**

   (d) **Information on how to recode the billets and officers, if appropriate, presently coded with this NOBC; and**

   (e) **Point of contact.**

(3) **Recommendations to revise NOBCs** must include:

   (a) **Code and title of existing NOBC;**

   (b) **Proposed recoding, retitling and/or rewording of the current NOBC;**

   (c) **Justification for the proposed revision(s); and**

   (d) **Point of contact.**
b. Submit all recommendations according to the procedures outlined in the introduction of this manual.

c. Due to data integrity over time and the risk of future personnel misrepresentation, best practices mandate that classification elements are not to be reused once they are disestablished. To this end, deleted or disestablished NOBCs will not be reused at any time unless they are reestablished under the same criteria and guidelines as previously published.
TRANSIENT, PATIENTS, PRISONERS, AND HOLDEES

This NOBC is not awardable to personnel. TFMMS business rules limit usage of NOBC 0000 to non-force structure Trainee, Transients, and Holdees (TTH) Individuals Account Manpower Requirements Determination (IAMRD) activities.

0000 TRANSIENT, PATIENTS, PRISONERS, AND HOLDEES [TPPH] [Job Code: 003000]

Transients contain only the transient program element, and consists of active duty military personnel in travel, leave in route, or temporary duty status (except for training) while on Permanent Change of Station orders; Patients, prisoners, and holdees contain only the Personnel Holding Account program element consisting of active duty military personnel dropped from the assigned strength of an operational or training unit for reasons of medical, disciplinary, or separation non-availability.

Related Codes: 3289; DOD Group – 290100 Patients

NOTE: This NOBC may only be assigned by Manpower Requirements Determination Universe (MRDU) desk T1. NOBC 3289 should be used on student billets.
HEALTH CARE SERVICES FIELD

0001-0999

This field includes classifications which identify billets with primary duties involving research and planning, providing, and administering medical, surgical, dental, and nursing services; and classifications in related health care sciences and services.

SCIENTES AND SERVICES FIELD

2000-2999

This field includes classifications which identify billets with primary duties involving scientific research of broad naval applicability; oceanography, organizing and enforcing measures for physical security, and disaster control of personnel and property; and classifications in law, management, and public relations.

MAJOR GROUPS

2000-2099 PHYSICAL AND NATURAL SCIENCES
2100-2199 NAVAL SCIENCE
2200-2299 SOCIAL SCIENCES
2300-2399 METEOROLOGY AND OCEANOGRAPHY
2400-2499 PUBLIC AFFAIRS
2500-2599 LEGAL
2600-2699 MANAGEMENT AND ADMINISTRATIVE SERVICES
2700-2799 SECURITY AND POLICE

PHYSICAL AND NATURAL SCIENCES GROUP

2000-2099

Classifications in this group identify primary duties associated with physical and natural sciences, including mathematics, statistics, physics, chemistry, aerospace, and materials engineering.

2050 MATHEMATICS RESEARCH OFFICER [MATH RSCH] [Job Code: 001083]
Develops mathematical techniques and formulas for computation and measurement of physical reactions. Develops methods by which quantities sought are deductible from known or supposed quantities. Collaborates in design and testing of computers and other mathematical devices. Solves problems of mathematical theory involving derivation of calculation processes. Exercises administrative and professional direction of naval research in mathematics.
Related Codes: NOBC - 2085; DOD Group - 5J Mathematicians and Statisticians

2070 PHYSICIST, GENERAL [PHYSIC GEN] [Job Code: 001091]
Directs or conducts research in one or more phases of physics. Analyzes and tests physical properties of materials, including matter affecting living organisms. Applies results of experiments to solution of problems. Collaborates in research and development projects of audiocommunication equipment and facilities. Consults with design and development representatives regarding potential and limitations of nuclear energy. Develops new therapeutic techniques and equipment. Manages research projects under contract to industrial firms.
Related Codes: DOD Group - 5A Physical Scientists
2085  STATISTICAL DATA ANALYST [STAT DATA ANAL] [Job Code: 001096]
(For 3-M Data Analyst, see NOBC 2642; for Computer Systems Analyst, see NOBC 9735) Performs professional statistical work involving collection, compilation, verification, analysis, and interpretation of data to aid in logistical planning, scientific research, and management control. Obtains basic data, determining character and volume of information necessary for solution of statistical problems. Analyzes quantitative statistical data. Develops significant trends and ratios and evaluates trends and correlations to determine cause-effect relationships. Selects methods of presenting findings such as charts, diagrams and written summaries.
Related Codes: NOBC - 2050; DOD Group - 5J Mathematicians and Statisticians

2090  CHEMIST [CHEMIST] [Job Code: 001098]
Directs or conducts research in chemistry. Conducts and advises on research in chemistry having military and/or medical application, such as protection of personnel from chemical, biological, and radiological agents; development, handling, and use of improved petroleum and synthetic fuels and lubricants; and purification and control of atmosphere as on nuclear submarines. Effects synthetization of special compounds. Maintains liaison with and monitors projects under contract to universities or industrial firms.
Related Codes: NOBC - 0840; DOD Group - 5A Physical Scientists

SHORE FACILITIES ENGINEERING GROUP

This group identifies primary duties involving shore facilities research, planning, design, construction, and maintenance; facilities related staff functions; and matters pertaining to the Petroleum and Oil Shale Reserves. Excluded from this group are classifications pertaining to nuclear shore system facilities which are contained in the 4700-4799 group.

4205 FACILITIES ENGINEERING OFFICER [FAC ENG] [Job Code: 001450]

Directs or assists in the formulation and execution of facilities engineering programs at headquarters or field division level. Coordinates or participates in planning, research, design, construction and maintenance of facilities. Directs programs concerned with utilities procurement, and control of automotive, construction and weight handling equipment. Plans and coordinates acquisition, management and disposal of real estate and housing. Develops administrative and training policies for employment and support of the construction forces.

Related Codes: NOBC - 4210, 4215; DOD Group - 4A Construction and Utilities
4210  **STAFF FACILITIES ENGINEER** [STF FAC ENG] [Job Code: 001452]
Advises and assists commander on Civil Engineer Corps matters. Provides civil engineering advice and recommendations on matters pertaining to naval facilities, public works and public utilities. Develops and disseminates facilities engineering doctrine. Conducts advance base development and facilities planning. Formulates and reviews military construction programs. Determines facilities requirements. Prepares facilities operation and maintenance budgets. Provides liaison between command and the appropriate Naval Facilities Engineering Command Field Division.
Related Codes: NOBC - 4215, 4230; DOD Group - 4A Construction and Utilities

4215  **FACILITIES PLANNING AND PROGRAMMING OFFICER** [FACPLN & PGM] [Job Code: 001455]
Directs or assists in the formulation of shore facilities plans and programs and in the development and review of military construction projects. Coordinates and plans the development and support of military construction programs. Maintains technical liaison with systems commands and fleet commands on facilities logistic problems.
Related Codes: NOBC - 4210, 4230; DOD Group - 4A Construction and Utilities

4220  **FACILITIES DESIGN OFFICER** [FAC DSGN] [Job Code: 001457]
Directs or assists in the architectural and engineering design of new construction, alterations and repair of shore facilities. Prepares plans, specifications and contract documents. Negotiates with architect-engineer firms. Reviews designs and participates in special engineering investigations and projects.
Related Codes: NOBC - 4225, 4230; DOD Group - 4A Construction and Utilities

4225  **FACILITIES RESEARCH OFFICER** [FAC RSCH] [Job Code: 001460]
Directs or participates in shore facilities and underwater construction research and development programs. Investigates and evaluates practical applicability of facilities design and construction. Conducts research into improved maintenance methods and procedures. Determines material suitability.
Related Codes: NOBC - 4215, 4220; DOD Group - 4A Construction and Utilities

4230  **FACILITIES CONSTRUCTION/FACILITIES SERVICES OFFICER** [FAC CONST/SVC]
(Job Code: 001462)
Directs the design, construction, alteration, maintenance, repair of, and base operating services for shore facilities. Supervises preparation of plans and specifications. Administers competitive bid and contract award; supervises contract performance. Approves design, contract modification during construction, and provision of contract services. Ensures compliance with labor regulations. Recommends acceptance of completed facilities or services.
Related Codes: NOBC - 4275; DOD Group - 4A Construction and Utilities

Classifications in this group identify primary duties involving planning, research, design and development, installation, maintenance, and repair of electronic equipment and systems.

5904 ELECTRONICS ENGINEERING OFFICER [ELX ENG] [Job Code: 001505]

Directs electronics office of naval shore activity. Provides technical and engineering assistance to all elements of the activity in solution of electronic engineering problems. Directs design, installation and testing of electronic equipment. Advises on technical aspects of methods and procedures to achieve coordination between electronic and other work of activity. Ensures satisfactory and timely accomplishment of work. Provides for proper inspection of all electronics system installations. Supervises administrative functions of electronics office.

Related Codes: NOBC - 5925, 5977, 5996; DOD Group - 4B Electrical/Electronic

5913 ELECTRONIC ENGINEERING PLANS AND POLICIES DIRECTOR [ELX P&P DIR] [Job Code: 001507]

Exercises policy direction and control over particular phases of electronics engineering such as design and development, electronics logistics, ships and amphibious applications, or shore electronic facilities. Assists, as assistant director or special assistant, in such direction and control. Coordinates electronic activities within naval field establishment.

Related Codes: NOBC - 5965, 5970; DOD Group - 4B Electrical/Electronic
5917 ELECTRONIC EQUIPMENT RESEARCH OFFICER [ELX EQ RSCH] [Job Code: 001510]
Directs or participates in research, design, and development of electronic equipment. Analyzes design factors, and prepares integrated programs of design and development. Prepares equipment and installation design specifications. Supervises or participates in preparation of plans, specifications and drawings for electronic equipment. Assists in preparation and defense of budgetary estimates for electronics programs. Confers with representatives of systems commands, other governmental agencies and private contractors on research, design and development problems.
Related Codes: NOBC - 5970; DOD Group - 4B Electrical/Electronic

5925 ELECTRONICS INSTALLATION AND MAINTENANCE PLANNING OFFICER (GENERAL) [ELX I&M PLNGEN] [Job Code: 001512]
Directs and coordinates installation and maintenance planning of electrical and electronic equipment and systems. Develops or approves diagrams and plans for installation and maintenance of new equipment. Directs accomplishment of field modifications and preparation of engineering procedures and standards for installation and maintenance of gear. Reviews and takes action on alteration requests submitted by ships, aircraft and installation activities.
Related Codes: NOBC - 5904, 5977; DOD Group - 4B Electrical/Electronic

5927 ELECTRONICS INSTALLATION AND MAINTENANCE PLANNING OFFICER (AVIATION) [ELX I&M PLN AV] [Job Code: 001515]
(For definition, see NOBC 5925)
Related Codes: NOBC - 5961; DOD Group - 4B Electrical/Electronic

5930 SPACE REQUIREMENTS ANALYST [SPACERQMT ANAL] [Job Code: 001517]
Analyzes current space technology and evaluates operational effectiveness of navigation, communication and ocean surveillance satellite systems. Establishes and coordinates requirements of Navy space systems. Provides advice and information on physical sciences aspects of naval operations planning. Collaborates with other armed services and agencies on engineering standards, space frequency utilization, modulation techniques and multiplexing schemes. Evaluates results of spacecraft and terminal testing.
Related Codes: NOBC - 2098, 5904; DOD Group - 5A Physical Scientists

5960 ELECTRONIC INSPECTION AND SURVEY OFFICER [ELX INSP&SRVY] [Job Code: 001520]
Inspects electronic equipment on ships and aircraft, recommending disposition based on predetermined performance standards. Inspects electronic equipment on new construction, determining conformance to specifications. Conducts inspections on active and reserve craft, determining material readiness. Reports to Board of Inspection and Survey on status of equipment, maintenance and preservation. Recommends survey of equipment considered obsolete or worn beyond economical repair. Suggests design changes to meet anticipated operational demands.
Related Codes: NOBC - 5904; DOD Group - 4B Electrical/Electronic

5961 AIRCRAFT ELECTRONICS DIRECTOR [A/C ELX DIR] [Job Code: 001522]
Exercises engineering coordination and control over aircraft electronic and electrical equipment through stages of design, development, test, production and installation. Directs initiation and execution of programs as necessitated by naval aviation engineering and operational programs. Advises on electronics technical policies. Exercises technical control over field activities concerned with test and evaluation. Administers budget.
Related Codes: NOBC - 5927; DOD Group - 4B Electrical/Electronic

5965 ELECTRONICS LOGISTICS OFFICER [ELX LOG] [Job Code: 001525]
Conducts or directs technical planning to establish and fulfill requirements for electronic equipment and personnel. Reviews logistic plans and advises on electronics personnel, material, facilities and functional components needed. Prepares and promulgates standardized composition and outfitting lists for forward area electronic units. Coordinates naval requirements for electronic equipment, establishing and promulgating allowance lists and adjusting priorities to meet operational urgencies. Prepares directives to systems commands concerning procurement, priorities, disposition, or transfer of electronic equipment.
Related Codes: NOBC - 5996; DOD Group - 8A Logistics, General
5970 ELECTRONIC EQUIPMENT MILITARY CHARACTERISTICS OFFICER [ELXEQ MIL CHAR]
[Job Code: 001530]
Coordinates design of electronic equipment with operational needs of the fleet. Defines basic objectives of research, design and development of electronic equipment such as radar, sonar, radio, navigational aids and training aids. Reviews operational requirements and determines military features needed. Determines physical limitations such as power, space, weight and manpower requirements of equipment and establishes electronic characteristics and restrictions. Collaborates with other services in equipment design and characteristics functions.
Related Codes: NOBC - 5917; DOD Group - 4B Electrical/Electronic

5977 ELECTRONIC EQUIPMENT INSTALLATION, MAINTENANCE, AND REPAIR OFFICER [ELX INSTL&RP]
[Job Code: 001533]
Supervises installation, maintenance and repair of electronic equipment and systems. Supervises maintenance of equipment and work of shops engaged in repair, including radio, sonar, navigational aids, IFF, special devices and cryptographic, communication security and computer equipment. Plans schedules for repairs or services. Inspects and ensures readiness of equipment. Directs maintenance of adequate stocks of spare parts, accounting for classified equipment utilized. Renders technical assistance on shop and shipboard repair work.
Related Codes: NOBC - NONE; DOD Group - 4B Electrical/Electronic

5996 STAFF ELECTRONIC MATERIAL OFFICER [STF ELX MTL]
[Job Code: 001538]
Assists staff commander by administering electronic material program for operational commands. Prepares and promulgates to ships of command operating and maintenance instructions for electronic equipment. Assists ships in obtaining allowance of equipment. Inspects ships to ascertain that equipment is properly maintained. Reviews latest alterations, modifications and arrangement plans issued by systems command, directing compliance by ships of command. Coordinates local repair activities to accommodate workload for electronic repairs. Advises on problems pertaining to electronic equipment.

6900-6999 GENERAL

AMMUNITION AND EXPLOSIVES GROUP

6000-6099

Classifications in this group identify primary duties associated with ammunition, explosives, warheads, fuses, bombs, projectiles, signaling and illuminating pyrotechnic materials, and chemical munitions.

6083 AMMUNITION MATERIAL OFFICER [AMMO MTL] [Job Code: 001540]
Directs and supervises handling, storage, inspection, testing, preservation, overhaul, reworking, preparation, breakdown and stock maintenance of ammunition. Directs scheduling, identification, dispatching, marking, loading and unloading of outgoing and incoming ammunition of all types. Supervises fuzing and defuzing of projectiles. Enforces safety regulations. Prescribes engineering practices to be used. Supervises upkeep of magazines, shell houses, transfer depots, loading plants and storehouses.
Related Codes: NOBC - 9252; DOD Group - 4E Ordnance

GUIDED MISSILES GROUP

6200-6299

Classifications in this group identify primary duties associated with the development of guided missiles, pilotless aircraft, drones, and associated equipment.
6275 GUIDED MISSILE TEST OFFICER [GM TEST] [Job Code: 001545]
Supervises installation, operation and maintenance of equipment and conducts test firing of guided missiles from ship or range. Directs handling, fueling, servicing and firing of missiles. Coordinates range facilities such as communications, telemetering, ballistic tracking cameras and radar. Locates and directs salvage of missiles and classified component equipment. Collects, analyzes and interprets data secured from missiles during flight. Controls aircraft and surface vessel movements as officer in charge of operational activities during ship launching. Directs safety program for missile range.
Related Codes: NOBC - 6280-6282, DOD Group - 2F Missiles

6280 GUIDED MISSILE TYPE PROJECT OFFICER (GENERAL) [GM PJ GEN] [Job Code: 001548]
Plans and administers projects for design and development of guided missile types. Establishes and maintains projects for development of ship-launched and air-launched guided missiles, assault drones, high-altitude test vehicles, meteorological units, guided missile jet engines and countermeasures. Supervises engineering of such weapons, including experimental models, recommending suitability for production. Administers budget and contracts for engineering work. Directs field development and testing.
Related Codes: NOBC - 6282; DOD Group - 5L R&D Coordinators

6282 GUIDED MISSILE TYPE PROJECT OFFICER (SHIP-LAUNCHED) [GM PJ SHP-LNCH] [Job Code: 001553]

7100-7199

Classifications in this group identify primary duties associated with the planning, development, construction, and maintenance of surface and submarine hulls and their appurtenances.

7120  NAVAL ENGINEERING HULL DEVELOPMENT OFFICER [NAVENG HULLDEV] [Job Code: 001656]
Directs or participates in research, design, development and test of hulls, hull structures and appurtenances. Initiates and supervises research and preliminary design work. Evaluates adequacy of damage control design features and recommends improvements. Designs hull stowage and living spaces, ship furniture, and messing and berthing equipment. Applies knowledge of hydromechanics to development of design criteria and power requirements for all naval vessels. Recommends military characteristics for new ships. Oversees major hull alterations and conversions.
Related Codes: NOBC - 7165, 7974; DOD Group - 4G Ship Construction and Maintenance

7140  HULL INSPECTION OFFICER [HULL INSP] [Job Code: 001658]
Directs or performs inspections on ship hulls and hull components at naval and private shipyard and repair facilities. Makes preliminary inspections of in-service ships to determine battle damage or recommend routine repairs required. Attends final tests of hull repairs and installation. Establishes inspection standards adhering to Naval Sea Systems Command controlling directives. Assists private contractors by setting up work schedules, enforcing material priorities and expediting clarification of design and production problems. Inspects ships subject to survey on desirability of retention or disposal.
Related Codes: NOBC - 7187, 7927; DOD Group - 4G Ship Construction and Maintenance

7165  HULL SUPERINTENDENT [HULL SUPT] [Job Code: 001661]
Directs construction, conversion, alteration, or repair of ship hulls and hull equipment at naval shipyard or repair facility. Establishes technical specifications and procedures to guide production activities and assigns assistants to duties. Participates in arrival conferences, evaluating hull work requested and assisting in estimating work requirements. Coordinates accomplishment of work, assisting in resolving conflicts in work schedules. Directs officer and civilian inspectors in enforcing adherence to basic designs, specifications and standards of workmanship.
Related Codes: NOBC - 7187, 7936, 7937; DOD Group - 4G Ship Construction and Maintenance
7187  STAFF HULL MATERIAL OFFICER [STF HULL MTL] [Job Code: 001663]
Assists staff material officer or commander by administering hull phase of material and maintenance program for command. Directs material maintenance, preservation and repair of ships' hulls and appurtenances. Supervises tests and inspection of hulls. Exercises technical supervision over tender, naval shipyard and ship's force repairs; advises unit commanding officers and first lieutenants. Assists in preparation of ship's repair budgets, determining supply and logistic requirements of hull material maintenance. Coordinates damage control program of command.
Related Codes:  NOBC - 7976; DOD Group - 4G Ship Construction and Maintenance

MACHINERY GROUP
7200-7299

Classifications in this group identify primary duties associated with the development, installation, inspection, maintenance, and repair of ship machinery and mechanical equipment, and diving and salvage equipment.

7241  MACHINERY INSTALLATION AND REPAIR SUPERINTENDENT [MACH INST&REP] [Job Code: 001666]
Supervises installation, repair and alteration of machinery on naval vessels. Reviews machinery work requests, inspecting machinery at ship arrival conference, and offers technical advice in deciding need for repair and material requirements. Arranges sequence of machinery repair and installation work. Oversees performance of critical repair and installation work, ensuring adherence to prescribed standards. Inspects and approves completed job orders.
Related Codes:  NOBC - 7976; DOD Group - 4H Ship Machinery

7249  NUCLEAR SYSTEMS AND COMPONENTS REPAIR OFFICER, SHIP [NUC SYS&CMPREP] [Job Code: 001673]
Administers repairs to nuclear reactor machinery, components and associated auxiliary equipment. Supervises maintenance of equipment and work of shops. Participates in arrival conferences and schedules installations and repair to nuclear reactor machinery for vessels in accordance with regulations. Confers with other repair shops in deciding sequence of tasks. Reviews designs, specifications and job orders for specific installations and repairs to ensure conformance with directives. Directs removal of obsolete or damaged equipment and installation of replacements.
Related Codes:  NOBC - 7968, 9392-9394; DOD Group - 4H Ship Machinery

7251  RADIOLOGICAL CONTROL OFFICER [RADIOLOG CTL] [Job Code: 001675]
Plans and directs control of radioactive materials, radiation and radioactive contamination associated with servicing nuclear propulsion plants. Plans and directs application of radiological controls required during servicing of nuclear propulsion plants. Reviews work orders and procedures to ensure adequate provisions for radiation and radioactive contamination control. Trains personnel in required controls. Ensures adequate accountability for radioactive material. Maintains and distributes pertinent tender manuals and instructions. Directs radiological operations in, or associated with, nuclear support facilities.
Related Codes:  NOBC - 7968, 9392-9394; DOD Group - 4J Safety

7273  NUCLEAR POWER RESEARCH PROJECT OFFICER [NUC PWR RSCHPJ] [Job Code: 001678]
Conducts and administers research, development and design projects of nuclear powerplants. Evaluates results of work by contractors and shipbuilders. Provides for exchange of information among all groups working on a project, including design criteria, specifications, operating data, space and weight considerations and other matters relating to a complete nuclear powerplant design. Represents Navy on interservice boards and committees dealing with nuclear power.
Related Codes:  NOBC - 4710, 7968; DOD Group - 4N Engineering and Maintenance - Other
7285  **STAFF MACHINERY MATERIAL OFFICER [STF MACH MTL] [Job Code: 001680]**

Assists staff material officer or commander by administering ship machinery phase of material and maintenance program for command. Directs material maintenance of ship machinery under cognizance of Naval Sea Systems Command. Exercises technical supervision over tender, naval shipyard and ship's force repairs required by ships of command. Supervises material tests and inspections of ship machinery. Advises unit engineering officers on material and maintenance matters, supply of materials and maintenance of stock and spare parts.

Related Codes:  NOBC - 9362-9369; 9390; DOD Group - 4H Ship Machinery

**PRODUCTION ENGINEERING GROUP**

7400-7499

Classifications in this group identify primary duties associated with organizing and administering navy yard production shops or planning utilization of production facilities and improvement of production processes.

7420  **SHIP TYPE PLANNING AND ESTIMATING SUPERINTENDENT [SHP TYP P&E] [Job Code: 001685]**

Directs the planning for and calculation of the cost of the alteration, repair, overhaul and new construction of ship hull structures and machinery. Examines repair requests, determining work to be accomplished. Initiates preparation of designs and job orders. Makes final estimates and plans for ship arrival conferences. Inspects ship hull and machinery. Schedules time and sequence of repairs, reporting on work progress.

Related Codes:  NOBC - 7970; DOD Group - 4G Ship Construction and Maintenance

7435  **QUALITY ASSURANCE SUPERINTENDENT [QA SUPT] [Job Code: 001688]**

Directs planning, execution and monitoring of overall quality assurance program. Maintains standards by directing performance of such quality assurance functions as inspections and physical, chemical, qualification and nondestructive tests. Develops training program. Develops and implements policies for assuring conformance to technical requirements. Executes assigned research and development.

7910 ENGINEERING LIAISON OFFICER [ENG LIAISON] [Job Code: 001703]
Maintains liaison between head of naval mission, attache, maritime or space agencies, etc., and headquarters command regarding ship construction, conversion and repair and design and installation of systems and equipment. Maintains cognizance of problem area and status of projects. Provides technical engineering advice. Assists on problems of completion, acceptance and operation of vessels. Arranges for performance of work and establishes financial basis for agreement.
Related Codes: NOBC - 7927, 7966, 7984; DOD Group - 4G Ship Construction and Maintenance

7927 NAVAL ENGINEERING INSPECTION OFFICER [NAV ENG INSP] [Job Code: 001706]
Conducts or directs inspection of hulls, machinery and electrical equipment during fabrication and installation. Establishes standards, frequency and method of inspection. Examines work for conformance to specifications and standards, approving minor alterations in plans made necessary by production or installation difficulties and recommending corrective action where material is deficient. Witnesses tests of material and equipment for verification purposes. Appraises capacity of private plants to perform required contracts.
Related Codes: NOBC - 9140; DOD Group - 4B Electrical/Electronic

7930 SHIP ELECTRICAL REPAIR OFFICER [SHP ELC REP] [Job Code: 001708]
Directs ship electrical repair activities. Trains and directs assistants for electrical repairs of ships. Attends arrival conferences. Ensures execution of repairs by supervision and inspection, correlating shipboard electrical work with that of hull, machinery and weapons, deciding sequence of shop and shipboard tasks. Oversees installation of electrical units. Inspects and approves completed job orders. Authorizes, and reports to repair agent, minor variations from designs.
Related Codes: NOBC - 9353; DOD Group - 4B Electrical/Electronic

7931 NAVAL ENGINEERING LOGISTICS OFFICER [NAV ENG LOG] [Job Code: 001711]
Develops or directs technical planning for ship construction, maintenance and repair in support of operational, strategic, or logistical planning. Reviews operational planning requirements, analyzing engineering and material problems represented. Supervises preparation of technical plans. Recommends distribution methods to ensure availability of materials for planned requirements such as new construction, alteration and repair. Estimates logistic implications of technological developments, new ship types and equipment. Furnishes technical advice and assistance to command or logistical planning officers.
Related Codes: NOBC - 9051; DOD Group - 8A Logistics, General
7936  **SHIP CONSTRUCTION AND REPAIR SUPERINTENDENT (GENERAL) [SHP C&R GEN]** [Job Code: 001713]
Directs division of naval shipyard production department concerned with shopwork and ship construction and/or repair, alteration, conversion, or overhaul. Coordinates specialized units concerned with hull, machinery, weapons, electrical and electronic equipment, or nuclear reactor plant. Supervises superintendents having immediate responsibility for specific projects. Determines priority of work within division. Secures approval for minor modifications in designs for repairs, recommending major alterations to planning department. Expedites work to comply with established schedules. Coordinates work with other yard divisions.

AVIATION ENGINEERING (DESIGN AND ACCEPTANCE) GROUP
8000-8099

Classifications in this group identify primary duties involving planning, participation in, or direction of research, development, design, and testing of naval aircraft and components.

8002 AERODYNAMICS ENGINEERING OFFICER [AERO ENG] [Job Code: 001756]
Related Codes: NOBC - 8026, 8076; DOD Group - 4D Aviation Maintenance and Allied

8004 AERONAUTICAL ENGINEERING OFFICER, AIRCRAFT MECHANICAL, ELECTRONIC, ELECTRICAL, AND SAFETY EQUIPMENT [AEROEENG A/CSYS] [Job Code: 001758]
Administers and directs research, development and testing of aircraft mechanical, electronic, electrical and/or safety equipment and related systems. Determines design requirements for aircraft equipment such as actuating and flight control systems, airframe components, emergency ejection devices, mechanical standards parts and/or aircrew protective systems and equipment. Prepares production specifications for contractor. Consults with aircraft design engineers in adapting equipment to aircraft. Determines standards for flight testing of equipment and systems.
Related Codes: NOBC - 8026, 8076; DOD Group - 4D Aviation Maintenance and Allied

8015 AIRCRAFT ARMAMENT DEVELOPMENT OFFICER [A/C ARM DVLP] [Job Code: 001761]
Plans and directs research, design, development, test, evaluation, or installation programs for aircraft armament. Determines physical and performance characteristics of aircraft weapons including aircraft guns, rockets, pyrotechnics, bombs and bomb systems and chemical systems. Evaluates aircraft and armament compatibility. Manages technical aspects of aircraft armament programs concerned with launching and suspension equipment, pyrotechnic dispensers and launchers, armament monitor and control systems, arming and dearming equipment, guided missile launcher power supplies, armor, turrets and pylons. Supervises preparation of design specifications.
Related Codes: NOBC - 6920; DOD Group - 4E Ordnance
8018  AIRCRAFT PRODUCTION OFFICER [A/C PROD] [Job Code: 001763]
Furnishes technical advice and direction in procurement and production of aircraft and components such as power plants, propellers and instruments. Determines production schedules for aircraft and aircraft components to meet naval aviation requirements. Investigates sources of supplies, bid quotations and manufacturers' capacities and potentials; prepares procurement directives. Directs production and shipment of equipment, ensuring fulfillment of aircraft production schedules. Assists contractors in production engineering, planning and control, maintaining liaison through aviation field representatives.
Related Codes: NOBC - 8076; DOD Group - 4D Aviation Maintenance and Allied

8020  AIRCRAFT SURVIVABILITY OFFICER [A/C SURV] [Job Code: 002623]
Conducts time critical on-site assessments of battle-damaged aircraft to determine the threat weapon; documents and reports its effect to operational commanders and engineering acquisition agencies. Coordinates with maintenance personnel to aid with documenting and collecting battle damage information. Interfaces with engineering, intelligence, and operational communities to scrutinize collected battle damage data to develop and improve platform survivability. Catalogs aircraft battle damage data including mission, engagement, and maintenance information into survivability databases.
Related Codes: None; DOD Group - 220700 Operations Staff

8026  AIRCRAFT TEST ENGINEER [A/C TEST ENG] [Job Code: 001766]
Directs or conducts engineering tests on experimental and service-type aircraft to gain data concerning design, fabrication, serviceability and operation of aircraft. Studies details of airframe, powerplant, instrumentation and special equipment of aircraft, determining methods and procedures of conducting tests. Participates in test flights, recording data, observing functioning of aircraft and equipment and supervising operation of aircraft equipment. Prepares technical reports setting forth findings and recommendations.
Related Codes: NOBC - NONE; DOD Group - 4D Aviation Maintenance and Allied

8035  AIRCRAFT/GUIDED MISSILE ENGINE PROJECT OFFICER [AC/GM ENG PJ] [Job Code: 001768]
Coordinates aircraft or guided missile engine project within defined boundaries of time, resources and performance requirements. Prepares master plan, including schedules, costs and scope of all work and resources required. Initiates overall production plans. Monitors integrated logistic support requirements. Monitors contract negotiations and approves proposed contractual actions required for accomplishment of project. Evaluates progress. Coordinates changes to scope, timing and cost with functional organizations. Controls logistic support functions. Approves design changes to support equipment, as appropriate.
Related Codes: NOBC - 6280; DOD Group - 4D Aviation Maintenance and Allied

8050  LAUNCHING, RECOVERY, AND LANDING AIDS ENGINEERING OFFICER [LNCH/RECV/AIDS]
[Job Code: 001771]
Plans, coordinates and directs research, design, development and testing of launching and recovery systems, landing aids and fog modification systems. Develops and implements research plans and programs. Evaluates design proposals. Determines handling equipment needed for new aircraft. Prepares specifications for catapult and arresting gear installations. Prepares technical data and instructions for operation of landing aids.
Related Codes: NOBC - 8004; DOD Group - 4D Aviation Maintenance and Allied

8074  GROUND SUPPORT EQUIPMENT AND SHIP FACILITIES ARRANGEMENT OFFICER [GSE & SFA]
[Job Code: 001773]
Plans, administers, or executes research and development programs for Ground Support Equipment (GSE) items and determines requirements for, and arrangement of, aviation facilities. Investigates, determines suitability and approves any special, general purpose, standard, or common GSE items used with aircraft and weapons systems. Determines parameters, characteristics, details, coordination of installation requirements and positioning of GSE items aboard ship and at shore activities.
Related Codes: NOBC - 8050; DOD Group - 4D Aviation Maintenance and Allied
8076  TYPE AIRCRAFT DESIGN AND DEVELOPMENT OFFICER [TYP A/C D&D] [Job Code: 001776]
   Directs Naval Air Systems Command section or project on type of aircraft design, development, test and
evaluation of experimental aircraft. Assists in screening and evaluating proposals for type of experimental aircraft.
Assists research and development activities concerned with preliminary investigation of proposed project.
Recommends award of contract. Oversees project through design and engineering stages, coordinating efforts of
systems command division and contractor. Reviews field testing at manufacturer's plant and naval aviation test
facilities.
   Related Codes:  NOBC - 8002; DOD Group - 4D Aviation Maintenance and Allied

AVIATION ENGINEERING (MAINTENANCE AND REWORK) GROUP
8100-8199

Classifications in this group identify primary duties involving planning, administration, and direction of
depot, intermediate, and organizational maintenance of naval aircraft, components, parts, and support
equipment.

8112  AVIATION MAINTENANCE FIELD REPRESENTATIVE [AV MNT FLD REP] [Job Code: 001780]
   Visits aircraft activities for purpose of assisting in solution of maintenance problems encountered with naval
aircraft. Demonstrates to maintenance personnel proper techniques and use of new or special equipment to improve
maintenance. Disseminates technical information. Advises on proper preparation of reports. Assists and advises in
obtaining aircraft material, equipment and technical publications. Submits technical reports to Naval Air Systems
Command whenever difficulty is encountered which warrants further information, investigation, or action.
   Related Codes:  NOBC - 8116, 8118; DOD Group - 4D Aviation Maintenance and Allied

8115  AVIATION MAINTENANCE MANAGEMENT ENGINEER [AV MNT MGT ENG] [Job Code: 001783]
   Develops and coordinates studies to achieve maximum utilization of manpower, material and facilities within
the maintenance division. Directs studies for developing uniform production controls, work simplification and work
measurement for field programs. Develops uniform organization structures and administrative procedures. Studies
uniform means for obtaining, analyzing and utilizing accounting and statistical data. Maintains liaison with
management engineering groups of the Navy and other activities to obtain information concerning new developments
and techniques.
   Related Codes:  NOBC - 2160, 8177; DOD Group - 7A Administrators, General

8116  AVIATION MAINTENANCE PLANNING OFFICER [AV MNT PLN] [Job Code: 001785]
   Directs and supervises planning for establishment of airframe and engine maintenance requirements.
Establishes number and type of aircraft to be overhauled. Determines requirements for new spare engines to support
approved aircraft program. Directs movement of aircraft from operating commands to overhaul and repair
departments or storage pools and return to operating commands. Schedules ferrying of aircraft and maintains
progress reports of such movements. Maintains records of location and status of aircraft.
   Related Codes:  NOBC - 8175, 8176; DOD Group - 4D Aviation Maintenance and Allied

8118  AVIATION MAINTENANCE ENGINEERING OFFICER [AV MNT ENG] [Job Code: 001788]
   Establishes technical procedures needed to maintain aircraft, aviation equipment and accessories. Investigates
and takes corrective action on reports of unsatisfactory material. Recommends changes in design features affecting
equipment maintenance. Issues technical bulletins and modification instructions. Determines requirements and
reviews for accuracy technical handbooks, including service and parts sections. Selects special tool and test
equipment items required for line maintenance and overhaul of aircraft equipment.
   Related Codes:  NOBC - 8152; DOD Group - 4D Aviation Maintenance and Allied
8125 AVIATION OVERHAUL SCHEDULES OFFICER [AV OVHL SKED] [Job Code: 001790]
Schedules overhaul, repair and modification of aircraft, engines and aviation equipment. Distributes aircraft overhaul assignments to various industrial establishments on basis of geographical location, home base of squadron, local labor conditions and transportation facilities. Checks field activities' overhaul schedules for conformance to overall maintenance program and policies. Ensures availability of adequate facilities and personnel to accomplish assigned schedule.
Related Codes: NOBC - 8175, 8176; DOD Group - 4D Aviation Maintenance and Allied

8141 DEPOT MAINTENANCE ENGINEERING AND QUALITY OFFICER [D/MNT ENG/QUAL] [Job Code: 001793]
Directs engineering services for Naval Air Rework Facility, ensuring economy of operation and quality of end product. Establishes engineering specifications for processing items in production shops. Interprets and supplements rework specifications supplied by systems command. Prepares and interprets test specifications and limits of performance and calibration for operating, test and standards equipment. Develops and implements quality control procedures and systems. Ensures conformance to quality standards. Furnishes functional guidance and technical services to elements which plan/perform work to design and quality specifications.
Related Codes: NOBC - 8112, 8116, 8118, 8177; DOD Group - 4D Aviation Maintenance and Allied

8152 DEPOT MAINTENANCE PRODUCTION OFFICER [D/MNT PROD] [Job Code: 001795]
Administers planning, scheduling and accomplishment of depot maintenance workload. Directs rework operations on designated weapons systems, accessories and equipment. Directs the manufacture of required aircraft parts and assemblies. Ensures effectiveness of production operations. Provides engineering services in support of production operations.
Related Codes: NOBC - 8112, 8125, 8141; DOD Group - 4D Aviation Maintenance and Allied

8175 AIRCRAFT INTERMEDIATE MAINTENANCE/MATERIAL CONTROL OFFICER [A/C IMNT/MTL] [Job Code: 001798]
Plans, coordinates and manages aircraft intermediate maintenance workload. Controls activities of production divisions. Monitors workload priorities and assigns completion times for check, test, repair, update/ modification, calibration/qualification and overhaul of aircraft engines, airframe systems, avionics systems, aviator's survival systems and general/special aviation maintenance support equipment and associated components. Provides technical assistance to supported activities. Ensures technical compliance with established maintenance policies. Requisitions required material.
Related Codes: NOBC - 8176, 8189, 8925; DOD Group - 4D Aviation Maintenance and Allied

8176 AIRCRAFT ORGANIZATIONAL MAINTENANCE/MATERIAL CONTROL OFFICER [A/C OMNT/MTL] [Job Code: 001803]
Plans, coordinates and manages organizational level aircraft maintenance workload. Controls activities of production divisions/branches. Prepares schedules and man-hour estimates for periodic maintenance of aircraft engines, airframes, avionics, weapons, components and support equipment. Assigns job priorities and completion times for unscheduled maintenance actions, technical directive compliance and conditional aircraft inspection requirements ensuring compliance with established maintenance policies. Maintains aircraft, inventory, engine and accessory logs/records and current maintenance index. Maintains liaison with supporting activities. Requisitions required material.
Related Codes: NOBC - 8175, 8190, 8925; DOD Group - 4D Aviation Maintenance and Allied

8177 AIRCRAFT MAINTENANCE QUALITY CONTROL OFFICER [A/C MNT QC] [Job Code: 001808]
Administers aircraft maintenance quality control program. Monitors maintenance and repair inspection procedures and standards. Ensures conformance of work accomplished to established standards and safety-of-flight requirements and compliance with calibration and safety instructions. Determines applicability of technical publications and directives to quality control. Identifies discrepancies and takes appropriate action. Performs or directs inspections of maintenance and repair work accomplished, equipment used and ready-for-issue material and spares. Maintains master technical library.
Related Codes: NOBC - 8141; DOD Group - 4D Aviation Maintenance and Allied
8180 AIR WING MAINTENANCE OFFICER [AIR WING MNT] [Job Code: 001811]
Coordinates aircraft maintenance performed by and in support of squadrons and units under the cognizance of the Wing Commander. Provides liaison between squadrons, ships and stations in connection with maintenance matters. Manages and operates Wing maintenance control center in Flight Deck Control when embarked.
Related Codes: NOBC - 8189, 8190; DOD Group - 4D Aviation Maintenance and Allied

8189 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, GENERAL [A/C IMNT GEN] [Job Code: 001813]
Administers and supervises intermediate level maintenance program in accordance with controlling directives from higher authority. Supervises intermediate level maintenance, including calibration, repair or replacement of damaged or unserviceable parts, components, or assemblies and manufacture of unavailable parts. Promotes improvements in policy direction, technical supervision and management control of programs affecting aircraft maintenance activities.
Related Codes: NOBC - 8175, 8177, 8190-8195; DOD Group - 4D Aviation Maintenance and Allied

8190 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, GENERAL [A/C OMNT GEN] [Job Code: 001816]
Administers and supervises organizational level maintenance program in accordance with controlling directives from higher authority. Supervises organization level maintenance, including inspection, servicing, lubricating, adjusting and replacement of parts, minor assemblies and subassemblies. Promotes improvements in policy direction, technical supervision and management control of programs affecting aircraft maintenance activities.
Related Codes: NOBC - 8176, 8197, 8199; DOD Group - 4D Aviation Maintenance and Allied

8191 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, POWERPLANTS [A/C IMNT PWRPL] [Job Code: 001818]
Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft powerplants, powerplant components, accessories and related systems including but not limited to engines, propellers, cooling systems, fuel tanks, rotor systems and components.
Related Codes: NOBC - 8189, 8190, 8197; DOD Group - 4D Aviation Maintenance and Allied

8192 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, AIRFRAMES [A/C IMNT A/F] [Job Code: 001821]
Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of air-frame systems and components (except missiles) such as fuselage, wings, fixed surfaces, movable surfaces, cargo hoists, landing gear, hydraulic, pneumatic and utility systems and components.
Related Codes: NOBC - 8002, 8175, 8189, 8197; DOD Group - 4D Aviation Maintenance and Allied

8193 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, ARMAMENT EQUIPMENT [A/C IMNT ARMEQ] [Job Code: 001823]
Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft weapons systems and components including bombing, gunnery and rocket equipment, sights, bomb racks and launchers, air compressors (armament only), gunfire interrupters and switches, gun cameras, solenoids, switches, transformers, heaters, ammunition containers, bomb release units, door timers, latches, operating mechanisms, warning lights, munitions hoisting and loading equipment, gun charging units, pyrotechnic ejectors and launchers, jet-assisted take-off units and installed tow target equipment.
Related Codes: NOBC - 8189, 8199; DOD Group - 4D Aviation Maintenance and Allied

8195 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, SUPPORT EQUIPMENT [A/C IMNT SUPEQ] [Job Code: 001826]
Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft maintenance support equipment such as gasoline, electric and diesel powered servicing equipment, gas turbine powered servicing equipment, trailers, dollies and carts (nonpowered) and mechanical support equipment.
Related Codes: NOBC - 8004, 8074, 8189, 8196; DOD Group - 4D Aviation Maintenance and Allied
8196 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, LINE DIVISION [A/C OMNT LINE]  
[Job Code: 001828]  
Performs organizational level maintenance functions, as indicated in NOBC 8190, in the line division. Supervises and assigns plane captains, troubleshooters and ground support equipment maintenance personnel in preoperation, postoperation and daily inspections, servicing and maintenance of assigned aircraft and support equipment.  
Related Codes: NOBC - 8176, 8190, 8638; DOD Group - 4D Aviation Maintenance and Allied  

8197 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, AIRCRAFT DIVISION [A/C OMNT A/C]  
[Job Code: 001831]  
Performs organizational level maintenance functions, as indicated in NOBC 8190, in the aircraft division. Supervises the inspection, removal, functional test and adjustment and installation of components in such areas as powerplants, airframes and aviator's equipment. Directs the supervision, coordination and completion of periodic maintenance and inspections of assigned aircraft conducted in the maintenance production divisions.  
Related Codes: NOBC - 8191, 8192, 8625, 8638; DOD Group - 4D Aviation Maintenance and Allied  

8198 AIRCRAFT INTERMEDIATE MAINTENANCE OFFICER, AVIONICS [A/C IMNT AV] [Job Code: 001837]  
Performs intermediate level maintenance functions, as indicated in NOBC 8189, in the area of aircraft electrical and electronics systems, including radio, radar, navigation, recognition (IFF), aircraft power generation and distribution, lighting and instrumentation, electronic fire control and bombing, sonar, magnetic detection, electronic countermeasures and related systems and avionics support equipment.  
Related Codes: NOBC - 5977, 8189, 8199; DOD Group - 4D Aviation Maintenance and Allied  

8199 AIRCRAFT ORGANIZATIONAL MAINTENANCE OFFICER, AVIONICS/WEAPONS DIVISION  
[A/C OMNT AV/WP] [Job Code: 001840]  
Performs organizational level maintenance functions, as indicated in NOBC 8190, in the Avionics/Weapons Division. Supervises the inspection, removal, functional test and adjustment and installation of components in such areas as electronics, electrical, instrument, weapons, reconnaissance and photographic. Oversees the conduct of periodic maintenance of assigned aircraft in appropriate areas of responsibility.  
Related Codes: NOBC - 8190, 8193, 8198; DOD Group - 4D Aviation Maintenance and Allied  

FLIGHT GROUP  
8500-8599  
Classifications in this group identify primary duties involving airborne aircraft operations, including piloting of various types of aircraft, control of airborne aircraft, and operation of airborne equipment.  

8501 AVIATOR [AVIATOR] [Job Code: 001842]  
Pilots or Naval Flight Officers responsible for the safe operation of naval aircraft with regards to command, piloting navigation, communications, or weapons system operation management in support of various missions of the Navy.  
Related Codes: NOBC - 8506, 8583, 8585, 8588, 8591, 8592, 8593, 8594; DOD Group - 2B Other Fixed-Wing Pilots  

8506 CARRIER AIRBORNE COMBAT INFORMATION CENTER OFFICER [CV A/B CIC] [Job Code: 001845]  
Controls and directs Combat Information Center (CIC) operations in carrier-based aircraft configured for CIC. Operates or directs operation of installed equipment including communications and radar. Controls detection, identification and surface and air target tracking operations. Conducts air-intercept control and antisubmarine air-control operations. Coordinates air/surface evolutions. Assists in search and rescue operations.  
Related Codes: 8501; DOD Group - 2D Aircraft Crews
8583  SPECIAL PROJECT PILOT [SP PJ PILOT] [Job Code: 001850]

Pilots aircraft or spacecraft for developmental and experimental purposes. Participates in special projects such as guided missile, ordnance, electronic and space exploration projects.

Related Codes: NOBC - 8501, 8588; DOD Group - 2B Other Fixed-Wing Pilots

8585  SPECIAL PROJECT AIRBORNE ELECTRONICS EVALUATOR [SP PJ ELX EVAL] [Job Code: 001852]

Directs or participates in electronics or electronic countermeasures projects at naval air development, experimental, test, or fleet activities. Conducts tests in flight in aircraft configured for experimental and/or classified projects such as guided missiles. Operates equipment when required. Supervises and/or instructs watchstanders during flight operations, evaluates results and prepares reports.

Related Codes: 8501; DOD Group - 2D Aircraft Crews

8588  TEST PILOT [TEST PILOT] [Job Code: 001855]

Pilots newly constructed, modified, or repaired aircraft on test flights. Examines requirements and restrictions for particular aircraft type to be tested. Operates aircraft under varying flight conditions. Evaluates test aircraft airworthiness. Consults with engineering and maintenance personnel and prepares recommendations concerning equipment and performance discrepancies. Approves aircraft as safe for normal flight.

Related Codes: NOBC - 8501, 8585; DOD Group - 2B Other Fixed-Wing Pilots

8591  NAVAL FLIGHT OFFICER INSTRUCTOR, TRAINING PLANES [NFOINST TRAPLN] [Job Code: 001857]

Instructs Naval Flight Officers in navigation principles, celestial and high-speed low-level navigation, electronics and air-to-air intercept procedures. Conducts instruction in classroom, in simulators and in training planes. Demonstrates approved procedures and techniques. Corrects mistakes. Qualifies student in phase when classroom, simulator and in-flight proficiency is demonstrated.

Related Codes: 8501; DoD Group - 2D Aircraft Crews

8592  FLIGHT INSTRUCTOR, TRAINING PLANES [FLGTINST V/HT] [Job Code: 001860]

Pilots various type training planes to instruct student officers and aviation cadets in operation of naval aircraft. Explains operation of flight controls and interpretation of flight instrument panel in cockpit. Takes off, operates and lands trainer-type aircraft, demonstrating to student pilot correct techniques and procedures for contact flight. Flies with student at controls and corrects mistakes. Qualifies student for particular type training plane when flight proficiency is demonstrated.

Related Codes: NOBC - 8501, 8593; DoD Group - 2B Other Fixed-Wing Pilots

8593  FLIGHT INSTRUCTOR - PILOT, FLEET OPERATIONAL AIRCRAFT [FLGTINST PILOT] [Job Code: 001865]

Pilots various fleet-type aircraft for purpose of instructing designated naval aviators/naval flight officers (NFOs) transitioning to fleet-type aircraft. Conducts preflight and postflight briefings. Operates fleet-type aircraft from land base or aircraft carrier, demonstrating proper techniques. Conducts ground training, training in tactics and training in operation of navigation, electronic and armament equipment. Certifies pilots/NFOs as qualified for particular aircraft.

Related Codes: NOBC - 8501, 8592; DoD Group - 2B Other Fixed-Wing Pilots

8594  FLIGHT INSTRUCTOR - NFO, FLEET OPERATIONAL AIRCRAFT [FLGTINST NFO] [Job Code: 001868]

Instructs designated naval aviators/naval flight officers (NFOs) transitioning to fleet multiplace aircraft. Conducts preflight and postflight briefings. Operates air intercept radar and other electronic search and/or detection devices and associated fire control equipment, demonstrating proper techniques. Conducts ground training, training in tactics and training in operation of navigation, electronic and armament equipment. Certifies pilots/NFOs as qualified for particular aircraft.

Related Codes: NOBC - 8501, 8591; DoD Group - 2D Aircraft Crews
Classifications in this group identify primary duties involving the direction or administration of operations required for the immediate support of the flight group such as air traffic control, flight safety, line servicing, aircraft arming and fueling, flight scheduling, and miscellaneous airport services.

8606 **ANTISUBMARINE CLASSIFICATION AND ANALYSIS OFFICER, AVIATION [ASCLAS&ANAL AV]**  
(Job Code: 001870)  
Directs evaluation, classification and analysis of antisubmarine operations data. Recommends appropriate tactical action to operational commander. Evaluates performance of assigned aircraft squadrons and recommends improvements to increase capability to develop contacts. Conducts aircrew briefings and debriefings on antisubmarine operations. Maintains status boards on squadron readiness. Evaluates equipment and procedures and as appropriate, recommends improvements.  
Related Codes: NOBC - 9040; DOD Group - 2G Operations Staff

8608 **AIR BOATSWAIN [AIR BOSN]**  
(Job Code: 001873)  
Supervises repair group in emergency handling of aircraft during general quarters and flight quarters. Supervises repair unit performing salvage operations, plane recovery, pilot rescue, plane jettisoning and firefighting. Directs emergency repairs to aircraft, firefighting, and plane-handling equipment. Trains personnel in crash and firefighting duties. Conducts inspections to ascertain readiness and ensure servicing and cleaning after use.  
Related Codes: NOBC - 8625; DOD Group - 2G Operations Staff

8614 **CATAPULT AND ARRESTING GEAR OFFICER [CAT&AG]**  
(Job Code: 001875)  
Related Codes: NOBC - 8608, 8625, 8654; DOD Group - 2G Operations Staff

8618 **AIR OFFICER [AIR]**  
(Job Code: 001878)  
Directs and administers air department on board aircraft carriers. Supervises activities of aviation personnel concerned with plane launching and landing, line preparations, plane handling and shipboard repair and maintenance of embarked aircraft. Schedules work for ship's aviation shops, ensuring compliance with work orders submitted. Directs arming, fueling and line checks of aircraft in preparation for launching.  
Related Codes: NOBC - 8620, 8625, 8654; DOD Group - 2G Operations Staff

8620 **AIR OPERATIONS OFFICER, AFLOAT [AIR OPS AFLOAT]**  
(Job Code: 001880)  
Controls and schedules flight operations of ship's aircraft. Prepares flight operations plan, indicating daily flight and plane assignment. Delivers briefings to embarked pilots. Maintains radio communications with aircraft and provides directions on launching-landing operations. Tracks aircraft in Combat Information Center (CIC). Furnishes CIC with information regarding air operations. Evaluates operation with pilots and prepares operational reports.  
Related Codes: NOBC - 8668, 8680, 8685; DOD Group - 2G Operations Staff

8621 **STRIKE OPERATIONS OFFICER [STRK OPS]**  
(Job Code: 001882)  
Assists in the planning and execution of air strike operations. Makes prestrike target analysis. Prepares recommendations for the employment of nuclear and/or conventional strike weapons. Coordinates planning with respect to type and quantity of ordnance requirements for strike. Recommends type and number of participating aircraft for commander's consideration. Monitors communications concerned with strike. Assists commander in controlling launch. As directed, assists command in tactical determinations during the development of strike operations. Supervises operation control center.  
Related Codes: NOBC - 8972; DOD Group - 2G Operations Staff
8625 **AIRCRAFT HANDLING OFFICER** [A/C HANDLING] [Job Code: 001884]
  Directs flight and hangar deck operations aboard carrier, including spotting, landing and launching aircraft and handling crashes and fires. Directs flight deck officer and hangar deck officer. Supervises elevator operations between flight and hangar decks. Directs spotting of aircraft for catapult launching and flyaway. Directs training of personnel in techniques of spotting, plane handling, recovering and jettisoning planes, rescue of pilots and combating deck fires. Establishes safety practices.
  Related Codes: NOBC - 8654, 8660; DOD Group - 2G Operations Staff

8638 **AIRCRAFT FUELING OFFICER** [A/C FUEL] [Job Code: 001886]
  Supervises loading and unloading of aviation fuel and fueling and defueling of squadron aircraft. Arranges for adequate supply of aviation gasoline, submitting requisitions to ship or station supply department. Controls pumping operations when loading or unloading gasoline. Arranges for fueling and defueling of aircraft. Trains crewmen in particular duties and safety procedures. Supervises maintenance and repair of fueling equipment.
  Related Codes: NOBC - 8660; DOD Group - 8B Supply

8644 **RADAR AIR TRAFFIC CONTROL CENTER OFFICER** [RATCC] [Job Code: 001890]
  Supervises operation of Radar Air Traffic Control Center (RATCC). Controls movement of air traffic within designated area. Establishes operating procedures in accordance with military directives and civil regulations. Maintains liaison with Federal Aviation Agency, local base officials and other agencies concerned with air traffic control. Represent RATCC in accident investigations and regulation infractions. Directs flight checks to ensure highest degree of safety and efficiency.
  Related Codes: NOBC - 8658; DOD Group - 2G Operations Staff

8647 **AIR TRAFFIC CONTROL OFFICER** [AIR TRAF CTL] [Job Code: 001892]
  Manages air traffic control division at air facility not equipped with a radar air traffic control center. Controls movement of air traffic within designated area of control. Directs operations of control tower, ground controlled approach and air surveillance radar where installed. Supervises issuance of flight clearances. Coordinates with maintenance personnel to ensure proper operating condition of air traffic control equipment. Advises operations officer on air traffic control matters.
  Related Codes: NOBC - 8644; DOD Group - 2G Operations Staff

8653 **OFFICER IN CHARGE, AVIATION UNIT OR DETACHMENT** [OIC AV U/DET] [Job Code: 001894]
  Directs operations of aviation unit or aviation detachment of major activity. Ensures compliance with policies, directives, regulations and instructions received from parent activity or other authority. Supervises training requirements, reviewing proficiency of personnel assigned and instituting training to correct deficiencies. Operates unit aircraft on routine training and operational flights.
  Related Codes: NOBC - 8618, 8620, 8668, 8670, 8672; DOD Group - 2E Ground and Naval Arms

8654 **FLIGHT DECK OFFICER** [FLGT DECK] [Job Code: 001896]
