STRATEGIC SEALIFT OFFICER PROGRAM

1. Purpose. To issue information and amplifying guidance under reference (a) for the training and administration of Navy Reserve officers in the Strategic Sealift Officer Program (SSOP).

2. Background. The SSOP is significantly different from other Navy Reserve programs. The program consists only of officers, all of whom are required to maintain U.S. Coast Guard (USCG) Unlimited Tonnage and Horsepower Oceans Merchant Mariner Credentials (MMC) as a licensed Deck or Engineering Officer, and allows these officers to actively participate through either the Individual Ready Reserve (IRR) in the Strategic Sealift Readiness Group (SSRG) or the Selected Reserve. Program policy, organization and responsibilities are provided in reference (a).

3. Mission. To manage, support and train Strategic Sealift Officers (SSO) in the Navy Reserve pursuant to reference (b).

4. Organization. The SSOP is organized pursuant to reference (a).

5. Training and Administrative Procedures for the SSOP

   a. In addition to the procedures in reference (a), the following training and administrative guidelines apply based on the Reserve status of the program under which an individual is affiliated.
(1) **Midshipman.** The SSO, U.S. Navy Reserve (USNR) midshipman program is directed by Navy Education and Training Command (NETC). Program administration, eligibility, participation requirements and training are conducted per reference (c).

(2) **IRR.** Commander, Navy Reserve Forces Command (CNRFC) (N14) administers the SSRG. Both the SSRG and the SSO Program Office (CNRFC (N14)) are established to meet the unique training and administrative requirements of seagoing civilian employment. The SSO Program Office acts as a virtual Navy Operational Support Center (NOSC), serving as the exclusive manager for all SSRG officer training, administration, and compliance requirements.

(3) **Selected Reserve.** SSOs in a drilling status are administered per reference (d).

b. The training and administrative procedures for individuals in the SSOP are covered in the references and amplified by information on the CNRFC (N14) Navy Reserve Homeport, [https://private.navyreserve.navy.mil/cnrfc/N-Codes/N1/CNRFC_14/Pages/default.aspx](https://private.navyreserve.navy.mil/cnrfc/N-Codes/N1/CNRFC_14/Pages/default.aspx).

6. **Program Support**

a. **SSO Program Office.** The SSO Program Office, CNRFC (N14), is responsible for the training and administration of all SSOs. These responsibilities include, but are not limited to, directing and executing Active Duty for Training (ADT), adjudicating ADT waivers, managing ADT and tuition budgets for the SSRG, coordinating accessions into the Selected Reserve with Commander, Navy Recruiting Command (COMNAVCRUITCOM), soliciting and recommending officers for selection via the APPLY board, direct coordination with Navy Personnel Command (NAVPERSCOM) on record maintenance and retirement points, coordination with Naval Service Training Command (NSTC) (at the maritime academies), managing the mentoring program, liaising with the maritime industry and serving as the Navy’s subject matter expert for merchant mariner licensure and civilian training requirements.
b. **Administration of SSOs by CNRFC (N14) is indirect.** Communications are completed remotely using the internet, phone, fax, e-mail and mail. This structure is tailored to accommodate the scheduling needs of sailing merchant mariners and the disparate geographic distribution of the membership. The SSO Program Manager (PM) maintains direct and frequent contact with supported command(s), Deputy Chief of Naval Operations (DCNO) (N42), Commander, Military Sealift Command (COMSC), and the National Shipping Authority/U.S. Maritime Administration (MARAD) on training and support requirements. The program office can be contacted as follows:

c. **Health Records.** Per reference (e), SSRG officers remain members of the IRR. However, their records are maintained by NOSCs with coordination from the SSO Program Office.
