

Program Executive Office for Enterprise Information Systems (PEO-EIS)

Stood up in the spring of 2006, the Department of Navy (DoN) PEO-EIS oversees a portfolio of enterprise-wide information technology programs designed to enable common business processes and provide standard information technology capabilities to Sailors at sea, Marines in the field and their support systems. The PEO ensures that these programs maximize value to the warfighter by balancing cost with the capability delivered to the end user.

KEY FUNCTIONS OF PEO-EIS

- Delivering standard interoperable warfighter and Business Enterprise IT systems.
- Building collaborative relationships between operators, advocates and the acquisition community.
- Developing partnerships with key stakeholders that enable the delivery of capabilities within the Naval Enterprise.
- Providing life-cycle assistance, including acquisition expertise and technical guidance, to programs that deliver capabilities to the Naval Enterprise.

PEO-EIS PROGRAMS

- **(PMW 200) Navy Marine Corps Intranet (NMCI); BLII/ONE-NET** Provides secure, seamless and global computer connectivity for the DON.
- **(PMW 210) Next Generation Enterprise Network (NGEN)** Serves as the program office for the planned follow on to NMCI.
- **(PMW 220) Navy Enterprise Resource Planning (ERP)** Provides an integrated set of management tools that facilitate business process reengineering and interoperable data.
- **(PMW 230) Global Combat Support Systems-Marine Corps (GCSS-MC)** Modernizes the logistics systems of the Marine Corps.
- **(PMW 240) Sea Warrior Program** Fields integrated and improved IT solutions across the enterprise that will enable the Navy's active duty enlisted and Reserve force to direct their own professional development while supporting Fleet readiness assessment.
- **(PMW 270) Enterprise IT Services** Streamlines the acquisition and management of Enterprise IT solutions and services and to align the development, acquisition and deployment of enterprise IT solutions and capabilities to span across the USN's enterprise networks, systems, and Programs of Record.
