

LATERAL TRANSFER AND REDESIGNATION BOARD REQUIREMENTS

1. Officer choice. Officers who desire consideration for Lateral Transfer into more than one designator and are qualified for Lateral Transfer and Redesignation in those designators will first receive consideration from the community of their first choice. If not selected by that community, they may be considered by the second and third choices and/or other communities.

2. Selection order. Year Group Priority (YGP) selection order is promulgated to assist the promotion of community health within identified Year Group Bands (YGB). Due to a shortage of outgoing inventory (from the officers' current communities) within the specified YGB, a YGP was generated to assist the communities in most need of personnel within that YGB. YGP (Table A) was set based on communities with the lowest percent of inventory per programmed community requirements overall, by rank, Year Group (YG) and accession sources.

The option to choose no more than 50% of the available out quotas for the same YGB, provided each gaining community will be afforded at least one opportunity to select from the limited out quota pool, will be provided to the communities identified in respective order. Each priority community, starting with the first priority community listed (Table A), will choose one officer in rotation until the maximum priority quota has been consumed (or the priority communities have passed on selecting their share). At that time the selection process will open up to the remaining communities.

If there are out quotas remaining after each community makes their initial selection, the same order will be used for the second round, starting with the first community listed.

At the end of each YGB selection process, unused quotas may be offered to other communities. These quotas may be moved as needed to other communities with the permission of the OCM for the community accepting the quota. These quotas shall be in addition to the "in" quota limitations listed in the Table C, and priority consideration given per Table A.

Table C contains a list of the requested designators and openings for lateral transfers into their respective communities. The board shall not exceed the authorized quotas and there is no requirement to fill all quotas. Board members should select on the best qualified officers within the constraints listed in Table C.

Table A. Year Group Priority (In bold below)

Note 1. All priority communities will be afforded the opportunity to make at least one selection, even if the 50% threshold is surpassed. If the YGB does not contain enough officers/quotas to support this, then the communities will select based on availability.

Note 2. Upon reaching the threshold, the next selection will be the first non-priority community.

Note 3. The number after the community shows the maximum number of priority picks for that YGB.

Year Groups 2016-2018 Quotas Out 11 Priority allocation = 4		Year Groups 2012-2015 Quotas Out 92 Priority allocation = 27	
Community	Community	Community	Community

Table B below is a list of the number of out quota limitations by YG authorized for transfer out of the listed designator (Community).

**TABLE B- Active Component (AC) OCM YG Limitations Matrix-
Maximum number of quotas allowed for transfer "OUT" of each community**

All applications received are reviewed by the applicable Officer Community Manager (OCM) before being considered by the redesignation board. The AC OCM restrictions listed below apply to USN Officers or USNR officers on the active duty list. Each YG restriction has been vetted through each AC OCM. These numbers represent the maximum out quota from AC communities (or lower number of applications received) by YG, not a quota to be redesignated .

13XX(AVN) / 151X(AEDO) . The board may select up to two 13XXs from USN Test Pilot Schools (TPS) class 151 and 152 to AEDO without T/M/S/D/and YG restrictions (two 13XXs total NOT two per class)

COMMUNITIES	YEAR GROUPS																			98 and Senior

Table C below is a list of the number of in quota limitations authorized for transfer into the listed designator (Community).

TABLE C-Active Component (AC) OCM Matrix-
Maximum number of quotas allowed for transfer "IN" to each
community

All applicants received are reviewed by the applicable Officer Community Manager (OCM) before being considered by the Redesignation Board. The AC OCM restrictions listed below apply only to USN officers or USNR officers on the active duty list. These numbers represent the maximum in quotas to AC communities, as approved by Director, Personnel Plans and Policy.
