NAVY ENLISTED OCCUPATIONAL STANDARD

FOR

NAVAL AIRCREWMEN (OPERATOR) (AWO)

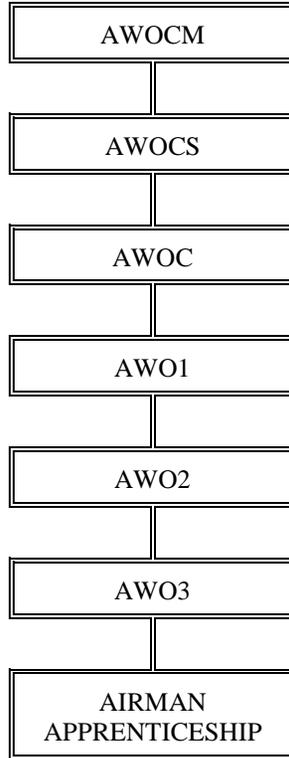

SCOPE OF RATING

Naval Aircrewmens (Operator) (AWO) operate advanced airborne tactical systems onboard Maritime Patrol and Reconnaissance Aircraft (MPRA) utilizing Mission Acoustic Subsystem (MAS), Radio Detection and Ranging (RADAR), Electronic Support Measures (ESM), Identification Friend or Foe/Selective Identification Feature (IFF/SIF), and Electro-Optic/Infrared (EO/IR) sensors to detect, analyze, classify, track, and attack surface and subsurface contacts; support mission planning, safeguard classified material, handle ordnance, collect and produce intelligence products for aircrews and theater Commanders in support of operations and tactical missions worldwide.

This Occupational Standard is to be incorporated in Volume I, Part B, of the Manual of Navy Enlisted Manpower and Personnel Classifications and Occupational Standards (NAVPERS 18068F) in Chapter 12.

**GENERAL INFORMATION
CAREER PATTERN**

Normal path of advancement to Chief Warrant Officer and Limited Duty Officer categories can be found in OPNAVINST 1420.1.

For rating entry requirements, refer to MILPERSMAN 1306-618.

SAFETY

The observance of Operational Risk Management (ORM) and proper safety precautions in all areas is an integral part of each billet and the responsibility of every Sailor; therefore, it is a universal requirement for all ratings.

Job Description

Acoustic Systems Specialists are members of an integrated Combat Aircrew aboard Maritime Patrol and Reconnaissance Aircraft (MPRA); perform aircrew duties to detect, analyze, classify, track, and attack surface and subsurface contacts utilizing state of the art acoustic technology; operate advanced tactical systems utilizing sonobuoys, acoustic and oceanographic data, and imagery devices; attain and maintain aircrew qualifications and certifications; handle ordnance; train in acoustic intelligence analysis; support mission planning, safeguard classified material, and train to conduct tactical operations worldwide.

Job Description

Aircrew Readiness Managers (Operator) are crucial and integral members of staffs, operational commands, and squadrons; coordinate the operational, administrative, and aircrew scheduling functions for the organization; administer and manage training programs and resources for naval aircrew, manage standardization of aircrew training programs to enhance proficiency and readiness, and coordinate all aspects of aircrew training to meet the rigorous demands of operational commitments worldwide; administer and direct the following programs: Naval Air Training and Operating Procedures Standardization (NATOPS) and Search and Rescue (SAR) programs; and administer and direct tactics, training and readiness, ordnance and weapons, and aircrew training. As program managers, they analyze training resource requirements, review and approve contract options for new training devices and programs, develop and revise curriculum, incorporate and initiate new aircrew training programs, manage student quotas, qualifications and certifications, and coordinate aircrew physical fitness and health program initiatives.
