

Sudha Vyas
Director, Technical Directorate (TD)
San Diego, California

Sudha Vyas assumed the role of Technical Director, Joint Tactical Networking Center (JTNC) in March 2013. In this position, Ms. Vyas leads and manages the development of Software Defined Radio (SDR) standards, Small Business Innovative Research (SBIR) program, technology insertion, and SDR certification and compliance assessments. She also serves as Technology Protection Officer.

Prior to her current assignment, Ms. Vyas served in various technical positions within the Joint Program Executive Office (JPEO) for the Joint Tactical Radio System (JTRS) and as the Assistant Executive Director of Enterprise Issue Resolution and Information Assurance Manager for the Network Enterprise Domain (NED) JTRS.

Before serving with the Department of the Navy, Ms. Vyas served in various technical and leadership positions within industry. While at Signals Solutions, Inc., she was Lead Analyst for Commander Operational Test and Evaluation Force responsible for planning, coordinating, and directing U.S. Pacific Command and U.S. Forces Korea in joint and coalition information assurance and interoperability exercises. While working for Raytheon Network Centric Systems she led the information technology managed services for the Transportation Security Agency's (TSA) security team in implementing an incident response team and reporting and notification process and Access Control Lead for the Federal Deposit Insurance Corporation (FDIC).

Additionally, Ms. Vyas served as Security Operations Center (SOC) manager providing strategic vision and leadership for the revolutionary \$6.8B Navy/Marine Corps Intranet (NMCI) program designed to consolidate all Naval network and information assurance operations management at three central network operations facilities.

Ms. Vyas was born in Rockville, Maryland. She holds a Bachelor of Science in Mechanical Engineering from the Catholic University of America and holds her Defense Acquisition Workforce Improvement Act (DAWIA) Program Management Level III certification.
