1. United States Fleet Forces Command (USFF) N1 is the Executive Agent for Individual Augmentees (IA) and as the first GO/FO/SES in the IA program chain of command is authorized to grant extensions of TDY entitlements in accordance with references (a) and (b). Reserve Component (RC) existing orders (dated prior to 8 July 2013) in support of contingency operations are authorized as follows.

a. For less than 5 years continuously by end of current orders (not necessarily in one geographic location): RC IAs who receive full TDY entitlements are authorized per USFF N1 to complete their existing orders up to 30 September 2014.

b. For 5 or more years by end of current orders (not necessarily in one geographic location): RC IAs who would receive full TDY entitlements shall be authorized on a case-by-case basis. Authorization request shall include appropriate justification and be routed through the appropriate chain-of-command to USFF N1 for final decision.

c. The RC IA whose continuation on existing orders would result in 6 years or more on continuous active duty (with not more than 30 day break), irrespective of TDY entitlements, shall forward requests for the continuation of the existing orders to USFF, via the chain-of-command, for approval on a case-by-case basis.

d. Any FY13 and FY14 extensions of orders after 8 July 2013, are required to be treated as new orders in accordance with reference (f) (Authorization for TDY Entitlements for Reserve Component Individual Augmentee Orders at one geographic location for greater than 180 Days).
