e-mail: hdoa.info@hawaii.gov and RabiesFree@hawaii.gov

Bus Routes: For information about bus transportation, call The Bus at 848-5555.

HOURS OF OPERATION

PET VISITING
Tuesday, Thursday: 1:00 pm to 4:30 pm
Wednesday: 1:00 pm to 5:30 pm
Saturday, Sunday: 12:00 pm to 3:30 pm

No Visiting On Mondays, Fridays and State Holidays

GROOMING HOURS
(BY APPOINTMENT ONLY) Thirty (30) minutes per appointment
Tuesday, Wednesday, Thursday 9:00 am to 11:00 am
(Last appointment at 10:30 am)
Saturday and Sunday 8:00 am to 10:00 am
(Last appointment at 9:30 am)
No Grooming Appointments On Mondays, Fridays and State Holidays

BUSINESS COUNTER
Monday, Tuesday, Thursday, Friday: 8:00 am to 11:00 am
1:00 pm to 4:30 pm
Wednesday: 8:00 am to 11:00 am
1:00 pm to 5:30 pm
Saturday, Sunday, State Holidays: 7:00 am to 10:00 am
12:00 pm to 3:30 pm

PET RELEASES
Monday through Friday: 9:00 am to 11:00 am
1:00 pm to 4:30 pm
Saturday, Sunday, State Holidays: 8:00 am to 10:00 am
12:00 pm to 3:30 pm

THE STATION IS CLOSED ON MONDAYS, FRIDAYS AND STATE HOLIDAYS FOR VISITING AND GROOMING
Hawaii’s Rabies Quarantine Law

Hawaii is rabies-free. Hawaii’s dog and cat import law is designed to protect residents and pets from potentially serious health problems associated with the introduction and spread of rabies. All dogs and cats regardless of age (puppies and kittens included) or purpose, must comply with Hawaii’s dog and cat import requirements.

Chapter 4-29 Hawaii Administrative Rules, governs the importation of dogs, cats and other carnivores into Hawaii. This law states that dogs and cats meeting specific pre- and post arrival requirements, may qualify for 5-days–or-less quarantine or direct release at Honolulu International Airport after inspection. (See “Checklist For 5-Day-Or-Less Program” for details.) Furthermore, law requires dogs and cats not meeting all of the specific 5-Day-Or-Less program requirements to be quarantined for up to 120 days upon arrival in Hawaii. (See “PREPARATIONS FOR DOGS AND CATS THAT WILL BE QUARANTINED” for details on 120-day quarantine.)

Prohibited Animals Non-domestic dogs and cats and hybrids such as wolf, wolf cross, Dingo, Bengal, Savannah, etc are prohibited under Plant Quarantine law. Refer to http://www.hawaiiaq.org/hdoa/pi_pq_animal.htm or contact Plant Quarantine with questions at (808) 832-0566 or (808) 837-8413.

Puppies and Kittens Due to the minimum amount of time needed to prepare a puppy or kitten to meet the requirements of the 5-Day-Or-Less program, a puppy or kitten will be about 10 months of age by the time the preparations are completed. Puppies and kittens not able to meet all of the requirements for the 5-Day-Or-Less program will be quarantined for 120 days.

Hawaii Resident Pets Owners wishing to leave Hawaii with their pets, and return without extended quarantine, must meet all requirements listed on the “Checklist Only For Resident Dogs And Cats Originating From Hawaii And Returning For The 5-Day-Or-Less Program”. The length of the waiting period after a successful rabies blood test is modified and must be completed before leaving Hawaii. See “Checklist Only For Resident Dogs And Cats Originating From Hawaii And Returning For The 5-Day-Or-Less Program” for details.

*WARNING! It is STRONGLY recommended that pet owners of Hawaii resident pets obtain a copy of their pet’s passing OIE-FAVN rabies test result from their veterinarian prior to departure from Hawaii. Pets without a documented passing OIE-FAVN rabies blood test before departure from Hawaii and required rabies vaccinations will be quarantined for 120 days upon return without exception.

Pets En Route to Other Destinations Pets passing through Hawaii with transit layover periods of more than 24 hours are required to be quarantined at the State facility if they are not qualified for direct airport release. For layover periods of 24 hours or less, animals are held at the Animal Port provided by the Hawaiian Humane Society. The Hawaiian Humane Society may be reached at (808) 946-2187.

If your pet’s transit layover period is longer than 24 hours, be sure to provide the Animal Quarantine Station with a complete itinerary at least 72 hours prior to departure from Hawaii. Advance notice is required so your pet can be transported to the Airport Holding Facility in
preparation for departure. Owners of pets in transit are charged the following fees: $45.00 registration/health record fee and $14.30 per day kenneling fee.

**Exempt Areas** Animals entering Hawaii on direct flights from the British Isles, Australia, Guam and New Zealand may be exempt from quarantine if specific requirements are met. If you are planning to import animals from these areas, please refer to the information and see “Checklist For Pets Arriving From British Isles, Australia, Guam And New Zealand” at: www.hawaiiag.org/hdoa/ai_aqs_info.htm or contact the Animal Quarantine Station by e-mail or phone for instructions regarding pre-entry requirements. E-mail address: rabiesfree@hawaii.gov

**Modified Quarantine Relating To Guide And Service Dogs**
For information and requirements relating to guide and service dogs refer to the Department of Agriculture website: http://www.hawaiiag.org/hdoa/ai_aqs_info.htm

**PLANNING YOUR PET’S MOVE**

**Determine If Your Pet Should Move to Hawaii** Very old, very young (less than 9 weeks of age), chronically ill, or debilitated animals should not be shipped. Pregnant animals, past 45 days gestations, are prohibited from entering. Owners with pets that experience difficulties during hot periods should use caution whenever shipping pets to Hawaii. High temperatures associated with high humidity usually peak during May through October. Pet owners should consult with their veterinarians regarding potential pet hazards in Hawaii such as toads and poisonous plants.

**Persons importing pets into the State of Hawaii do so at their own risk.** Aside from negligence, the State will not assume liability for any consequences resulting from shipment or confinement. The owner assumes all liability by presenting the animal for quarantine.

This information brochure has been developed for Hawaii visitors and residents traveling with or sending their animals to Hawaii and it is the responsibility of each dog and cat owner to comply with all of the requirements described herein. You should contact the Rabies Quarantine Branch with any questions well in advance of your pet’s arrival in Hawaii as law does not permit exemptions or modifications of any entry requirement. (Owners of resident pets must contact the Branch well in advance of their departure from Hawaii.) You may obtain further assistance via e-mail: hdoa.info@hawaii.gov and RabiesFree@hawaii.gov or by phone, the Animal Quarantine Station Tel: (808) 483-7151, FAX: (808) 483-7161.

(Information included in this publication is subject to change and revision at any time without notice.)
120-DAY AND 5-DAY-OR-LESS PROGRAMS
There are two rabies quarantine programs for dogs and cats entering Hawaii: 120-days and 5-Day-Or-Less (includes airport release).

120-Day Quarantine Program
Please refer to “Preparations For Dogs And Cats That Will Be Quarantined” (pg 15-16) for those pets that are not able to qualify for the 5-Day-Or-Less program and will subsequently be in quarantine for the full 120-days (inadequate number or timing of rabies vaccinations, failed blood test or no blood test, animals less than about 10 months, etc).

5-Day-Or-Less Program INCLUDES AIRPORT RELEASE
For Pets Outside Hawaii: Pets originating from area outside the State of Hawaii must meet all requirements on the "Checklist for 5-day-or-less Program" to enter the State without extended quarantine. See pages 7-10 for Checklist details. Pet owners wishing to qualify their pets for airport release must follow the checklist including requirements for airport release. Pets not meeting all requirements are subject to quarantine for up to 120 days.

! Note: requirements on the checklist detail specific timing for two rabies vaccinations and FAVN blood testing that must be followed to qualify for the 5-day-or-less program.

For Pets Residing In Hawaii: Owners wishing to leave Hawaii with their pets, and return without extended quarantine, must meet all requirements on the "Checklist Only for Resident Dogs and Cats Originating From Hawaii and Returning for the 5-day-or-less Program.” See pages 11-14 for Checklist details. Pet owners wishing to qualify their pets for airport release must follow the checklist including requirements for airport release Pets not meeting all requirements are subject to quarantine of up to 120 days.

! Note: Only pets residing in Hawaii (and not under quarantine) are eligible for this program. Requirements on the checklist detail specific timing for two rabies vaccinations and a *FAVN test that must be completed and passed before leaving Hawaii to qualify for this program.

(Alternatively, a resident dog or cat may meet all of the requirements listed on the “Checklist For 5-Day-Or-Less Program” (pg 7-10) instead. However, a longer waiting period and preparation time is required in this case).

(Information included in this publication is subject to change and revision at any time without notice.)
CHECKLIST FOR 5-DAY-OR-LESS PROGRAM

Owners of resident Hawaii pets please use: “CHECKLIST ONLY FOR RESIDENT DOGS AND CATS ORIGINATING FROM HAWAII AND RETURNING FOR THE 5-DAY-OR-LESS PROGRAM” instead.

All steps need to be completed in order to qualify for this program. If you are unable to meet the following requirements, your pet will undergo quarantine for up to 120 days.

Step 1   RABIES VACCINATIONS
☐ My pet has been vaccinated at least twice for rabies in its lifetime.
☐ These rabies vaccines were administered more than 90 days apart.
☐ The most recent rabies vaccination was done:
  ☐ Not more than 12 months prior to my pet’s date of arrival in Hawaii for a 1-year rabies vaccine or;
  ☐ Not more than 36 months prior to my pet’s date of arrival in Hawaii for a 3-year rabies vaccine.

The most recent rabies vaccination was also done:
☐ Not less than 90 days before my pet’s date of arrival in Hawaii.

NOTE! Two rabies vaccinations are required. The pet’s most recent rabies vaccination must not have expired when your pet arrives in Hawaii. Following the most recent rabies vaccination, animals must wait at least 90 days before arriving in Hawaii. If arrival occurs before 90 days has elapsed from the most recent rabies vaccination, the animal is subject to quarantine until 90 days are completed.

☐ The date and type of vaccine must be indicated on the pet’s vaccination and health certificates.
  Most Recent Vaccination Date: ___________ Type of vaccine (check): ☐ 1-year or ☐ 3-year
  Previous Vaccination Date: ______________

Step 2   MICROCHIP (Microchip number: _______________________
☐ My dog or cat has an electronic microchip implanted (Required before an OIE-FAVN rabies blood test is performed).
☐ The microchip has been scanned by my veterinarian to verify that it is working and that the microchip number is correct.
☐ I understand that if my pet cannot be identified by scanning the microchip, it will not qualify for either direct airport release or the 5-day-or-less quarantine and will be assigned to 120 days quarantine.

Step 3   OIE-FAVN RABIES BLOOD TEST

Date sample received by Kansas State University (KSU) or the DOD lab: __________________
Planned Arrival Date (not less than 120 days after KSU DOD received sample)________________
Test result:___________ (passing test valid for 36 months)

☐ The day after KSU or DOD received my pet’s blood sample was not more than 36 months and not less than 120 days before the date of arrival in Hawaii.
☐ The result of my pet’s blood test was greater than or equal to 0.5 IU/ml.
☐ The test was done at an approved lab (Kansas State University or the DOD Food Analysis and Diagnostic Laboratory in Texas)
☐ I have a copy of this successful blood test result showing my pet’s microchip number. Ask your submitting veterinarian for a copy of the results. Do not contact the laboratory directly.
Step 4  WAITING PERIOD – Early Arrival Means Disqualification From 5-Day or Less Quarantine or Airport Release!

**WARNING!** Arriving anytime before the 120-day waiting period has elapsed will result in disqualification of a pet from the 5-day-or-less quarantine program and direct airport release

**IMPORTANT!:** The waiting period begins the day after KSU or DOD received the blood sample for the OIE-FAVN test. The test must also have a result > 0.5 IU/ml. All pets arriving before the eligible date of entry will be quarantined and assessed $14.30 each day in addition to applicable program fees. There are no exceptions.

Following a successful OIE-FAVN test result, *animals must wait at least 120 days before arriving in Hawaii*. If arrival occurs before 120 days has elapsed, the animal is subject to quarantine until 120 days are completed.

☐ I understand that if my pet has not completed the 120-day waiting period before arriving in Hawaii my pet will not qualify for either direct airport release or the 5-day-or-less quarantine program.

Step 5  DOCUMENTS

☐ I have original signature or carbon copy of rabies vaccination certificates for the two most recent rabies vaccinations my pet received (Photocopies are not acceptable).

☐ The vaccination certificates have the vaccine name, lot or serial number, booster interval, vaccination date and expiration date listed.

☐ I have an original health certificate in English, which was done within 14 days of arrival in Hawaii including rabies vaccine name, lot or serial number, booster interval, vaccination date and expiration date.

☐ My vet has treated my pet for ticks with a product containing Fipronil or an equivalent long-acting product (Revolution® is not acceptable) within 14 days of arrival and the product name and date of treatment is recorded on my health certificate.

☐ I have a copy of the Airport Release card given to me when my pet was released at the airport on a previous arrival in Hawaii if I am applying for re-entry under the same OIE-FAVN blood test and rabies vaccinations that have not expired yet.

Step 6  SUBMISSION OF DOCUMENTS (Date Documents Were Sent: ____________)

(Send documents and payment to: Animal Quarantine Station, 99-951 Halawa Valley Street, Aiea, Hawaii 96701.)

**Note! Do not send each document in separately. Send all documents (Dog & Cat Import Form, two rabies vaccination certificates, etc) in as a set. Faxes are not accepted!**

☐ I have allowed necessary delivery time to ensure documentation is received by the Rabies Quarantine Branch more than 10 days before my pet is to arrive in Hawaii for direct release.

☐ If I didn’t send my original health certificate to the Rabies Quarantine Branch in advance of my pet’s arrival when I submitted my other documents, I will provide the health certificate upon arrival at the Airport Animal Quarantine Holding Facility. If I fail to bring the original health certificate (photocopy not acceptable), my pet will not be released.
Required Documentation:
(The Rabies Quarantine Branch must receive the following more than 10 days before my pet is scheduled to arrive in Hawaii!)

- My completed Dog & Cat Import Form AQS-278 (must be notarized).
- My 2 original rabies vaccination certificates with actual veterinarian signature.
- I have paid my fees ($165 per pet in advance for direct airport release or $224 for 5-day-or-less program) by cashier’s check or money order (no personal checks are accepted). I have included my pet’s microchip number with my payment to ensure proper credit. Payable to: Department of Agriculture.
- My copy of the Airport Release card given to me when my pet was released at the airport on a previous arrival in Hawaii if I am applying as a re-entry under the same OIE-FAVN blood test and rabies vaccinations. (Be sure test and rabies vaccination are not expired and still valid!)
- I have sent my documents by mail with return receipt to verify delivery, or by another overnight carrier that provides tracking of my documents.
- I may still pay at the airport however, processing will be delayed. Payment by cashier’s check or money order is recommended. VISA, MasterCard, traveler’s checks and cash will also be accepted upon arrival, but will delay processing time. My payment will be made in full before my pet will be released. Payment in excess of fees will receive refunds through the mail in 6 to 8 weeks after a request for refund is made.
- I have copies of necessary qualification documents (health certificate, rabies vaccination records, and blood test result) for myself and to accompany my pet as a backup.

Step 7 OTHER

- I have verified my pet’s qualification to participate in the 5-day-or-less program at the Hawaii Department of Agriculture web site: http://www.hawaiiaig.org/hdoa/ai_aqs_info.htm

Direct Release at Airport

- I understand that Direct Airport Release is only done at the Honolulu International Airport.
- I have arranged for my pet to arrive at the Airport Animal Quarantine Holding Facility at the Honolulu International Airport during normal inspection hours of 8:00 AM to 8:00 PM. I realize that it may usually take up to one hour for the airlines to transport my pet to the Airport Animal Quarantine Holding Facility [Phone: (808) 837-8092] and animals not arriving at the facility during normal inspection hours will not be released at the airport. I posted inspection hours are subject to change without notice.
- I understand that animals on international flights will also need to clear U.S. Customs before they may be released from the Airport Animal Quarantine Holding Facility. Please check with your airlines regarding U.S. Customs hours of operation to assure they will be open to process your pet for release.
- If my pet is not picked up that day, it will be transferred to the Animal Quarantine Station at 8:30 AM the following morning and will be entered into the 5-day-or-less program. Fees for the 5-day-or-less program are $224 per pet.
- I understand my pet will not qualify for direct airport release if ticks or other parasites are found at the time of arrival.
- I understand that direct release at Honolulu International Airport will not be possible when prohibited by Federal airport security advisories. Under those circumstances pets will be released the following day at the Animal Quarantine Station 99-951 Halawa Valley Street, Aiea, Hawaii 96701, phone: (808) 483-7151, during normal office hours:

<table>
<thead>
<tr>
<th>Monday through Friday:</th>
<th>9:00 AM to 11:00 AM &amp; 1:00 PM to 4:30PM</th>
</tr>
</thead>
<tbody>
<tr>
<td>Saturday, Sunday, State Holidays:</td>
<td>8:00 AM to 10:00 AM &amp; 12:00 PM to 3:30PM</td>
</tr>
</tbody>
</table>
I understand that an animal may only be released to the consignee identified on the shipmaster’s declaration. If I am not traveling with my pet, I have made arrangements with the airlines to consign my pet to the individual who will pick up my pet.

I understand that it is my responsibility to arrange all transportation for my pet once it is released from the Airport Animal Quarantine Holding Facility in Honolulu.

Due to Federal security regulations at the Honolulu International Airport, all pets that qualify for direct airport release must be secured in their flight carriers when picked up from the Airport Animal Quarantine Holding Facility until the animal is out of the Airport. **Do not remove your pet from its transport carrier on airport property!**

I understand that I must notify the Animal Quarantine Station prior to arrival, follow the same procedures, and meet all the requirements each time my pet enters or returns to Hawaii.

I understand that I will pay a fee of $165 per pet for direct airport release or $224 per pet for the 5-day-or-less program each time my pet enters or returns to Hawaii unless it qualifies for subsequent entry fees outlined in: “Re-Entry Fee Requirements”.

5-Day-or-Less - Pets arriving between 8:00 PM and 8:00 AM will be transferred to the Animal Quarantine Station and entered under the 5-day-or-less program. The first day of quarantine shall be the day following the date of animal arrival into the State. In this situation, after all necessary documents are received and verified, pets may be picked up at the Animal Quarantine Station, 99-951 Halawa Valley Street, Aiea, Hawaii 96701, phone: (808) 483-7151, during normal office hours:

- **Monday through Friday:** 9:00 AM to 11:00 AM & 1:00 PM to 4:30 PM
- **Saturday, Sunday, State Holidays:** 8:00 AM to 10:00 AM & 12:00 PM to 3:30 PM

I understand that I will be assessed an additional $17.80 each day my pet remains at the Animal Quarantine Station beyond its scheduled release date. I will arrange to board my pet at a private facility after its release date.

NOTE! Pet owners should bring a baggage cart or other means to transport their crated pet from the Airport Animal Quarantine Holding Facility to the Inter-island Terminal if traveling on to an outer island after release of their pet. There are no carts or porters at the Airport Animal Quarantine Holding Facility.
CHECKLIST ONLY FOR
RESIDENT DOGS AND CATS ORIGINATING FROM HAWAII AND
RETURNING FOR THE 5-DAY-OR-LESS PROGRAM

Only pets residing in Hawaii (and not under quarantine) are eligible for this program. Requirements on the checklist detail specific timing for the rabies vaccinations and testing that must be completed before leaving Hawaii to qualify for this program. ALL steps need to be completed as detailed in order to qualify. If you are unable to meet the following requirements, your pet will undergo quarantine for up to 120 days.

**Step 1 RESIDENCY**
- My pet is not in quarantine
- My pet will be departing from Hawaii and returning to the State
- I will have a health certificate issued by my veterinarian in Hawaii for my departure from the State. This health certificate must contain my pet’s Hawaii address and date of departure from Hawaii.
- I will submit this health certificate to the Rabies Quarantine Branch as proof of my pet originating from Hawaii. (Also see “Step 5, DOCUMENTS” and “Step 6, SUBMISSION OF DOCUMENTS”)

**Step 2 VACCINATIONS**
- My pet has been vaccinated at least twice for rabies in its lifetime.
- The vaccines were administered more than 90 days apart.
- The most recent rabies vaccination was administered before departure from Hawaii and:
  - Not more than 12 months prior to my pet’s date of return to Hawaii for a 1-year rabies vaccine or;
  - Not more than 36 months prior to my pet’s date of return to Hawaii for a 3-year rabies vaccine.
- The most recent rabies vaccination was also administered;
  - Not less than 14 days before my pet’s date of departure from Hawaii.
- The date and type of rabies vaccine must be indicated on the pet’s vaccination and health certificate.

Most Recent Vaccination Date: ____________
Type of vaccine (check): ☐ 1-year or ☐ 3-year
Previous Vaccination Date: _________________
Planned date of departure from Hawaii ____________

**Step 3 MICROCHIP**
- My dog or cat has an electronic microchip implanted (Required before an OIE-FAVN rabies blood test is performed).
- My veterinarian has scanned my pet’s microchip to verify that it is working and that the number is correct.
- I understand that if my pet cannot be identified by scanning the microchip, it will not qualify for either direct airport release or the 5-day-or-less quarantine and will be assigned to 120 days quarantine.

**Step 4 OIE-FAVN RABIES BLOOD TEST**
Date sample received by Kansas State University (KSU) or DOD laboratory: _________________
Planned departure from Hawaii date more than 14 days after KSU or DOD received sample!

**WARNING! DUE TO VARIABILITY IN THE TIME A TESTING LABORATORY MAY TAKE TO COMPLETE A TEST, IT IS STRONGLY RECOMMENDED THAT THE TEST BE DONE WELL IN ADVANCE OF DEPARTURE AND THAT YOU VERIFY YOUR PET HAS PASSED THE TEST PRIOR TO LEAVING THE STATE. WITHOUT A PASSING TEST RESULT AND COMPLETING THE REQUIRED RABIES VACCINATIONS BEFORE DEPARTURE FROM HAWAII, A PET WILL BE PLACED IN QUARANTINE FOR UP TO 120 DAYS UPON RETURN.**
The day after the laboratory received my pet’s blood sample was not less than 14 days before my pet’s date of departure from Hawaii.

The result of my pet’s OIE-FAVN rabies blood test was greater than or equal to 0.5 IU/ml. (passing result)

A passing result will be valid for 36 months after the day KSU or DOD received the test sample.

The test was done at an approved lab (Kansas State University or the DOD Food Analysis and Diagnostic Laboratory in Texas)

I have a copy of this successful blood test result showing my pet’s microchip number. Ask your submitting veterinarian for a copy of the results. Do not contact the laboratory directly.

Step 5 DOCUMENTS

I have veterinarian signed original or carbon copies of rabies vaccination certificates for the two most recent rabies vaccinations my pet received (Photocopies are not acceptable).

The vaccination certificates have the vaccine name, lot or serial number, booster interval, vaccination date and expiration date listed.

I have the original health certificate in English issued by my veterinarian when my pet departed Hawaii that lists rabies vaccine name, lot or serial number, booster interval, vaccination date and expiration date. This health certificate contains my pet’s Hawaii address and date of departure.

For animals returning to Hawaii more than 14 days after the date of the Hawaii health certificate, I have a second original health certificate in English, issued within 14 days of arrival in Hawaii that lists rabies vaccine name, lot or serial number, booster interval, vaccination date and expiration date.

My vet has treated my pet for ticks with a product containing Fipronil or an equivalent long-acting product (Revolution® is not acceptable) within 14 days of arrival and the product name and date of treatment is recorded on my health certificate.

Step 6 SUBMISSION OF DOCUMENTS

Date Documents Were Sent: _______________________________

(Send documents and payment to: Rabies Quarantine Branch, Animal Quarantine Station, 99-951 Halawa Valley Street, Aiea, Hawaii 96701.)

Note! Do not send each document in separately. Send all documents (Dog & Cat Import Form, two rabies vaccination certificates, Hawaii issued health certificate and payment) in as a set. Faxes are not accepted!

I have allowed necessary delivery time to ensure documentation is received by the Rabies Quarantine Branch more than 10 days before my pet is scheduled to arrive in Hawaii for direct release.

If I didn’t send my original health certificate to the Rabies Quarantine Branch in advance of my pet’s arrival, I will provide it upon arrival at the Airport Animal Quarantine Holding Facility. If I fail to bring the original health certificate (photocopy not acceptable), my pet will not be released.

Required Documentation:(The following must be received by the Rabies Quarantine Branch 10 days or more before my pet is scheduled to arrive in Hawaii!)

- My completed Dog & Cat Import Form (AQS-278) must be notarized.
- My two original rabies vaccination documents with original signatures.
- Hawaii issued health certificate (See “Step 1 Residency” above).
- I have paid my fees ($165 per pet in advance for direct airport release or $224 for 5-day-or-less program) by cashier’s check or money order (no personal checks are accepted). I have included my pet’s microchip number with my payment to ensure proper credit. Payable to: Department of Agriculture.
I have sent my documents by mail with return receipt to verify delivery, or by another overnight carrier that provides tracking of my documents.

I may still pay at the airport however processing will be delayed. Payment by cashier's check or money order is recommended. VISA, MasterCard, traveler's checks and cash will also be accepted upon arrival, but will delay processing time. My payment will be made in full before my pet is released. All payment in excess of fees will receive refunds through the mail in 6 to 8 weeks after a request for refund is made.

I have copies of necessary qualification documents (health certificate, rabies vaccination records, and blood test result) for myself and to accompany my pet as a backup.

Step 7 OTHER

I have verified my pet’s qualification to participate in the 5-day-or-less program at the Hawaii Department of Agriculture web site: http://www.hawaiiag.org/hdoa/ai_aqs_info.htm

Direct Release at Honolulu International Airport

I have arranged for my pet to arrive at the Airport Animal Quarantine Holding Facility at the Honolulu International Airport during normal inspection hours between 8:00 AM and 8:00 PM. I realize that it may take up to one hour or more for the airlines to transport my pet to the Airport Animal Quarantine Holding Facility [Phone: (808) 837-8092] and animals not arriving at the facility during normal inspection hours will not be released at the airport. Posted inspection hours are subject to change without notice.

I understand that animals on international flights will also need to clear U.S. Customs before they may be released from the Airport Animal Quarantine Holding Facility. Please check with your airlines regarding U.S. Customs hours of operation to assure they will be open to process your pet for release.

If my pet is not picked up that day, it will be transferred to the Animal Quarantine Station at 8:30 AM the following morning and will be entered into the 5-day-or-less program. Fees for the 5-day-or-less program are $224 per pet.

I understand my pet will not qualify for direct airport release if ticks or other parasites are found on arrival.

I understand that direct release at Honolulu International Airport will not be possible when prohibited by Federal airport security advisories. Under those circumstances pets will be released the following day at the Animal Quarantine Station 99-951 Halawa Valley Street, Aiea, Hawaii 96701, phone: (808) 483-7151, during normal office hours:

- **Monday through Friday:** 9:00 AM to 11:00 AM & 1:00 PM to 4:30PM
- **Saturday, Sunday, State Holidays:** 8:00 AM to 10:00 AM & 12:00 PM to 3:30PM

I understand that an animal may only be released to the consignee identified on the shipmaster’s declaration. If I am not traveling with my pet, I have made arrangements with the airlines to consign my pet to the individual who will pick up my pet.

I understand that it is my responsibility to arrange all transportation for my pet once it is released from the Airport Animal Quarantine Holding Facility in Honolulu.

NOTE! Pet owners should bring baggage carts or other means to transport their crated Pet from the Airport Animal Quarantine Holding Facility to the Inter-Island terminal if traveling on to an outer island after release. There are no carts or porters in the immediate vicinity of the Airport Animal Quarantine Holding Facility.
Due to Federal security regulations at the Honolulu International Airport, all pets that qualify for direct airport release must be secured in their flight carriers when picked up from the Airport Animal Quarantine Holding Facility until the animal is out of the Airport. **Do not remove your pet from its transport carrier on airport property!**

I understand that I must notify the Animal Quarantine Station prior to arrival, follow the same procedures, and meet all the requirements each time my pet enters or returns to Hawaii.

I understand that I will pay a fee of $165 per pet for direct airport release or $224 per pet for the 5-day-or-less program each time my pet enters or returns to Hawaii unless it qualifies for subsequent entry fees outlined in: “Re-Entry Fee Requirements”.

**5-Day-or-Less** - Pets arriving between 8:00 PM and 8:00 AM will be transferred to the Animal Quarantine Station and entered under the 5-day-or-less program. The first day of quarantine shall be the day following the date of animal arrival into the State. In this situation, after all necessary documents are received and verified, pets may be picked up at the Animal Quarantine Station, 99-951 Halawa Valley Street, Aiea, Hawaii 96701, phone: (808) 483-7151, during normal office hours:

- **Monday through Friday:** 9:00 AM to 11:00 AM & 1:00 PM to 4:30 PM
- **Saturday, Sunday, State Holidays:** 8:00 AM to 10:00 AM & 12:00 PM to 3:30 PM

I understand that I will be assessed an additional $17.80 each day my pet remains at the Animal Quarantine Station beyond its scheduled release date. I will arrange to board my pet at a private facility after its release date.
PREPARATIONS FOR DOGS AND CATS THAT WILL BE QUARANTINED

Please review the “Dog And Cat Import Form”, AQS-278 (See Forms section). Complete and return this form by mail to the Animal Quarantine Station no less than two weeks prior to your pet’s arrival in Hawaii. Be sure to check off the box indicating you are applying for the 120-day program. The information you provide will assist us in processing the arrival of your pet.

1. **HEALTH CERTIFICATE** - A health certificate issued by an accredited veterinarian within 14 days prior to arrival is required. (Check with the specific airline regarding their health certificate time requirements.) The health certificate must be written in English, be an original document (not a facsimile or photocopy), bear an original or carbon signature and legible name, address and telephone number of the certifying veterinarian. The health certificate must also contain the following information:

   a. A complete description of your pet including age, markings, sex, breed and any additional identifying characteristics.
   b. Written declaration by issuing veterinarian that the animal was treated to kill all ticks and other external parasites within 14 days prior to arrival with Fipronil or product with similar residual activity, except when a veterinarian provides a written statement that such treatment may be detrimental to the animal's health. List the name of the treatment used and the date of treatment.
   c. Certification that your pet is free of any evidence of infectious or contagious disease.
   d. Certification by the issuing veterinarian to the accuracy of the information stated on the health certificate.
   e. Record of all required vaccinations. For rabies vaccinations, the name of the vaccine, lot/serial number, expiration date of the lot and date the vaccination was given must be included.
   f. The microchip number.

2. **ELECTRONIC MICROCHIP** - All dogs and cats that will be quarantined at an approved veterinary hospital (refer to list of approved hospitals) or satellite quarantine facility are required to have an implanted electronic microchip. The microchip should be obtained from your veterinarian and must be working. Pet owners in foreign countries can order microchips from the State of Hawaii, refer to the enclosed Request for Electronic Microchip (form AQS-73).

3. **VACCINATIONS** - All dogs and cats entering Hawaii must be vaccinated for common infectious agents to protect the health of all animals during quarantine.

   **Rabies Vaccination.** All dogs and cats 90 days of age or older at the time of entry must be vaccinated against rabies with an approved inactivated rabies vaccine (listed in the most recent Compendium of Animal Rabies Control prepared by the National Association of State Public Health Veterinarians) within 12 months prior to arrival with 12 month licensed vaccines or within 36 months for 3 year licensed vaccines.

   **Other Dog Vaccinations** - Dogs 90 days of age or older at the time of arrival shall be vaccinated not less than ten days and not more than the manufacturer’s recommended booster interval before arrival against:

   a. Canine distemper virus;
   b. Canine infectious hepatitis virus or canine adenovirus-2;
   c. Canine parvovirus;
   d. Canine parainfluenza virus;

15
e. Leptospirosis;
e. Bordetella bronchiseptica (kennel cough); and
   Canine coronavirus vaccination is recommended but optional.
Puppies between 2-3 months shall be vaccinated according to AVMA guidelines.

Other Cat Vaccinations. Cats 90 days of age or older at the time of arrival shall be vaccinated not less than ten days and not more than the manufacturer’s recommended booster interval before arrival for:

a. Feline panleukopenia virus (feline viral enteritis);
b. Feline viral rhinotracheitis (feline herpesvirus-1);
c. Feline calicivirus; and
d. Chlamydia psittaci (pneumonitis).
   Feline Leukemia (Felv) vaccination is recommended but optional.
Kittens between 2-3 months shall be vaccinated according to AVMA guidelines

For better protection, vaccination for common infectious agents no less than 10 days prior to shipping is highly recommended.

4. REGISTRATION WITH APPROVED VETERINARY HOSPITAL

All dogs and cats that will be quarantined at the State Animal Quarantine Station (Station) on Oahu must be registered with an approved veterinary hospital (refer to list of approved hospitals) and the name of the hospital indicated on the Dog and Cat Import Form, AQS 278. This is in case of a medical emergency with your pet that requires veterinary care not available at the Station. Veterinary Hospitals will not accept pets for treatment even in emergency situations unless the pet is first registered with them.

The owner, consignee, handler, or carrier shall pay all expenses including private veterinary examinations, vaccinations, microchip implantation, hospitalization, testing, medication, treatment, transportation, and returned shipments to shipper or consignor for animals failing to meet pre-arrival requirements.

Procedures After Arrival In Hawaii

Pets may only enter Hawaii at the Honolulu International Airport, Oahu. Upon arrival, airline personnel will transport all dogs and cats directly to the Airport Animal Quarantine Holding Facility, which is staffed by state personnel. Pets qualified for Airport Release must be picked up at the Airport Animal Quarantine Holding Facility (AAQHF) upon arrival between 8 am and 8 pm. The AAQHF is located on the Ewa Service Road approximately 120 yards from the baggage claim area in the main terminal. Pets not qualified for direct airport release will be transported to the State Animal Quarantine Station. The State will provide all necessary transportation for your pet on the island of Oahu during the actual quarantine period.

You do not have to be present when your pet arrives if your pet will be entering quarantine. However, only the name(s) appearing on the Shipmaster’s Declaration or notarized “Dog & Cat Import Form” AQS 278, will be recognized as legal owners of your pet for the purposes of quarantine. Label your pet's airline crate with the full names of owners and co-owners. Include complete local addresses and phone numbers to be used in case of emergency.
PET ADMISSIONS TO THE STATE ANIMAL QUARANTINE STATION

Pets move to Hawaii year round. The State Animal Quarantine Station facility located in Aiea on Oahu, is operated seven days a week, 365 days a year. About 1000 dogs and cats are admitted to the quarantine station each year.

Arrival Examination

Upon entry at the Animal Quarantine Station (AQS), all dogs and cats are given examinations to evaluate their general condition and are tested for internal parasites. If any conditions are noted that require care, you will be notified.

For out-of-state or neighbor island owners, notification of medical problems may be made by telephone and treatment arrangements will be discussed. It is important that we have a current telephone number.

If you have made prior arrangements with an approved veterinary hospital or satellite quarantine station to quarantine your pet, verify with that facility when your pet will be shipped.

For owners residing on Oahu, a red tag will be placed on your pet's kennel asking that you visit the veterinary dispensary to discuss any medical concerns and arrange for follow-up care.

For more urgent matters, the veterinary staff will contact owners by telephone.

During the first week after arrival, the veterinary and caretaker staff will be monitoring your pet closely. During this time, you may bathe and groom your pet only in the kennel. When parasite evaluations are completed and there is no indication of any infectious or contagious disease (usually 10 days), you will have access to a grooming station by appointment (as described later in this brochure.)

Airline Animal Crates

The airline crate that your dog arrives in will be placed outside of its kennel. Please remove it as soon as possible. Dog carriers are allowed to remain in the kennel upon owner's request or if station veterinarians deem it necessary for your dog's well being. **We are not responsible for any crates left at the Station.** When you remove the crate, you must stop at the AQS Business Window to sign it out.

Airline crates for cats are kept inside your cat's kennel. We ask that you leave it for use when we periodically disinfect the kennel. Many owners use their crate as sleeping quarters for their cat. For neighbor island pet owners, our Station will store your airline crate at no additional cost until quarantine is completed.

Kennel Accommodations

- Dogs are assigned to kennels according to their size. Kennels are approximately six feet wide and vary in length from 14 feet (small dogs) to 25 feet (large dogs), and are seven feet high. Each has a run in front and a completely sheltered area in the rear. Very small dogs and puppies may be housed in a kennel similar in size to cat kennels.
- Cat kennels are approximately five feet wide, ten feet long and include platforms, a completely sheltered area and a catwalk.
- Dog and cat kennels contain platforms that may be used for bedding materials. Owners should change and wash bedding regularly. Each dog and cat kennel contains a bench for owner seating.
- Only one animal is allowed in each kennel. Multiple pets in a kennel do not allow for accurate caretaker evaluation of appetite, bowel movement and urination, which may lead to, delayed recognition of medical problems. **Only animals under complete care can be permanently housed together (see Complete Care and Multiple Pet Visitation section).**
• **Pets may not be exercised outside of their assigned kennels.** Kennels are large enough to afford dogs the opportunity for adequate exercise. In addition, dogs outside of their kennels present a potential safety hazard to other dogs, visitors and employees.

The State assumes no responsibility for any items such as transport carriers, bedding, collars, toys, leashes, etc. Owners are requested to remove such articles from the Station on their first visit. Items that are difficult to disinfect or that create a safety hazard for employees, such as wet bedding, rubber floor mats with grooves or holes, foam mats, large platform beds, chaise lounges and chairs, etc. may be removed from kennels by quarantine station personnel.

**CARE OF YOUR PET**

If you have any questions or concerns about station procedures or your pet, check with caretakers in your area, the veterinary staff or operations supervisor. If you have any problems, please notify AQS staff or fill out an AQS-12 Form at the business counter.

**Owners and Co-Owners**

Co-owners must be listed on the Dog & Cat Import Form (AQS-278). Listed owners (from Shipmaster's Declaration) and designated co-owners are responsible for shipping, fee payment, health care, and removal of pets at the end of the quarantine.

- Co-owners have the same responsibilities and duties as owners and can act in the owner’s behalf.
- Registered visitors do not have the authority to act on behalf of the owner.

**Animal Medical Care**

You are responsible for your pet's health care while in quarantine. When visiting, it is helpful to check for ticks (dogs), skin or ear problems, or any other abnormality that may indicate a potential medical concern. In addition animal caretakers will alert the veterinary staff directly of any health problems. The veterinary dispensary has two veterinarians and two veterinary technicians and is designed and equipped to manage minor medical problems.

**If you believe a problem exists, submit a written request for a veterinary check by station veterinarians:** form AQS-12 available at the Business Window.

- Provide all owner and pet information and describe the condition you wish checked as clearly as possible (use form AQS-12 available at the AQS Business Window).
- For minor problems, treatment may be initiated following examination unless you specify otherwise.
- Examination request are attended to the following morning (except in emergencies). Results of the exam and associated charges, if any, can be obtained by visiting the dispensary during afternoon visiting hours or by telephoning the dispensary after 1:00 p.m. at (808) 483-7154.

**Approved Veterinary Hospital**

Owners must select, contact and register with a state-approved private veterinary facility (refer to List of Approved Veterinary Hospitals). Animals not registered may be refused medical evaluation and treatment by private veterinary facilities or required care may be delayed. Most private hospitals require a refundable or a partially refundable deposit prior to accepting an animal for evaluation. You may want to contact several hospitals to obtain deposit and price information.
If your pet requires evaluation at a private veterinary facility or becomes seriously ill, quarantine station veterinary staff will contact you as soon as possible. Depending on the circumstances, your pet may be sent to a private hospital at the discretion of the station veterinarian if we are unable to contact you in a timely manner. **Pet owners and co-owners are responsible for transportation fees and all charges accrued at private veterinary facilities.**

You may arrange to send your pet to a private hospital for examination at any time. You are responsible for making arrangements with the hospital. This is best accomplished by notifying the hospital you have registered with that you wish to have your pet evaluated. Your hospital will call the station to request transport. Delivery by state personnel will be the next day except in emergencies.

Animals will remain at the hospital overnight and are returned to quarantine following notification of station personnel by your private veterinarian.

If you change hospitals, notify animal quarantine so our records can be updated.

All pets going to a private veterinary hospital or a satellite quarantine facility must have an electronic microchip for identification.

**Please notify staff at the AQS Business Window immediately about changes in your home or work telephone numbers and addresses.** We know that you want to be reached quickly in case of an emergency or if there is a concern about your pet.

**Medication**

Quarantine does not provide routine vaccinations. You may have your vaccination prescription filled by a private veterinarian. We will administer vaccines, at a nominal charge, when vaccines are delivered by the owner along with a written request.

Questions regarding pet medications can be directed to the veterinary staff. In general, non-prescription medications such as vitamins; nutritional supplements, etc. are not administered by station employees.

If you provide medication for your pet, it must be in a plastic bottle. Pills must be sized to the proper dosage. Please label medication containers with your last name, pet's entry and kennel number. Feeding instructions, changes in feeding instructions, food, medications and medication instructions must be submitted on the appropriate form available from the AQS Business Window.

**Please notify the veterinary staff if you administer any medications to your pet.**

**Protect Your Pet from Heartworm**

Heartworm disease is widespread and an important health concern for dogs in Hawaii. Dog owners are strongly encouraged to test their pet prior to entry and administer preventive medication while the animal resides in Hawaii. We recommend that owners administer monthly heartworm medication themselves.

For pet owners who reside outside Hawaii or on a neighbor island, station staff will administer heartworm medication after receipt of an adequate supply. Caretakers will administer heartworm preventive the first day of the month for simplicity.

**Tick Control**

During the spring and summer months the number of brown dog ticks increases statewide. Tick control products are recommended for dogs during quarantine. Recommended products: 1. Preventic collar (contains Amitraz) for use on dogs over 3 months of age. Insure that the dog cannot remove the collar and chew on it; 2. Frontline Spray or Frontline Topspot (contains Fipronil); and 3. K-9 Advantix topical for dogs applied as directed by the manufacturer. Frontline Spray is used on small dogs over 8 weeks of age. Topspot can be used for larger
dogs over 10 weeks of age. These products can be purchased at most veterinary clinics. Cats are not a natural host of the brown dog tick and do not need tick control products.

Feeding Your Pet

Your pet will be fed a nutritionally complete and balanced commercial dog or cat food formulated for adults. Food consumption is closely monitored and dogs and cats are weighed at least once a month to determine if food intake is optimal.

If your pet will not eat quarantine-provided food or requires a special diet, you are required to supply the food and feeding instructions. Owners should provide puppy or kitten food for young animals. No adjustment of quarantine fees will be made for those supplying special food to their animals. Food containers must be individually labeled with your last name and kennel number in black, indelible ink.

If you are supplying dry food, it must be submitted in a secure vermin-proof, heavy plastic or metal container, with a tightly fitting cover, and be large enough to hold the entire amount of food supplied.

A staff veterinarian or caretaker will notify you if your pet has problems with the diet.

Complete Care

Owners or designated co-owners may accept the responsibility for feeding, cleaning, health monitoring, medicating and grooming their pets during quarantine. **Persons doing complete care must attend to their pet’s needs daily, seven days a week.** Removal of waste must be done both in the morning and afternoon. Feeding must be done in the morning and may also be done in the afternoon if desired.

Complete care requires a major commitment. Please make sure that you are able to fulfill your obligations before assuming all care for your pet. A list of complete care requirements is available on request. Only animals of the same species, and in complete care, can be permanently kenneled together. Failure to comply with obligations may result in revocation of complete care privileges.

Grooming

Owners are responsible for grooming their own pets. Please make your grooming appointments early since grooming station space is limited. **Appointments must be scheduled at least one day in advance.** Please call 483-7151 before 9:00 a.m. or after 11:00 a.m. You may schedule two grooming appointments per week, per pet, at 30 minutes per appointment.

- See page 3 for grooming hours.
- Grooming stations have tubs, warm water, electrical outlets and a holding cage.
- Owners may walk their dogs, by leash with a properly fitting collar, to the nearest grooming station. Dogs must be under control and walked by the shortest route.
- Dogs may be bathed within kennels at any time during afternoon visiting hours. Cat grooming, including bathing, is done in the kennel or cattery. Cats must not be removed from their assigned kennel or cattery. If you wish to bathe your cat, please bring your own
- supplies, including a bucket. Most catteries are equipped with a water heater and tub for bathing cats. Check with your caretaker about proper procedures for use.

Owners and groomers are responsible for the proper handling of pets during the grooming period and when walking to and from the grooming station. Physical contact between animals is not permitted. In addition, owners are expected to maintain the grooming station in a tidy condition. Pick up all of the fur after grooming your animal. Revocation of grooming privileges may result if animals are not handled in accordance with station rules or tubs are left dirty.
If you are unable to visit and groom your pet, please arrange for a groomer to provide grooming services. Check with the Business Window for more information.

**Visiting Your Pet**

Visiting hours are listed on page 3. To register others to visit your pet: 1. Inform staff at the Business Window in person; 2. Provide a notarized Pet Owner’s Statement (AQS-2), or 3. Provide a notarized letter to the quarantine station, listing individuals that may visit your pet.

- No one, including groomers, will be allowed to visit your pet unless they are properly registered.
- Authorized visitors must be 18 years or older. Minors are allowed to visit while accompanied by an owner or authorized visitor.
- **Please be prepared to present AQS-issued visitor pass and valid photo identification** (State driver’s license, state or military ID or passport) **each time you visit our facility**. Only authorized individuals may enter the quarantine station and gain access to your pet.
- All visits are strictly in kennel - walking or removing your pet from the kennel is prohibited.

**Multiple Pet Visitation (MPV)**

During regular afternoon visiting, an owner may be authorized to move their pets to the same kennel. To participate in MPV, owners must attend a MPV orientation session or discuss the MPV requirements with the Quarantine Station Operations Supervisor. The **MPV Visitation Request Form** is then submitted to the veterinary staff for approval. A pass will be issued if requirements are met.

Please check with the Business Window about the requirements and procedures for Multiple Pet Visitation. MPV is coordinated through the Quarantine Station Operations Supervisor. Summary of the policy allowing for MPV is as follows:

1. Animals must be of the same species, owned by the same owner/family and have the same date of entry into quarantine.
2. Pets should be compatible and free of contagious diseases and, for mixed sexes; one or more must be spayed or neutered.
3. MPV is only during regular visiting hours and ends when the owner leaves the kennel.
4. All pet owners must abide by the rules concerning MPV or privileges will be terminated for the remainder of the quarantine period.

**VOLUNTEERS**

The volunteer program is a group of people, dedicated to positively enhancing the quarantine experience for both owners and their pets through information, communication and emotional support.

The program has contact with a pool of volunteers who have expressed a willingness to visit dogs or cats, other than their own, during the quarantine period. For more information on the program or on becoming a volunteer, please inquire at the Business Window when you arrive.

**SUMMARY OF STATION RULES**

The following is a partial list of rules that owners and visitors are expected to comply with while on the quarantine station grounds. Caretakers and management personnel will notify owners and visitors when they observe violation of station rules. Each owner and visitor shall abide by all station rules and policies.
1. Any person who fails to present acceptable picture identification upon request may be denied admission.
2. While on the premises, please go directly to your kennels to avoid disturbing other pets.
3. **For the health and safety of all persons and animals, all kennel doors must be properly latched and doors completely closed in order to prevent escapes and injuries.**
4. Please do not feed, handle or visit the pets of others unless you have received permission from the owner and this authorization is recorded at the Business Window.
5. Walking or removing dogs from kennels is prohibited, except taking shortest distance to and from grooming station for grooming appointments and with written permission from the station veterinarian.
6. Do not leave dogs tied to the outside of the kennel.
7. Cats may not be removed from kennels for any reason. The walkway in the catteries may not be used as an exercise area.
8. Minors may be admitted to the station only in the company of an authorized adult who shall be responsible for the minor's behavior and safety. Please restrict children from running, playing, behaving boisterously or putting fingers through the wire mesh of kennels.
9. Skateboards, skates of any type, bicycles, etc. are not allowed on the station grounds.
10. The quarantine station is a family-type environment. Please wear appropriate clothing while on the station grounds.
11. No other animals are allowed on the quarantine station premise.
12. Consumption of alcoholic beverages is not allowed on state property, including station grounds.
13. **Parking for visitors is located under the H-3 viaduct in the lower parking lot area. No parking is permitted on roads, driveways or other areas. Vehicles parked in inappropriate areas may be cited or towed without notice.**
14. Any person parking in a space designated as a disabled person parking space shall prominently display a disabled persons parking placard on the dashboard or visor, so that it is visible through the front windshield.

The Animal Quarantine Manager may deny admission to the state quarantine station to any person who violates chapter 4-29, Hawaii Administrative Rules, or chapter 142, Hawaii Revised Statutes, or who disrupts or impedes the activities of the department's employees or the animal owners, visitors, or groomers; or who behaves in any manner detrimental to the operation of the station or to the animals confined there.

**FINANCIAL INFORMATION - Fee payment deadlines and policies**

*Fees are due on entry and subject to change without notice*

- **Microchip:** $27 (Only Foreign requests are accepted)

**Fee for Direct Release and Quarantine Programs (due prior to release of your pet)**

</tbody>
</table>

**Fees are not adjustable.** There is no discount for owners providing their own food or doing complete care. Animals to be kenneled at private veterinary hospitals or private quarantine facilities are not subject to a daily boarding fee after transport.
Re-Entry Fee Requirements: To qualify for the reduced “Re-entry” fee of $78 for Direct Airport Release or $110 for 5-day or-less quarantine, a pet must meet the following criteria:

- Qualified for, and been directly released from, the Honolulu International Airport on a previous arrival within the 36 month period that the most recent OIE-FAVN blood test and rabies vaccination used for the previous entry are still valid OR;

  Qualified for and completed 5-day-or less quarantine and was released on the scheduled release date; Then left the State and returned within the 36 month period that the most recent OIE-FAVN blood test and rabies vaccination used for the previous entry are still valid.

- The Animal Quarantine Station has received all pertinent rabies vaccination certificates, and forms, notarized AQS-278 Dog & Cat Import Form and blood test results used to qualify the pet for the previous entry.

- **ALL** of the requirements on the checklist for the 5-day-or-less/direct airport release are completed for each entry into Hawaii and the animal qualifies for 5-day-or-less/direct airport release.

- The Animal Quarantine Station has received the required documents and written notification of for the planned subsequent “re-entry” into Hawaii.

Other Fees (due prior to the release of your pet)

- The veterinary dispensary or quarantine staff may charge additional fees for the following:
  - Microchip: $18 (includes implantation, for pets arriving without a microchip and leaving the quarantine station for any reason)
  - Bathing: $14 for each bath as prescribed by station veterinarian
  - Grooming: $18 for each grooming session as prescribed by station veterinarian
  - Vaccination: $6 for administration of each vaccination
    $5 for each vaccine not provided by owner
  - Daily insulin injections: $1 per day (for diabetic pets only)
  - Dipping, spraying, dusting, or sponging to control external parasites: $12 for each treatment
  - Worming: $12 for each worming treatment
    $20 for each three-day treatment
  - Giardia: $10 for each course of treatment
  - Health Certificate issued by quarantine station veterinarians: $25
  - General veterinary services: $40 per hour, $10 minimum charge
  - Fecal testing for intestinal parasites: $8 (at owner’s request)
  - Heartworm testing: $8 (at owner’s request)
  - Ground transportation for quarantined pets between approved hospital on Oahu and station: $4 (round trip)
  - Other approved ground transportation for quarantined pets (i.e. transportation to harbor): $20 (one way)
  - Duplication of receipts: $4
  - Copies of records: 25 cents per page copied
  - Each offspring born to pets at the Animal Quarantine Station: adult daily rate
  - A service fee of $15.00 will be assessed for any check, draft, certificate of deposit, or other negotiable instrument that is dishonored for any reason.
  - There is an additional $17.80 per day penalty for pets left in the Quarantine Station beyond their scheduled release date or for pets that arrive pregnant, past 45 days gestation.

Fees are payable by cash, check, credit card (VISA or Mastercard), money order, bank draft or traveler’s check. Release of your pet may be delayed if fees are not paid in full. Personal checks are not accepted within 30 days of the scheduled release date of your pet.
Refunds

Fee refunds for any remaining balance will be made only to the owners of animals that:

- are exported prior to completion of the quarantine period
- are housed at a satellite facility (if available)
- are hospitalized during the quarantine period for three days or more
- die during quarantine (for the remaining balance)
- make any type of overpayment

Refunds are not processed until the official release date. Thereafter, refund checks will be issued in six to eight weeks. It is important that we have a current address. Refunds of $15.00 or less will not be processed except after written request to the Animal Quarantine Manager within one (1) year of the animal’s release date.

Please note:
- Pets may not be boarded at the Quarantine Station beyond the quarantine period. If boarding is required, please contact a private boarding facility or veterinary hospital.
- Owners who abandon their pets in quarantine are still liable for all fees and charges accrued.

PET RELEASE

Pets will be released after quarantine to owners, co-owners or properly designated representatives, such as intermediate handlers. A picture identification is required, and all fees must be paid before release. Please make arrangements to check your pet out of quarantine and for shipment to a neighbor island, if required.

- Bring a picture identification. Be sure to bring a suitable transport crate or leash for your pet on its release date.
- Persons to whom we may release your pet must be registered prior to the date of release.

SATELLITE (PRIVATELY-OPERATED) QUARANTINE STATIONS

There are privately owned & operated quarantine facilities on the islands of Hawaii and Kauai.

- Bar-King Dog Kennel (BDK), P.O. Box 1184, Keaau, HI 96749, phone (808) 966-8733
- Kauai Humane Society (KHS), P.O. Box 3330, Lihue, HI 96766, phone (808) 632-0610

If you wish to quarantine your pet at this facility, you must make prior arrangements with BDK or KHS. Your pet must first come to the State Animal Quarantine Station on Oahu for positive identification and examination. State fees must be paid in full before animals are transported to private facilities. The approximate fees due the State are the following (private satellite facilities have their own fee structures – contact the facility directly):

- 5-day-or-less quarantine, $224
- 120-day quarantine, approximately $136 (more if pet stays more than 2 days at the Station)

Your animal will not be transported until the AQS has received the above payment and required original health documents either in person or by mail. Payment by mail must be in the form of a cashier’s check or a money order.
