Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO - Serco Inc., of Reston, Va., is being awarded a \$1,350,550 firm-fixed price and cost-plus fixed fee contract for the Automated Digital Network System (ADNS) Increment III.

ADNS provides surface, submarine, shore and airborne platforms access to the tactical Wide Area Network for Navy Internet Protocol (IP) network operations. ADNS Increment III shall provide an all-IP converged voice, video and data solution with the ability to transport non-IP legacy applications. ADNS Increment III afloat systems will support 25-50 megabits per second aggregate throughput, depending on variant, and efficiently allocate network bandwidth through the use of dynamic bandwidth management.

This contract includes options which, if exercised, would bring the cumulative value of this contract to an estimated \$68,795,729.

Work will be performed in Chula Vista, Calif., and is expected to be completed nine months after the date of award.

If all options are exercised, work could continue until July 2017. Contract funds will not expire at the end of the current fiscal year.

This contract was competitively procured with unlimited proposals solicited and three offers received via the Commerce Business Daily's Federal Business Opportunities website and the SPAWAR e-Commerce Central website.

The Space and Naval Warfare Systems Command, San Diego, is the contracting activity (N00039-12-C-0105).
