Fix for CWAY display issues (use Internet Explorer only):

1. Click on the gear and select “Compatibility View Settings.”
2. Type “navy.mil” and click “Add.”

3. Click on the gear and select “Internet Options.”
4. Click on the “Advanced” tab and scroll to the bottom.
5. Check or uncheck to match these settings.
Click on the gear and select “Internet Options.”

Click on the “Privacy” tab.

Ensure the pop-up blocker box is unchecked.

Go back to the “General” tab and click on “Settings.”

The Website Data Settings box will pop up.

Click “View Files.”
When the folder opens, highlight and delete all items listed.

Close the folder and click “OK” to close the boxes.

Exit Internet Explorer and reopen.
