

U.S. Navy Uniform Regulations Summary of Changes (26 February 2020)

This Summary of Changes provides a brief description of changes made to Navy Uniform Regulations (NAVPERS 15665I) since the last update of 30 January 2020. The changes identified in this summary reflect the correction of noted policy discrepancies found within NAVPERS 15665I. For specific details of changes, please refer to the noted chapters, sections and articles below.

Significant updates to Navy Uniform Regulations contained in this summary of changes include:

- Discontinued authorized wear of the female E1-E6 service dress blue coat and associated components effective 31 January 2020 as directed by NAVADMIN 236/15 and updated by NAVADMIN 075/19.

UPDATES TO NAVY UNIFORM REGULATIONS

8. Chapter 3, Section 5, Description and Wear of Uniform Components, Cap, Combination, Article 3501.9.

Deleted:

**Description and Wear of Uniform Components
Cap, Combination
Article 3501.9**

 <p>UNISEX OFFICER</p>	<p>Description</p> <p>a. Male and Female Officers/CPOs. A military style cap with black visor, rigid standing front, flaring circular rim and black cap band worn with detachable khaki or white cap cover, as required. Fabric match of cap cover and uniform is required. When wearing an all-weather coat, a clear plastic combination cap rain cover may be worn. For hat band insignia/ornamentation, see articles 4311 for officers and 4321 for CPOs.</p>
 <p>UNISEX CPO</p>	<p>b. Females E6 and below. A military style cap with black visor, rigid standing front, flaring circular rim and black cap band worn with white cap cover. When wearing an all-weather coat, a clear plastic combination cap rain cover may be worn and will be replaced by the enlisted white hat. As of 31 January 2020, the female E1-E6 Combination Cover is no longer authorized to be worn. For hat band insignia/ornamentation, see article 4331 for E6 and below.</p>
 <p>UNISEX CPO</p>	<p>Correct Wear</p> <p>Wear squarely on the head, with bottom edge parallel to and 1-1/2 inch above the eyebrows.</p> <p>Ownership Markings</p> <p>On designated nameplate.</p>

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

	<p>Notes:</p> <ol style="list-style-type: none">1. As of 31 October 2016, the enlisted white hat is mandatory for wear by all female E1-E6 Sailors with jumper style dress uniforms.2. As of 31 October 2018, the alternate and unisex Combination Covers are mandatory for wear by all female officers and chief petty officers.3. The enlisted White Hat is mandatory for wear by all female E1-E6 Sailors wearing jumper style dress uniforms.
FEMALE E6 & BELOW	

Added:

**Description and Wear of Uniform Components
3501.9. Cap, Combination**

	<p>a. <u>Description</u>. A military style cap with black visor, rigid standing front, flaring circular rim and black cap band worn with detachable khaki or white cap cover, as required (figures 3501.9-1 and 3501.9-2). Wear white cover with Dinner Dress, Full Dress, Service Dress, and Summer White uniforms. Wear khaki cover with Service Khaki uniform. When wearing an all-weather coat or black Cold Weather Parka, a clear plastic combination cap rain cover may be worn. For hat band insignia/ornamentation, see articles 4311 for officers and 4321 for CPOs. There are two sizing options – both the standard and the Alternate Combination Cover (ACC) are designated as unisex uniform items and may be worn by male and female officers and CPOs. The ACC is similar in design to the standard combination cover, but is smaller with an oval vice round opening.</p> <p>b. <u>Correct Wear</u>. Wear squarely on the head, with bottom edge parallel to and 1-1/2 inch above the eyebrows.</p>

3501.16. Coat, Service Dress Blue (Officers/CPOs)**

**Figure 3501.16-1
Coat, SDB (Male)**

**Figure 3501.16-2
Coat, SDB (Female)**

a. Description

(1) Males. A double-breasted coat made of authorized navy blue fabric with three outside pockets, one on each hip and one on left breast, and three 35-line Navy eagle gilt buttons down each forefront (see figure 3501.16-1). The coat has a sword/cutlass slit over the left hip. Required buttons are described in article 5403.

(2) Females. A single-breasted coat made of authorized navy blue fabric with one welt left breast pocket, and four 35-line Navy eagle buttons on the left front (see figure 3501.16-2). The coat has a sword/cutlass slit over the left hip. Required buttons are described in article 5403. The coat with two breast pocket flaps may be worn as long as serviceable.

b. Correct Wear. Button all buttons. Coat may be removed in immediate office space. Commanders/commanding officers should specify the areas within the command where coats are required. For insignia, see article 4101 for officers and 4211 for chief petty officers.

Summary of Changes (26 February 2020)**

10. Chapter 3, Section 5, Description and Wear of Uniform Components, Jumper, Blue Dress (E6 and Below), Article 3501.32.

Deleted:

**Description and Wear of Uniform Components
Jumper, Blue Dress (E6 and Below)
Article 3501.32**

Description

Made of dark blue 100% wool serge, loose fitting, open at the neck and with a square sailor collar. The jumper has a front and back yoke with one welt style pocket outside on the left front and a side zipper on the left for improved ease in donning and doffing. The bottom of the jumper is finished with a turn-up hem and when worn covers all but the lowest button on each side of the broadfall trouser/Slacks. The collar has two stars on the jumper flap and is trimmed with three white piping, each 3/16 inch wide and 3/16 inch apart with outer piping 1/4 inch from collar edge. Sleeves have two navy blue button fasteners on cuffs, trimmed with three piping of white tape, each piping 3/16 inch wide and 3/16 inch apart, centered horizontally on the cuff and blocked off each end by a perpendicular white stripe 3/16 inch wide, connecting the ends of the horizontal piping.

Distance from outer edge of perpendicular stripe cuff's open end is approximately 1-3/8 inches. Buttons are 25-line, black, with anchors.

Correct Wear

Wear jumpers hanging straight at the sides, fitting comfortably across the shoulders without binding the armholes, and covering all but the lowest button on each side of the broadfall trousers. Sleeves are bloused so the bottom edge of the buttoned cuff covers the wrist bone when the elbow is bent across the front of the body. When wearing an outer garment, the jumper collar is inside the garment. An inverted sleeve crease extends down the arm at the inside and outside edges. The body of the jumper has an outward crease in the front, inverted crease in the back, and the collar has three, evenly spaced outward vertical creases. When fitting the jumper to the individual, the unbuttoned cuff's edge shall reach the knuckles at the base of the fingers with hands hanging naturally at sides.

Ownership Markings

Turn the Jumper inside out, front down, collar out facing away from you. Using contrasting color ink, center surname, first and middle initial (if applicable) left to right and 1/4 inch below the collar seam.

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

Added:

**Description and Wear of Uniform Components
3501.32. Jumper, Blue Dress (E1-E6)**

**Figure 3501.32-1
SDB Jumper**

a. Description. Made of dark blue 100% wool serge, loose fitting, open at the neck and with a square Sailor collar. The jumper has a front and back yoke with one welt style pocket outside on the left front and a side zipper on the left for improved ease in donning and doffing. The bottom of the jumper is finished with a turn-up hem and when worn covers all but the lowest button on each side of the broadfall trouser/Slacks. The collar has two stars on the jumper flap and is trimmed with three white piping, each 3/16 inch wide and 3/16 inch apart with outer piping 1/4 inch from collar edge. Sleeves have two navy blue button fasteners on cuffs, trimmed with three piping of white tape, each piping 3/16 inch wide and 3/16 inch apart, centered horizontally on the cuff and blocked off each end by a perpendicular white stripe 3/16 inch wide, connecting the ends of the horizontal piping. Distance from outer edge of perpendicular stripe cuff's open end is approximately 1-3/8 inches. Buttons are 25-line, black, with anchors (figure 3501.32-1). Male and female jumpers have gender specific sizing.

b. Correct Wear. Wear jumpers hanging straight at the sides, fitting comfortably across the shoulders without binding the armholes, and covering all but the lowest button on each side of the broadfall trousers. Sleeves are bloused so the bottom edge of the buttoned cuff covers the wrist bone when the elbow is bent across the front of the body. When wearing an outergarment, the jumper collar is inside the garment. An inverted sleeve crease extends down the arm at the inside and outside edges. The body of the jumper has an outward crease in the front, inverted crease in the back, and the collar has three, evenly spaced outward vertical creases. When fitting the jumper to the individual, the unbuttoned cuff's edge shall reach the knuckles at the base of the fingers with hands hanging naturally at sides.

c. Ownership Markings. Turn the jumper inside out, front down, collar out facing away from you. Using contrasting color ink, center surname, first initial and middle initial (if applicable) left to right and 1/4 inch below the collar seam.

Note. Male Sailors may continue to wear the previous jumper design (without the Jumper side zipper) until no longer serviceable.

Summary of Changes (26 February 2020)**

11. Chapter 3, Section 5, Description and Wear of Uniform Components, Shirt, White, Dress, Article 3501.49.

Deleted:

**Description and Wear of Uniform Components
Shirt, White, Dress
Article 3501.49**

Description

a. Male Officers/CPOs. Made of plain white authorized fabric, with long sleeves with plain buttons, convertible or French cuffs, with epaulets, and with a single left breast pocket without pocket flap. Collar points measure no more than 3-1/4 inches with a medium spread.

b. Females E6 and below. Made of plain white authorized fabric, with plain buttons, short sleeves with plain buttons, two breast pockets with button flaps, and epaulets. Collar points measure no more than 3-1/4 inches with a medium spread.

c. Female Officers/CPOs. A quality improved white dress long sleeve shirt, made of 60/40 percent cotton/polyester fabric, designed with a lower neckline, center front covered button placket, and one-piece front, has been approved as a replacement for the present shirt.

Correct Wear

Button all buttons. Officers and CPOs wear appropriate soft shoulder boards on the epaulets. E-6 and below wear appropriate rating badge and Unit Identification Mark (UIM).

Ownership Markings

Vertically, beginning 1 inch from the bottom on the inner side of the front fold on which the buttons are sewn.

Deleted:

**Description and Wear of Uniform Components
Trousers, Blue, Jumper (Broadfall)
(Males E6 and Below)
Article 3501.92**

Description

Navy blue made of 100% wool serge with 13 non-functional buttons and a hidden center-front zipper closure. Buttons are 25-line, and with black anchors. The design also includes left and right front welt pockets, one right rear pocket, laced gusset at the back, inverted side creases and flared legs.

Correct Wear

Button all buttons and lace gusset from inside out, bottom to top, and tie. Bitter ends of lace are tucked in. Trousers shall hang approximately 2 inches from the floor at the back of the shoe. Trousers should be tailored to include a 2 inch hem to provide material for adjustments.

Ownership Markings

Turn trousers inside out, fly down, waistband away from you. Center surname, first and middle initial (if applicable) on rear pocket, a 1/4 of an inch below horizontal seam using white ink; complete manufacturer's tag using indelible ink.

14. Chapter 4, Section 2, Part 2, E1 – E6 Rate Insignia, Unit Identification Marks (UIMs), Article 4225.

Deleted:

4225. UNIT IDENTIFICATION MARKS (UIMs)

1. E1-E6 personnel assigned for **permanent duty** (not in transit), including Naval Reserve Reinforcement and Augment Personnel, are required to wear UIMs on the right sleeve of Dress Jumper uniforms and short sleeved white shirts. Exemptions to required wear may be granted by the prescribing authority (area coordinators) to meet security requirements. Commands will submit UIM wear exemption requests to their prescribing authority for approval. UIMs have 1/4 inch white block letters, embroidered on a black background 1/2 inch wide, and are worn with the top edge parallel to and 3/8 inch below lower row of shoulder sleeve stitching. Center them on the outer face of the sleeve and sew them on with colorfast blue thread. UIMs are authorized in two lengths, 5 inch and 5-3/4 inch. The UIMs are lettered with the approved short title of the command, as contained in the Standard Navy Distribution Lists (SNDL) Parts 1 and 2 (OPNAV P09B2-105). Wear the UIM of the parent command unless one of the following exists: (1) Have own UIC; (2) Tenant command non-collocated with parent command. Upon reporting for duty, men and women will be issued seven UIMs. Organizations are authorized to purchase UIMs from

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

O&MN funds. Any ship/unit that is decommissioned/disestablished or transferred to reserve status should forward ten UIMs for historical purposes, to the Naval Historical Center, Curator for the Navy, Washington Navy Yard, Washington, DC, 20374-0571.

2. This information is provided for commands ordering UIMs. Use DD Form 1155 or any authorized ordering forms. Order from: J&S Finishing Inc., 443 62nd Street, West New York, NJ 07093. Please submit completed requisition to UnitIdentificationMarkers@gmail.com. For assistance with your order and payment call: (201) 854-0338. Use of IMPAC government purchase card authorized. For technical assistance please contact Susan Krantz at (215) 737-7954 or DSN 444-7954. Each order shall contain the following information:

- a. Date of order.
- b. Contract number: SP0100-03-D-4099.
- c. Accounting and appropriation data.
- d. Item description.

(1) Quantity ordered (minimum quantity per order: 50 and a +/-5% variation in quantity must be considered).

(2) Destination.

(3) Pricing is dependent on quantity and will be provided on a J& S Finishing quote.

(4) Delivery, invoice, and payment provisions to the extent not covered by the basic contract.

- e. Authorized short title (Per SNDL Parts 1 and 2 OPNAV P09B2-105 7).

15. Chapter 4, Section 2, Part 2, E1 – E6 Rate Insignia, Collar Insignia, Article 4227.

Deleted:

4227. Collar Insignia

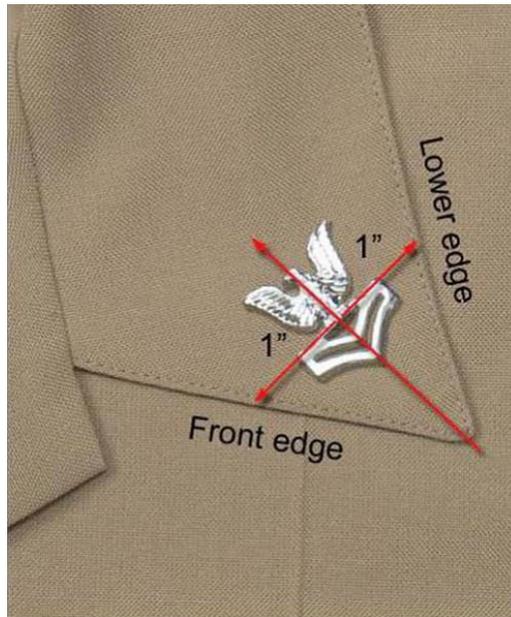

a. E4-E6 personnel shall wear anodized (highly polished) 1-1/4 inch collar devices (article 4331.2c) on the collar of the blue single-breasted all-weather coat. On the double-breasted all-weather coat and black relaxed fit jacket, wear metal rank insignia (approximately 1-1/4 inch) on each epaulet centered from side to side with the bottom edge of the device approximately 3/4 inch from the squared end of the epaulet.

b. E2-E6 personnel wearing the male Service Uniform (SU) Khaki Shirt or female Overblouse will also wear anodized (highly polished) miniature rank/collar devices (article 4331.2e) on both shirt collars points as prescribed below. Rate specialty marks (e.g. caduceus, cross quills, ship's helm, etc) are not authorized to be worn on the collar of the SU khaki shirt or khaki overblouse.

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

c. Personnel who qualify for gold service stripes outlined in articles [4232](#) and [4233](#) may wear gold chevrons vice cardinal on the collar devices for Navy coveralls. Additionally, those same personnel are authorized to wear gold chevrons on the epaulets of the optional black relax fit (stand-up knit collar) jacket when wearing the SU.

d. Place collar devices at point (A) 1 inch from the front and lower edges of the collar and place the vertical axis of the insignia along an imaginary line (B) bisecting the angle of the collar point. Eagles face toward the front (inward). See diagram and photos below.

Service Uniform E-2/E-3 Collar Device Placement

Service Uniform E-2/E-3 Collar Device Placement

Added:

4227. [COLLAR, SHOULDER AND CHEST INSIGNIA](#)

1. [Outergarment Insignia](#)

a. [All Weather Coat and Black Relax Fit Jacket](#). E4-E6 personnel shall wear anodized (highly polished) miniature size collar devices (article [4331.2c](#)) on the collar of the blue single-breasted all-weather coat. On the double-breasted all-weather coat and black relaxed fit jacket, wear regular size metal rank insignia (article [4331.2c](#)) on each epaulet centered from side to side with the bottom edge of the device approximately 3/4 inch from the squared end of the epaulet. Personnel who qualify for gold service stripes outlined in articles [4232](#) and [4233](#) may optionally wear gold chevrons on the epaulets of the black relax fit jacket.

b. [Cold Weather Parka](#). Rank insignia may be metal or matching black fabric. E4-E6 personnel wear the regular size insignia (article [4331.2c](#)) centered on the chest rank tab.

c. [NWU Type III Parka and Black Fleece Liner](#). E4-E6 personnel wear the NWU pattern-matching embroidered rank chest insignia. The rank insignia is embroidered in black thread on fabric matching the NWU camouflage pattern with the exception that the pattern will not contain black pixels, unless otherwise authorized.

2. [Service Uniform \(SU\) Insignia](#). Rate specialty marks (e.g. caduceus, cross quills, ship's helm, etc) are not authorized to be worn on the collar of the SU khaki shirt or khaki overblouse.

a. E2-E3 personnel wearing the SU Khaki Shirt or female Overblouse wear anodized (highly polished) miniature rank/collar devices as shown in figure [4227.2a-1](#).

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

Figure 4227.2a-1

b. E4-E6 personnel wearing the male SU Khaki Shirt or female Overblouse will wear anodized (highly polished) miniature rank/collar devices (figure 4227.2a-2) on both shirt collar points as prescribed below (eagle faces inward).

Figure 4227.2a-2

c. Placement. Center the collar devices 1 inch from the front and lower edges of the collar with the vertical axis of the insignia along an imaginary line bisecting the angle of the collar point. Eagles face toward the front (inward). See figures 4227.2a-3 through 4227.2a-6.

eagle facing to wearer's right. It may be embroidered or made of metal (standard or high relief). The device is attached to the mount of the combination cap band. Miniature cap devices have the same design but the overall size is reduced by one-half.

b. Warrant Officers, W-1. Consists of two crossed gold color fowl anchors, of a size to be inscribed in a circle 2-1/4 inches in diameter. The unfouled arm of the stock shall point inward. It may be embroidered or made of metal. The device shall be attached to the mount of the combination cap band.

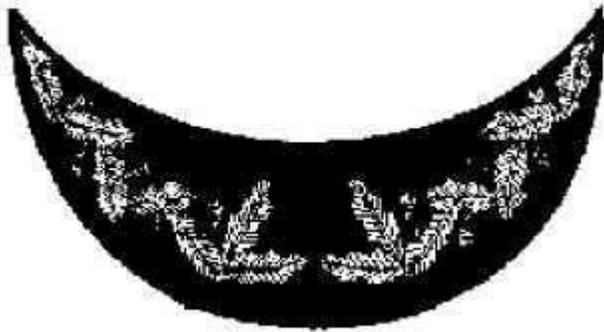

2. Visor Ornamentation:

a. Male and female flag officers' cap visors are covered with dark blue cloth, embroidered with two rows of gold oak leaves and acorns. The hat band is encircled at the top by gold braid piping approximately 1/8 inch wide.

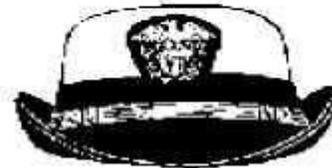

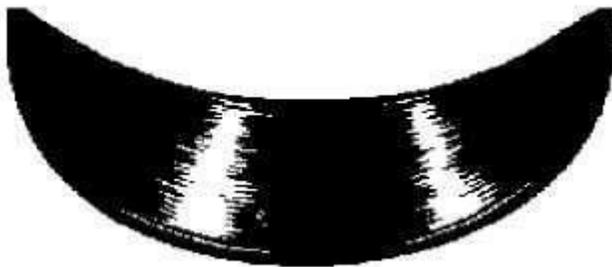

b. For Captains and Commanders the visor/hat band ornamentation is one vice two rows of the same ornamentation as for Flag Officers.

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

c. For officers of the rank of Lieutenant Commander and below the visor/hat band is plain.

3. [Chin Straps](#)

a. For all commissioned officers and commissioned warrant officers, chin straps shall be ½ inch wide, faced with gold lace, and shall be secured at each side of the cap by a Navy eagle, gilt button.

b. For warrant officers, W-1, chin straps shall be 1/4 inch wide, faced with gold lace, and shall be secured at each side of the cap by a Navy eagle, gilt button.

4. [Headgear](#)

a. Combination Cap. Insignia on combination caps consists of a cap device, chin strap, and retaining buttons. An embroidered visor/hat band is worn by officers of the rank of Commander and above. Female officers, O-5 and above, do not wear the gold chin strap.

**U.S. Navy Uniform Regulations
Summary of Changes (26 February 2020)**

b. Garrison Cap. Insignia on the garrison cap consists of metal collar size grade insignia and miniature cap device.

(1) Miniature Cap Device

(a) Commissioned Officers and Commissioned Warrant Officers). Metal insignia designed like the cap device for combination caps, but reduced by one-half.

(b) Warrant Officers, W-1. Metal insignia of the same design and color as the cap device described for wear on the combination cap except that each dimension shall be reduced by one-half.

(2) Position. Cap devices and rank devices, for garrison caps, are worn on the left and right side, respectively.
