Subj: LIMITING THE USE OF RESTRICTIVE HOUSING WITHIN THE NAVY SHORE
CORRECTIONS SYSTEM ANNUAL REPORT, CALENDAR YEAR 2018

Ref: (a) U.S. Department of Justice Report and Recommendations Concerning the Use of
Restrictive Housing, Final Report, January 2018
(b) Presidential Memorandum (Limiting the Use of Restrictive Housing by the Federal
Government), 1 March 2016
(c) BUPERSINST 1640.24
(d) SECNAVINST 1640.9C
(e) BUPERSINST 1640.22

1. Purpose. To publish annual aggregate restrictive housing (RH) data per references (a), (b) and (c) occurring at U.S. Navy shore confinement facilities within the United States and overseas.

2. Background

a. National correctional reform led to the publication of reference (a) that established policy recommendations for the Department of Justice federal correctional system, including “guiding principles” for all U.S. correctional agencies. Reference (b) directed the full implementation of reference (a) recommendations within six months of signature.

b. Reference (a) provides the definition of “RH” as detention that involves three core elements:

(1) Removal from the general prisoner population, whether voluntary or involuntary;

(2) Placement in a locked room or cell, whether alone or with another prisoner; and

(3) Inability to leave the room or cell for the vast majority of the day, defined as 22 hours or more.

c. Per references (d) and (e), prisoners confined in the Navy shore corrections system are housed within either the “general population” or “special quarters (SQ)”. SQ encompasses administrative segregation (AS), disciplinary segregation (DS) and protective custody (PC). The categories of AS include, but are not limited to medical, suicide risk, escape risk, prevention of injury, pending investigation, loss of privileges, potentially violent and dangerous, and awaiting transfer or transport.

Subj: LIMITING THE USE OF RESTRICTIVE HOUSING WITHIN THE NAVY SHORE CORRECTIONS SYSTEM ANNUAL REPORT, CALENDAR YEAR 2018

d. For alignment of terminology, “RH” or the “restrictive housing unit (RHU)” as defined in reference (a) are considered synonymous with SQ as outlined in references (d) and (e) and include AS, DS and PC (only when housed within SQ).

e. Navy standard confinement practices result in a very limited percentage of the overall facility population being housed within SQ. Additionally, the SQ plan of the day routinely, unless for due cause, allows out of cell time for periods more than 2 hours (e.g., recreation, sunshine call, showering, programming, etc.). Effective 1 September 2016, the reference (a) guiding principles have been incorporated into pre-existing Navy corrections SQ administration and operations to meet the intent of references (a) and (b). The implementation included the collection of RH status data elements outlined in reference (a).

f. RH status data for the calendar year 2018 annual report was gathered from five Navy shore confinement facilities located within the United States and one overseas, to include:

- (1) Naval Consolidated Brig (NAVCONBRIG) Miramar, San Diego, California;
- (2) NAVCONBRIG Miramar Detachment (DET) Pearl Harbor, Hawaii;
- (3) NAVCONBRIG Charleston, Charleston, South Carolina;
- (4) NAVCONBRIG Chesapeake, Chesapeake, Virginia;
- (5) Pre-trial Confinement Facility (PCF), Naval Air Station Jacksonville, Florida; and,
- (6) PCF Yokosuka, Japan

3. General Information

a. On 31 December 2018, 352 prisoners were confined within the five U.S. Navy shore confinement facilities located in the United States and one facility located overseas. Of this population, 339 prisoners were male and 13 were female.

b. During Calendar Year 2018, there was a total of 776 new admissions into the U.S. Navy shore corrections system; encompassing 725 male and 51 female offenders.

4. Aggregate Data (1 January – 31 December 2018)

a. Total in each type of RH: 15

(1) AS: 8

(a) Disciplinary Segregation (RH): none

(b) Medical: none

Subj: LIMITING THE USE OF RESTRICTIVE HOUSING WITHIN THE NAVY SHORE
CORRECTIONS SYSTEM ANNUAL REPORT, CALENDAR YEAR 2018

- (c) Suicide Risk (SR): 8
- (d) Escape Risk (ER): none
- (e) Prevention of Injury (POI): none
- (f) Pending Investigation (PI): none
- (g) Potentially Violent – Dangerous (PVD): none

*One AS prisoner occupied SR status during two separate RH periods.

- (2) DS: 7
 - (a) Pre-INDOC Suicide Risk (SR): 4
 - (b) Pre-INDOC Escape Risk (ER): 3
 - (c) Pre-INDOC POI: 1

* One DS prisoner occupied SR during two separate RH periods.

* One DS prisoner occupied POI and ER during one consecutive RH period.

- (3) PVD: none
- b. RH recidivism rate: 11% (2 of 22 with repetitive RH periods)
- c. Average length of stay:
 - (1) Charleston: 4.25 days
 - (2) Chesapeake: 12 days
 - (3) Jacksonville: none
 - (4) Miramar: none
 - (5) Pearl Harbor: none
 - (6) Yokosuka: none
- d. Race:
 - (1) White: 10
