Professional Apprenticeship Career Track (PACT) Sailors – Path to Redesignation through MyNavy Assignment (MNA)

Background:
Professional Career Apprenticeship Track (PACT) Sailors are now being offered a clearer path to designation through MyNavy Assignment (MNA), announced in NAVADMIN 275/19. This initiative follows the same basic order negotiation process as rated Fleet Sailors. PACT Sailors will begin applying for billets 12-months prior to their projected rotation date (PRD) and remain eligible until they are selected for a billet or until their Soft End of Active Obligated Service (SEAOS).

Talking Points:
- PACT Sailors will now receive rating designating based upon the billet for which they are selected in MNA.
- MNA is a new and enhanced interface to the Detailing Marketplace that is replaced Career Management System – Interactive Detailing (CMS-ID) program.
- This improved PACT Sailor designation process allows the PACT Sailor to apply for their rating and duty station simultaneously. While a follow-on assignment at the current command of the PACT Sailor is considered optimal, billet vacancy will largely determine if the orders are to the current command, a new command, or Class “A” School, leading to a rating designation. Command involvement in this process is paramount.
- PACT Sailors will follow the same basic order negotiation process in MNA as rate Fleet Sailors. At 12 months prior to their PRD, a PACT Sailor will apply for their next set of orders which ties them to their new rating.
- This change aligns fully with Sailor 2025 initiatives by providing PACT Sailors a complete view of the Navy’s validated work requirements and their associated ratings. PACT Sailors are on the leading edge of the MyNavy HR commitment to modernize and enhance the detailing marketplace experience.
- Before PACT Sailors enter their order negotiation window, commands must perform the 6-month Career Development Board for those Sailors and report their career and PACT intentions in C-WAY.
- PACT Sailors will begin the rating designation process 12 months prior to their PRD and will apply via MNA for a maximum of three cycles. PACT Sailors who fail to select for a rate will have their PRD adjusted to match their SEAOS. PACT Sailors whose PRDs have been adjusted to SEAOS and desire to negotiate for a designation/requisition outside the normal negotiating window shall contact the PACT Enlisted Community Manager (ECM) at PACT_ADMIN.fct@navy.mil for negotiation.
• PACT Sailors should submit up to seven applications each MNA cycle, and Detailers will make job selections based on Sailor’s PRD, training availability to meet the job requirements, and the need of the Navy.

• PACT Sailors will obtain their rating when they execute the Obligated Service (OBLISERV) for their orders no earlier than 90 days from PRD, or, for those with lengthy Class “A” schools, once they have successfully completed training.

• Once selected for orders, Sailors must request to OBLISERV to meet the tour length requirements for the rating selected. However, that OBLISERV may be deferred in some cases for Sailors to be eligible for a Selective Reenlistment Bonus (SRB).

• Those Sailors who meet their OBLISERV requirements for the new rating, or incur a minimum of 24 months sea duty (whichever is greater), can be advanced to E4 with the approval of their Commanding Officer.

• PACT Sailors will receive sea duty credit for the time they have served at sea. Sailors who decline to apply for designation will have their PRD adjusted to their SEAOS, will remain in a PACT status for the duration of their enlistment, and will not be eligible for reenlistment.
