1. **Policy**

   a. The designation “qualified in submarines” represents an intensive personal effort to meet the high standards and special requirements of submarine duty. Only volunteers will be assigned to submarine training under normal circumstances. Non-volunteers will be assigned only when sufficient volunteers cannot be obtained.

   b. Based on the investment of training costs and long planning time, assignment to submarine duty is not elective after issuance of a transfer directive leading to duty in submarines.

2. **Eligibility Requirements.** The specified eligibility requirements for submarine duty may be found in MILPERSMAN 1306-402.

3. **Training Requirements**

   a. Basic Enlisted Submarine School is the basic training of enlisted members for submarine duty at Naval Submarine Base, New London, Groton, CT is a prerequisite for qualification in submarines for all enlisted ratings, with the exception of nuclear trained personnel. Commanding officers (COs) of submarines receiving enlisted personnel from this school must not consider them “qualified in submarines,” nor consider their
training complete. Before being designated “qualified in submarines,” each individual must pass an oral and practical examination that demonstrates sufficient knowledge of ship’s systems and operating procedures pertaining to the submarine in which serving.

b. Personnel are not eligible to be designated "qualified in submarines" by the CO until they have served aboard a submarine for 6 months. The CO must ensure personnel have sufficient underway time to ensure the validity of the designation "qualified in submarines." Amplifying details for qualification are issued by the submarine force commanders.

c. Personnel serving in source ratings other than submarines who complete requirements for qualification in submarines while serving temporary additional duty on board a submarine may request a waiver of eligibility standards. The waiver request must be addressed to Navy Personnel Command (NAVPERSCOM), Nuclear Power/Submarine Distribution Branch (PERS-403) and endorsed by the submarine CO; a copy must be provided to the submarine force commander. If approved by NAVPERSCOM (PERS-403), submarine “designation 7 (SG)” will be assigned.

4. Physical Requirements. Before being assigned to a submarine, each enlisted member must meet the physical standards specified in reference (a).

5. Submarine Qualification Designations. Submarine qualification designations are defined below:

<table>
<thead>
<tr>
<th>Designation 1 (SS)</th>
<th>Designated “qualified in submarines.”</th>
</tr>
</thead>
<tbody>
<tr>
<td>Designation 2 (SU)</td>
<td>Designated “in training for submarine qualifications.”</td>
</tr>
<tr>
<td>Designation 5 (SQ)</td>
<td>Designated “qualified for submarines.” Not planned for future assignment to submarine duty.</td>
</tr>
<tr>
<td>Designation 7 (SG)</td>
<td>Designated “qualified for submarines.” Not in submarine source rating or Navy enlisted classification (NEC). Not detailed by the submarine community.</td>
</tr>
<tr>
<td>Designation 8 (SP)</td>
<td>Designated “previously assigned in submarines.” Assigned only to those personnel disqualified for submarine duty and serving in a submarine support billet. Detailed by the submarine community, but not reassigned to submarine duty without prior approval from NAVPERSCOM (PERS-403).</td>
</tr>
</tbody>
</table>
6. Designation 5 (SQ). (See note 1) Submarine “designation 5 (SQ)” will be assigned by NAVPERSCOM (PERS-403) to enlisted personnel in submarine source ratings who are qualified in submarines, but not expected to serve again in the submarine force. Personnel assigned “designation 5 (SQ)” designator are entitled to wear the enlisted submarine breast insignia. Personnel assigned “designation 5 (SQ)” must have the following permanent NAVPERS 1070/613 Administrative Remarks entry made and uploaded to their electronic service record (ESR) via Navy Standard Integrated Personnel System (NSIPS).

"(Date): Assigned enlisted submarine “Designation 5 (SQ).”
Member entitled to wear the enlisted submarine breast insignia.
Authority: (Cite the source document notifying of “Designation 5 (SQ)).”

Note 1: Personnel assigned “designation 5 (SQ)” or “designation 7 (SG)” who desire to return to submarine duty must formally request reinstatement using the procedures in MILPERSMAN 1306-416.

7. Designation 7 (SG). (See note 1).

a. Submarine “designation 7 (SG)” will be assigned by NAVPERSCOM (PERS-403) for the following reasons:

   (1) Conversion to a nonsubmarine source rating or to an NEC detailed outside of the submarine community.

   (2) Approval of nonsubmarine source rating to be designated “qualified in submarines.”

b. Personnel assigned “designation 7 (SG)” designator must have the following permanent NAVPERS 1070/613 entry made in their ESR via NSIPS.

"Date: Assigned enlisted submarine “designation 7 (SG).”
Member entitled to wear the enlisted submarine breast insignia.
Authority: (Cite the source document notifying of “designation 7 (SG)).”
8. **Designation 8 (SP)**

   a. Submarine “designation 8 (SP)” may be assigned by NAVPERSCOM (PERS-403) to personnel disqualified from submarine duty. Each person disqualified is normally assigned to a submarine support billet for a 2-year tour of duty if a valid billet exists.

   b. Submarine nuclear trained personnel who are physically disqualified from submarine duty will be assigned as a surface nuclear operator. No formal notification of “designation 8 (SP)” assignment is made by NAVPERSCOM (PERS-403) and service record entries are not required.

   c. Assignment of “designation 8 (SP)” is for NAVPERSCOM assignment and tracking purposes only, but will reflect on a command enlisted distribution verification process (EDVP). Further guidance on “designation 8 (SP)” may be found in MILPERSMAN 1306-416.

9. **Submarine Qualification Insignia**

   a. The submarine qualification insignia represents the completion of prescribed training and the successful qualification for submarine service. The insignia shows that the wearer has qualified for submarine duty, but does not necessarily indicate that the wearer is currently serving in the submarine force.

   b. Enlisted members who have been “disqualified” from submarine duty must normally, by the same authority, have their privilege to wear the submarine insignia revoked. A member who has been physically disqualified for submarine duty may continue to wear the submarine insignia. Other unique circumstances may convince the submarine disqualification authority to leave intact a former submariner’s privilege to wear the submarine qualification insignia.

10. **Use of Submarine Designations**

    a. Submarine designations “SS” or “SU” must be placed in parenthesis immediately after the member’s rate or rating abbreviation (e.g., MM2(SS), SA(SU)). All service record pages and all correspondence pertaining to the member thereafter must include the appropriate designation until such time as the submarine designator may be revoked.
b. A member who has received a submarine designator and is subsequently transferred from duty in submarines will normally retain the designator, unless removed or changed due to disqualification. Additionally, entitlement to wear the enlisted submarine warfare insignia remains until such time that entitlement is revoked.

c. When a member has been examined and is qualified for submarine duty, the following permanent NAVPERS 1070/613 entry must be made and uploaded to the ESR via NSIPS. Ensure this entry is permanent.

“(Date): Qualified in submarines this date and assigned enlisted submarine “designation 1 (SS).”

11. **Authority to Assign or Revoke Designations**

   a. Only NAVPERSCOM (PERS-403) and submarine force commanders have authority to remove submarine designations. See MILPERSMAN 1306-416 for disqualification procedures. Submarine force commanders will act only on the cases of those personnel who are under their operational or administrative command. NAVPERSCOM (PERS-403) will act on all other cases.

   b. Authority for assignment of any enlisted submarine designation is NAVPERSCOM (PERS-403), with exception of the assignment of “designation 1 (SS)” to those “designation 2 (SU)” personnel who complete requirements for “qualification in submarines.” The authority for this designation change is granted to the submarine force commanders.

12. **Preservice Substance Abuse Policy**

   a. The special safety and reliability aspects of operating submarines necessitate stringent substance abuse policies.

   b. Preservice drug abuse waivers by personnel requesting entry into the Nuclear Field Program will be screened by the Office of the Chief of Naval Operations (OPNAV), Nuclear Enlisted Program (N133D). Waivers may be granted for preservice experimental marijuana use only.

   c. Preservice drug abuse waivers (marijuana only) by personnel requesting entry into initial submarine training other than the Nuclear Field Program will be screened by the appropriate activity listed below:
(1) Commander, Navy Recruiting Command - for personnel in administrative chain of command specifically outlined in reference (b). Admission of preservice experimental use of marijuana by personnel in Delayed Entry Program is not waiverable.

(2) NAVPERSCOM (PERS-403) - for personnel in all other commands. Waivers may be granted for preservice experimental marijuana use only.

d. Any time a waiver is granted for preservice drug abuse, the following permanent NAVPERS 1070/613 entry will be uploaded into the ESR via NSIPS.

“(Date): A preservice marijuana use waiver for submarine duty has been granted by (cite authority). I understand any future drug abuse will result in permanent submarine disqualification and processing for separation from naval service.

____________________ MEMBER ______________ WITNESS

e. Drug abuse waivers will not be granted for personnel with a history of in-service drug abuse desiring initial submarine training or for in-service drug abuse which occurs after commencement of initial submarine or nuclear field training.

f. Personnel disqualified from submarine duty for drug abuse are not eligible for reinstatement at any time.

g. Personnel disqualified for alcohol dependency may request reinstatement to submarine duty, per reference (c), within 3 years of the disqualification date. After 3 years, reinstatement will not be considered.

13. **Disqualification for Duty.** A CO may, at any time, recommend to the appropriate disqualification authority, via the administrative chain of command, that any enlisted member serving under the CO’s command be declared disqualified for submarine duty for any reason other than as a substitute for appropriate disciplinary action in the case of disciplinary offenses. Disqualification must not be used in lieu of a recommendation for separation of a member from naval service when separation is warranted and appropriate. However, a member undergoing administrative or punitive separation proceedings
will be disqualified from submarines when such separation has been directed.

14. **Criteria for Removal of Submarine Designator.** There are two general categories of justification for removal of a submarine designator:

   a. Physical disqualification; and

   b. All other reasons; this category may include, but is not limited to:

      1. Inability or refusal to qualify or requalify in submarines;

      2. Substance abuse (alcohol or drugs);

      3. Loss of or inability to acquire a required security clearance, NEC, or limited access authority;

      4. Removal from the Personnel Reliability Program (PRP);

      5. Conscientious objector status; or

15. **NAVPERS 1070/613 Entry for Physical Disqualification.** For personnel who are physically disqualified, the following permanent NAVPERS 1070/613 entry must be made and uploaded to ESR via NSIPS.

   "(Date): Determined “not physically qualified” for submarine duty for reasons stated in medical record. The enlisted submarine “designator (SS)/(SU)” is hereby removed. (Member’s last name) is entitled to wear the submarine breast insignia (if applicable). (Member’s last name) may reapply to NAVPERSCOM (PERS-403) for restoration of the (SS)/(SU) designator when member once again satisfies the physical requirements of the Manual of the Medical Department for submarine duty.

   Authority: (Cite the source document approving disqualification.)"

16. **NAVPERS 1070/613 Entry for Reasons Other than Physical.** For personnel who are disqualified for reasons other than
physical, the following permanent NAVPERS 1070/613 entry must be made and uploaded to ESR via NSIPS.

“(Date): Disqualified for submarine duty by reason of (state reason). The enlisted submarine “designator (SS)/(SU)” is hereby removed. (Member’s last name) is not eligible for return to submarine duty at any future date and is not entitled to wear the submarine breast insignia (if deemed appropriate by the submarine disqualification authority).

Authority: (Cite the source document approving disqualification).”

17. **Reinstatement after Disqualification.** Per MILPERSMAN 1306-416, reinstatement to submarine duty after disqualification will be considered, with the following exceptions:

   a. Per reference c, personnel disqualified from submarine duty for drug abuse are ineligible for reinstatement.

   b. Per reference c, personnel disqualified for alcohol dependency must submit their request within 3 years of the submarine disqualification date for reinstatement.
