

NIWC Pacific Vision Video Collaboration

Thank you for attending the presentation of our NIWC Pacific vision video, *Conflict 2037*. As mentioned, NIWC Pacific is working towards realizing this through our *Making Kennedy Real* initiative.

We are actively soliciting private industry for assistance in working towards this vision. Please contact us if you are interested in pursuing a Cooperative Research and Development Agreement supporting any of these enabling technologies:

- Ambient intelligence
- Artificial Intelligence & Machine Learning
- Augmented and virtual reality
- Autonomous Systems
- Cybersecurity
- Cyber warfare System Architecture and Support Infrastructure
- Data Analytics
- Human-Computer Interface
- Modeling & Simulation
- Swarming, autonomous sensors with machine intelligence analysis of data
- Others

This is not a formal agreement and does not imply/establish any business relationship. Non-disclosure agreements may be coordinated upon request.

Download the “collaboration form” from <https://www.public.navy.mil/navwar/NIWC-Pacific/Pages/vision-video-collaboration.aspx>, fill it out and return it to Mari Garcia-Reynante at garcia-reynante@navy.mil. Once received we’ll schedule a meeting to discuss your ideas.

Thank you,

Christopher Raney

Technical Director, NIWC Pacific
