1. **Purpose.** To define responsibilities, eligibility requirements, and procedures for transfer of Selected Reserve (SELRES) members and Individual Ready Reserve (IRR)—Voluntary Training Unit (VTU) to the IRR-Active Status Pool (ASP), Standby Reserve-Active (USNR-S1), or Standby Reserve-Inactive (USNR-S2).

2. **Definition of IRR-ASP.** The Navy IRR-ASP is a force that consists of personnel fulfilling their military service obligation (MSO) under section 651 of reference (a), personnel fulfilling a service obligation incurred via contract, personnel who have fulfilled MSO and are approved for assignment to the IRR-ASP, and personnel participating in special programs and education programs leading to a commission.
3. **Definition of MSO.** Each person who entered initial military service on or after 1 June 1984 must serve a total period of 8 years from the date of enlistment, appointment, or, when authorized by law, induction. Any portion of the MSO that is not active duty (ACDU) or initial active duty for training (ADT) must be performed in the Reserve Component as defined in sections 10101, 10142, 10143, 10145, and 10146 of reference (a). This may be served in the IRR-ASP, USNR-S1, or USNR-S2.

4. **Definition of USNR-S1.** Members in the USNR-S1 are in an active status and are eligible to participate in a Navy Reserve program without pay for retirement point credit only. They may not receive pay, allowances, or travel allowances for any inactive duty training or ADT. They may be ordered to ACDU in time of war or national emergency if the Secretary of the Navy, with the approval of the Secretary of Defense, determines not enough qualified ready reservists are available in the categories required. Officers continue to be eligible for promotion consideration. Enlisted members in this category are not eligible for advancement unless they are drilling with a VTU and not subject to current high year tenure (HYT) gate restrictions for their pay grade. Members of the USNR-S1 are subject to mobilization per sections 12301, 12302, and 12306 of reference (a).

5. **Definition of USNR-S2.** Members of the USNR-S2 are in an inactive status. They may not participate for pay or retirement point credit. They may not be considered for advancement or promotion. If they have been selected for advancement or promotion, but have not been advanced or appointed to the higher rank or grade at the time of their transfer to the USNR-S2, their promotion or advancement will not take effect. Members of the USNR-S2 are subject to mobilization per sections 12301, 12302, and 12306 of reference (a).

EXHIBIT 3
Transfer from Selected Reserve (SELRES) Status Counseling

(Date): I have been counseled on, and understand, that transfer from a SELRES status will affect the following incentives and benefits:

Incentives/Bonus: RESPERSMAN 1100-010
Failure to complete the terms of the incentive obligation will result in termination of the bonus entitlement, unless the transfer is required due to a medical situation. Additionally, recoupment of the bonus, or a prorated amount, will be collected based on the type of bonus received and the amount of obligated service completed.

Montgomery GI Bill-Selected Reserve Eligibility: COMNAVRESFORINST 1780.1
SELRES transferring from a pay status are no longer eligible for MGIB-SR education benefits, unless approved for a period of suspension or medical situation. Unless previously approved for a period of suspension, eligibility cannot be reinstated upon reaffiliation.

Post-9/11 Transferability: OPNAVINST 1780.4
Transfer of education benefits must be completed prior to leaving the SELRES. Failure to complete the obligated service will result in termination of the eligibility and recoupment of benefits used by the Veterans Administration. Personnel precluded from completing their obligation due to Navy or DoD policy, or Federal statute must agree to serve the maximum amount of time allowed by such policy or statute to avoid termination of benefits.

Servicemembers’ Group Life Insurance (SGLI)/Family Servicemembers’ Group Life Insurance (FSGLI): BUPERSINST 1001.39F - Active status pool personnel are not eligible for SGLI/FSGLI coverage; however, they are eligible to convert to Veteran’s Group Life Insurance (VGLI) during the 120 day period after their change of status takes effect. Specific information concerning conversion to VGLI and other coverage options is available by contacting the Office of Servicemembers’ Group Life Insurance, 290 West Mt. Pleasant Ave, Livingston, NJ 07039, 1-800-419-1473.

Upon transfer from SELRES status, members and their dependents are eligible for continued TDP coverage. Coverage will continue for personnel who transfer from SELRES to the Individual Ready Reserve (ASP), but the premium costs will increase.

TRICARE Reserve Select (TRS): www.tricare.mil/TRS
Upon transfer from SELRES status, members and their dependents are ineligible for continued TRS coverage. However, if members were paying for TRS as a SELRES, members and their dependents may be eligible for coverage under the Continued Health Care Benefit if enrolled within 60 days of transfer out of a pay status. Enrollment can be completed on the TRICARE Web site.
