

# EIS PORTFOLIO

## SINGLE POINT OF CONTACT FOR ALL PROGRAM EXECUTIVE OFFICE (PEO) ENTERPRISE INFORMATION SYSTEM (EIS) PROGRAM MANAGEMENT WARFARE (PMWs)

**Bruce Carter**  
Portfolio Manager  
[bruce.carter@navy.mil](mailto:bruce.carter@navy.mil)  
(843) 218-4774

**Brian Ratliff**  
Deputy Portfolio Manager  
[brian.ratliff@navy.mil](mailto:brian.ratliff@navy.mil)  
(843) 218-5804

*Space and Naval Warfare Systems Center Atlantic (SSC Atlantic) is a Navy engineering and Information Technology (IT) Command, and part of the Naval Research & Development Establishment.*

*Our work is shaped by requirements that demand research and engineering with the goal of delivering the operational advantage gained from fully integrating Naval information functions, capabilities, and resources to optimize decision making and maximize warfighting effects.*

*Our business portfolios deliver the products and solutions that help our customers accomplish their mission today and into the future and most importantly, enable our Warfighters to secure America and promote global freedom.*

The EIS Portfolio delivers affordable IT products and services supporting global enterprise-wide networks, business, and Naval support systems. We deliver Information Warfare capabilities in a wide range of business areas:

- Navy manpower, personnel, pay, career management, and distribution
- Navy Enterprise Data Center management and application hosting
- Navy business systems and operations
- Naval enterprise networks
- Veterans benefits
- Strategic planning
- Cloud strategies
- Innovation Cell

**Delivering mission critical Information Warfare capabilities to the Naval Warfighter.**

# SSC ATLANTIC'S EIS INTEGRATED PRODUCT TEAMS

**Dedicated to providing professional management and engineering products and services to Navy PEO-EIS.**

## **Data Consolidation & Application Optimization (DCAO) / Matt Reeve, Office: (843) 218-5510 / Email: matt.reeve@navy.mil**

DCAO supports PEO EIS DCAO by consolidating multiple legacy data centers and systems into approved Navy Enterprise Data Centers and other Navy approved hosting locations. These support services include application engineering evaluation and virtualization to ensure applications are compatible with virtual enterprise service offerings.

## **Naval Enterprise Network & Navy Marine Corps Intranet (PMW 205) / Sybil Buchanan (Acting) /**

**Office: (202) 433-7434 / Email: sybil.buchanan@navy.mil**

Naval Enterprise Network (NEN) unifies the Navy's shore-based networks and data management to improve capability and service, while producing real cost savings for the Navy. Our PMW 205 provides network engineering, logistics, security, and Acquisition Project Management expertise to assist the NEN program in delivering enterprise-wide network services.

## **Innovation Cell / Richard Anderson / Office: (843) 218-4301 / Email: richard.l.anderson@navy.mil**

The Innovation Cell was launched in March 2015 as a new framework for identifying challenges, sharing those challenges with Industry and then discovering and implementing solutions. The Innovation Cell is charged with developing processes for discovering technologies, refining requirements, assessing technologies and providing a process for quicker acquisition of relevant IT. In FY16 Innovation Cell supported PMW 205 and PMW 240 on released Enterprise Challenges, develop a collaboration portal for Industry to Government, release FY16 Enterprise Challenges, and continue to mature the Innovation Cell.

## **Navy Enterprise Resource Planning (PMW 220) / Jim Turoff / Office: (202) 433-9353 / Email: jim.turoff@navy.mil**

The PMW 220 provides technical infrastructure architecture, application architecture (SAP BASIS), testing, QA, IA, Release Management and TIVOLI Operations for the Navy Enterprise Resource Planning (ERP) system. Our PMW 220 also supports SLDCADA, ePS, and Netezza with Technical infrastructure and has plans to grow support into several new enterprise application development efforts over the next 5 years.

## **Sea Warrior Program (PMW 240) / Ray Terminie / Office: (504) 697-1586 / Email: raymond.terminie@navy.mil**

PEO EIS PMW 240 manages a complex IT portfolio, enabling the enterprise-wide Navy Human Resource Management, including Personnel and Pay, Careers, Recruiting, Mobilization, Readiness & End Strength, Distribution & Order-writing, Promotions, Evaluations & Fitness Reports, Retirements. Our PMW 240 support includes: SW Engineering Development & Sustainment, Database Administration, Information Assurance, Testing, Logistics, Production Support, Project Management, Data Center Hosting, Customer Support, Requirements Management, Configuration Management, and Change Management.

## **Special Projects / Claudia Kiefer (Acting) / Office: (703) 604-1845 / Email: claudia.kiefer@navy.mil**

Our Special Projects is an incubator of project opportunities that may later transition into other teams for long term support. Some of the efforts include: Technical Director Support, Navy Maritime Maintenance Enterprise Solution (NMMES), Naval Justice Information Systems (NJIS), iNavy Portal, DON Tracker, Risk Management Information, Mobility Applications, DON Application and Database Management System (DADMS) and DoD IT Portfolio Repository (DITPR)-DON.

## **Commercial Services Integration / Jeff Hays / Office: (843) 218-2384 / Email: jeffrey.w.hays@navy.mil**

The CSI is the execution team for the DON cloud strategy. The team leverages commercial enterprise cloud offerings to provide Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS). This business model reduces cost while providing a consolidation point (cloud access point) for heterogeneous hardware, software, network, administrative, engineering, data, Continuity of Operations (COOP), and Information Assurance (IA)/Network Security (NetSec) services into an integrated homogeneous environment. The CSI provides C&A and T&E support to ensure commercial products are secured, functionally verified, and accredited, to include infrastructures, systems, applications, and services.
