From: Secretary of the Navy
To: Presidents, FY-20 Navy Reserve Rear Admiral Line and Staff Corps Promotion Selection Boards

Subj: ORDER CONVENING THE FY-20 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE AND STAFF CORPS ON THE RESERVE ACTIVE-STATUS LIST OF THE NAVY FOR PERMANENT PROMOTION TO THE GRADE OF REAR ADMIRAL

Ref: (a) FY-20 Active-Duty and Reserve Navy Flag Officer Promotion Selection Board Precept

Encl: (1) Board Membership
(2) Board Recorders and Administrative Support

1. Date and Location

   a. The promotion selection boards, consisting of you as presidents and the officers listed in enclosure (1) as members, and the personnel listed in enclosure (2) as recorders and administrative support staff, are ordered to convene at the Navy Personnel Command, Millington, TN, at 0800, Thursday, October 11, 2018, or as soon as practicable thereafter.

   b. The boards shall proceed in accordance with all guidance in this letter and the FY-20 Active-Duty and Reserve Navy Flag Officer Promotion Selection Board Precept, reference (a).

2. Promotion Board Authorized Selections. The zones for selection to flag have been set forth in the FY-20 Navy Reserve Flag Officer Promotion Plan. The boards may recommend up to the number I have provided below.

Subj: ORDER CONVENING THE FY-20 PROMOTION SELECTION BOARDS TO
CONSIDER OFFICERS IN THE LINE AND STAFF CORPS ON THE
RESERVE ACTIVE-STATUS LIST OF THE NAVY FOR PROMOTION TO
THE PERMANENT GRADE OF REAR ADMIRAL

3. **Best and Fully Qualified Selection Standard**

   a. **Fully Qualified.** All officers recommended for promotion
   must be fully qualified; that is, each officer recommended must
   be capable of performing the duties of the next higher pay
   grade. Officers that do not meet this standard shall not be
   recommended for promotion.

   (1) Officers fully qualified for promotion demonstrate
   an appropriate level of leadership, professional skills,
   integrity, management acumen, grounding in business practices,
   and resourcefulness in difficult and challenging assignments.
   Their personal and professional attributes include adaptability,
   intelligent risk-taking, critical thinking, innovation,
   adherence to Navy and DoD ethical standards, physical fitness,
   and loyalty to the Navy Core Values.

   (2) The Navy is composed of men and women representing
   dozens of different ethnic groups and hundreds of cultural
   heritages. Fully qualified officers must have shown the ability
   to successfully lead and mentor a diverse workforce, while
   executing the Navy's strategic diversity initiatives and
   effectively retaining the right quality and quantity of
   performance-proven personnel.

   b. **Best Qualified.** Among the fully qualified officers, you
   must recommend for promotion the best qualified officers within
   their respective competitive category. The following core
   considerations should guide your recommendations. Members
   assigned to brief individual records are expected to use these
   considerations to guide the review and structure of their
   briefs. Each board member is expected to apply this guidance
   when deliberating and voting. Considerations are:

   (1) **Proven and Sustained Performance**

      (a) You are statutorily required to pick the best
      qualified officers. Proven and sustained superior performance
      in command and leadership positions in difficult and challenging
      assignments is the ultimate test of fitness for promotion. This
      is the number one factor that should guide your recommendations.

      (b) When applying this factor, you must consider
      that the future Navy and joint force leadership will be
      comprised of a mix of officers that have excelled in both
      traditional career paths and alternate career paths. You must
      consider the critical competency/skill sets developed by
Subj: ORDER CONVENING THE FY-20 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE AND STAFF CORPS ON THE RESERVE ACTIVE-STATUS LIST OF THE NAVY FOR PROMOTION TO THE PERMANENT GRADE OF REAR ADMIRAL

officers who have excelled in alternate career paths. Further, these boards are chartered to select the future leadership of the Navy. Superior leadership skills may be developed in a variety of assignments, and may be found across the Navy from various communities, platforms, and career paths. There are no expectations that flag officers must be selected from only certain communities or platform assignments. Your challenge is to look broadly across the Navy without regard to community, platform, or career path to select the best qualified officers to serve as the future leaders of the Navy.

(c) Our dynamic Navy requires equal consideration to those who have served in non-traditional, combat-related, nation-building roles. Successful performance and leadership in combat conditions demonstrate exceptional promotion potential and should be given special consideration.

(d) You should also consider for promotion those men and women possessing the education, experience, and language skills that help improve the Navy's gender and cultural awareness and those who demonstrate mentoring skills that enhance the professional development of the Navy's future male and female leaders and the wide and varied diversity of the Navy.

(e) A critical goal of the Navy is to encourage -- to demand -- innovation and efficiency to ensure that we retain an adaptive, flexible, and effective naval force able to anticipate events and win across the spectrum of conflict. In your consideration, recognize that the continued preeminence of the Navy in the future is inextricably linked to its ability to successfully change and to manage for efficiency. Our future depends on male and female leaders who have demonstrated their awareness of this fact. Within the charter of best and fully qualified, seek to select these officers.

1. In this age of limited resources and fiscal constraints, application of energy resource management and technology is of vital importance. Our institution must create energy solutions that make facilities and installations more energy efficient and encourage superior management of energy resources.
2. Likewise, we must not restrict or limit the opportunity of any Navy officer to think creatively, develop new ideas, take prudent risks, and maximize capabilities through sound management practices. Bear in mind that, in the context of a changing Navy, officers demonstrating innovative thinking, efficient management skills, prudent risk taking, and effective business practices, may reflect a variety of backgrounds.

(2) **Education / Personal and Professional Development**

(a) The Navy's ability to support future operational requirements depends on a well-educated and trained officer workforce. The Navy needs officers who have helped create a culture of continuous learning demonstrated by their professional development through education and training. You shall favorably consider professional military education (PME), leadership development, and experience in specialized areas. The PME Continuum integrates four components of education: Advanced Education, Navy-Specific Professional Military Education (NPME), Joint Professional Military Education (JPME), and Leadership Development. Best and fully qualified candidates seek opportunities to improve performance by increasing their knowledge throughout their careers.

(b) Applying advanced education and achieving specialized skills as reflected in Additional Qualification Designator (AQD) codes and Navy Officer Billet Classifications (NOBCs) are significant career milestones.

(3) **Direct Support of Overseas Contingency Operations (OCO) / Irregular Warfare.** The boards should give favorable consideration to those officers who, while serving leadership assignments in the grade of O-5 or above, have displayed superior performance in direct support of OCO or in Irregular Warfare assignments, in particular those assignments that are extraordinarily arduous or which involve significantly heightened personal risk. These individuals are developing valuable combat and nation-building skills under stressful conditions. Such assignments may not be typical of the officer's traditional community career path and the officer may be rated by a reporting senior unfamiliar with the officer's specialty and the Navy fitness report system.
4. **Unrestricted Line (URL) Competency and Skill Guidelines.**
Per section 14107(b)(4) of title, 10 U.S. Code, the URL promotion selection board shall apply the following guidelines relating to the Navy's need to fill FY-20 critical vacancies with specified numbers of URL rear admirals who possess the competencies and skills outlined in Table 1. In most cases, critical vacancies are identified by officer designators, which themselves reflect the particular competencies and skills possessed by officers in the respective communities. You shall apply these guidelines in conjunction with the best and fully qualified selection standard, and in no case shall the Navy's need for specified numbers of officers to fill the vacancies be interpreted as a quota. As such, when determining those URL officers who are best and fully qualified for promotion, the URL board should give strong consideration to those officers who possess the competencies and skills necessary to fill the FY-20 critical vacancies, as outlined in Table 1.

**TABLE 1**

**GUIDELINES RELATING TO NAVY'S NEED FOR URL REAR ADMIRALS WITH PARTICULAR COMPETENCIES AND SKILLS**

<tr>
<td>11X5/13X5</td>
<td>2</td>
<td>Vacancies in URL billets require proven performance while assigned to significant leadership position(s) in support of a Navy or Joint command(s).</td>
</tr>
</tbody>
</table>
5. **Information Warfare Community (IWC).** Among fully qualified officers, select the best qualified IWC officer with proven performance in command. The selected officer should have strong cross functional knowledge at the tactical and operational levels that affect and directly support Naval, Joint and/or Interagency Operations. Experience in a senior officer (05/06) mobilization in direct support of Overseas Contingency Operations is preferred. In-depth knowledge of Navy Reserve and Naval Information Force Reserve while serving in Major Command and Major Headquarters staff billets is highly valued. Proven performance in command and staff experience in a primary IWC designator with proven aptitude and experience in other IWC disciplines and/or other Warfare areas/domains is required. The selected officer should have in-depth knowledge of Naval and other service doctrine and operations with the ability to develop and integrate operational Information Warfare effects at the tactical and operational levels.

6. **Supply Corps**

   a. Future leaders of the Supply Corps should possess:

   (1) Broad experience in the Navy and Joint operational forces and the Global Logistics Networks (i.e. Naval Supply Systems Command, Defense Logistics Agency, U.S. Transportation Command, etc.) which support them.

   (2) Acknowledged leadership within one primary line of operation (supply chain management, acquisition, or operational logistics), and experience in one or more other primary and secondary lines of operation (business management, operations analysis, and comptrollership/financial management).

   (3) Exceptional community leadership skills with demonstrated integrity and success in command.

   b. The Supply Corps and Navy require that Flag Officers serve in a broad spectrum of assignments requiring expertise in diverse functional areas. Contracting, supply chain management, and operational logistics experience in direct support of deployed or fleet forces are particularly desirable. It is also important that joint experience be valued highly when selecting future Supply Corps Flag Officers.
Subj: ORDER CONVENING THE FY-20 PROMOTION SELECTION BOARDS TO CONSIDER OFFICERS IN THE LINE AND STAFF CORPS ON THE RESERVE ACTIVE-STATUS LIST OF THE NAVY FOR PROMOTION TO THE PERMANENT GRADE OF REAR ADMIRAL

7. **Civil Engineer Corps (CEC).** As the Navy's shore installation and expeditionary engineers, senior CEC officers should display sustained superior performance and leadership in the three CEC core competencies - Facilities Management and Acquisition; Seabees/Naval Construction Force Units; and fleet/COCOM/Joint support. The best qualified officers shall demonstrate successful leadership tours with proven ability to lead people and organizations in tough and challenging environments. CEC officers must demonstrate leadership experience in overseas contingencies, assigned to an operational unit or as an individual augmentee working in humanitarian assistance/disaster response, and/or theater security cooperation program operations. The Navy requires CEC leaders with exceptionally high professional engineering and business competence. Senior officers should be a Registered Professional Engineer (AQD: 951) or Registered Architect (AQD: 952). JPME, along with other technical/professional certifications and/or master's degrees, are highly valued. Reserve Component officers may not have the opportunity to complete the acquisition certifications expected of the active component, but those qualifications (AQD: AC3/2 and APM) are valued.
