

**MN CAREER PATH
(SW)**

Minemen (MN). MNs are technicians that are responsible for filling the billets of 5 ratings onboard Mine Warfare Platforms and Operational Ordnance Maintenance and Assembly facilities throughout the world. Mineman serve on MCM class ships, HM squadrons, and LCS MIW mission modules. Mineman fill the billets of BM, GM, MN, OS and STG ratings onboard the MCM platform. The Mineman rating is a sea intensive rate in junior paygrades (E1 – E4) balancing in the mid-pay grades (E6 - E7), this balance in the mid-pay grades is to support leadership needed at operational MOMAU's throughout the world.

Notes:

1. "A" School required.
2. Tour at BUPERS 3 as an Enlisted Community Manager or Enlisted Community Manager Technical Adviser are for high-performing E8s or E9s. It is a highly competitive tour requiring thorough understanding of the Rating and manning and manpower policies. ECMs handle multiple Ratings affecting thousands of Sailors, adjudicate Career Waypoints applications, develop and present advancement quotas, school quotas, accession and strength policies and initiatives for community health.
3. Tours at Littoral Combat Ship (LCS) Mission Module Detachments require special screening and have longer-than-normal training pipelines. Due to the unique and very specific billets LCS Sailors fill, they are often limited by billet and unable to earn qualifications their counterparts in the MCM billets.
4. The MN rating comprises a broad spectrum of Mine Warfare commands and equipment. If a candidate's record contains multiple or consecutive tours in a particular geographic location, it should not be viewed negatively, provided the candidate has progressed in billet complexity, professional development, and leadership responsibility. Likewise, those candidates who have demonstrated the ability to succeed in challenging assignments in diverse geographic locations, particularly overseas, may be viewed positively. Due to limited manning onboard most MCM platforms, any out-of-rate qualifications should also be seen favorably.

Considerations for advancement from E6 to E7

1. LCS qualifications are driven by the billet assigned and may not be available due to billeting constraints. Ideal candidates should have completed a tour as a division or platoon LPO. Additional favorable qualifications include:

Considerations for advancement from E8 to E9

1. LCS qualifications are driven by the billet assigned and may not be available due to billeting constraints. Ideal candidates should have completed a tour as a department LCPO or platoon LCPO at sea, shore or staff assignments. MCM class ships and some LCS class ships have only two Senior Chiefs stationed onboard. Normally this will be the CMDCS and the MNCS. This should be given consideration while comparing candidates. Additional favorable qualifications include:

Sea Assignments by Type of Command (not in priority order):
